(57) **CLAIM**

The ornamental design for a programmable remote engine starting system, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of the programmable remote engine starting system of the present invention; FIG. 2 is a rear elevational view of the programmable remote engine starting system of FIG. 1; FIG. 3 is a left side elevational view of the programmable remote engine starting system of FIG. 1, the right view being a mirror image thereof; and, FIG. 4 is a top plan view of the programmable remote engine starting system of FIG. 1, the bottom plan being a mirror image thereof.
