(57) **CLAIM**

The ornamental design for a vehicle trim piece, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of a trim piece in accordance with the present invention, the portion of the back surface visible in FIG. 1 is shown in dashed lines because the back surface forms no part of the claimed design.

FIG. 2 is a top view of a vehicle trim piece of FIG. 1, with lenses of marker lights shown in dashed lines because they form no part of the claimed design;

FIG. 3 is a side elevational view of the trim piece of FIG. 1;

FIG. 4 is a bottom view of the trim piece of FIG. 1, with lenses of marker lights shown in dashed lines because they form no part of the claimed design;

FIG. 5 is an enlarged end view of the trim piece of FIG. 1, with a lens of a marker light shown in dashed lines because it forms no part of the claimed design; and,

FIG. 6 is an enlarged end view of the trim piece of FIG. 1, from the opposite end from that shown in FIG. 5, and illustrating the lens and back surface in dashed lines because they form no part of the claimed design.

A second embodiment of the present invention is the mirror image of the embodiment shown in FIGS. 1-6.
