(57) **CLAIM**

We claim the ornamental design for a rearview mirror, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing the front and a first side of the rearview mirror of the present invention;

FIG. 2 is a front elevational view of the rearview mirror of the present invention;

FIG. 3 is a rear elevational view of the rearview mirror of the present invention;

FIG. 4 is a top elevational view of the rearview mirror of the present invention;

FIG. 5 is a side elevational view of a second side of the rearview mirror of the present invention;

FIG. 6 is a bottom elevational view of the rearview mirror of the present invention; and,

FIG. 7 is a side elevational view of the first side of the rearview mirror of the present invention.

The broken lines showing the rear portion of a mirror housing, a display panel and a support element are for illustrative purposes only and form no part of the claimed design.
