(57) **CLAIM**

The ornamental design for a wall phone component, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a wall phone component according to the invention.

FIG. 2 is a front elevational view of a wall phone component according to the invention.

FIG. 3 is a rear elevational view of a wall phone component according to the invention.

FIG. 4 is a left side elevational view of a wall phone component according to the invention.

FIG. 5 is a right side elevational view of a wall phone component according to the invention.

FIG. 6 is a top plan view of a wall phone component according to the invention.

FIG. 7 is a bottom plan view of a wall phone component according to the invention; and,

FIG. 8 is a perspective view of a wall phone component according to the invention, environmental and contextual dotted lines removed except for the broken lines which set forth, but are not a part of, the interior boundaries of the claimed design.

The broken, non-solid lines are for illustrative and contextual purposes only, and form no part of the claimed invention. The heavy solid lines establish the claim subject matter which is most readily seen in FIG. 8.
