(57) **CLAIM**

The ornamental design for a magnetic fastener, as shown and described.

DESCRIPTION

FIG. 1 is a bottom isometric view of the male fastener and the female fastener of a magnetic fastener in their separated or detached position with female fastener member overlying the male fastener member.

FIG. 2 is a bottom isometric view of the male fastener and the female fastener of the magnetic fastener of FIG. 1 in their attracted or fastened position;

FIG. 3 is a top isometric view of the male fastener and the female fastener of a magnetic fastener in their separated or detached position with the female member overlying the male fastener member; and,

FIG. 4 is a top isometric view of the male fastener and the female fastener of the magnetic fastener of FIG. 3 in their attracted or fastened position.
