(57) **CLAIM**

We claim the ornamental design for a track lighting fixture, as shown and described.

DESCRIPTION

FIG. 1 is A left, top and rear perspective view showing the bracket attachment member of the new track lighting fixture design.

FIG. 2 is A front, right and bottom perspective view showing the bracket attachment member of the new track lighting fixture design.

FIG. 3 is A partial front, right and top exploded perspective view of an embodiment showing a tube, track, and bracket attachment member of the new track lighting fixture design.

FIG. 4 is A partial front, left and top side perspective view of an embodiment showing a tube, a portion of the track and the bracket attachment member of the new track lighting fixture design.

FIG. 5 is A partial front, top and left exploded perspective view of an embodiment showing a portion of the track, the bracket attachment member, and a cable attachment member of the new track lighting fixture design; and,

FIG. 6 is A partial front, top and left perspective view of an embodiment showing a portion of the track, the bracket attachment member, and a cable attachment member of the new track lighting fixture design.
