(57) **CLAIM**

The ornamental design for a page holder device, as shown and described.

DESCRIPTION

The page holder device is used for holding open the pages of a book. The page holder device includes an aperture for receiving a person's finger, a V-shaped base formation that can be pressed into a central join region of the pages of an open book and a pair of side extensions which can be pressed onto the pages of the book for holding the pages open.

FIG. 1 is a front view of a page holder device showing my new design;

FIG. 2 is a rear view thereof;

FIG. 3 is a top plan view thereof;

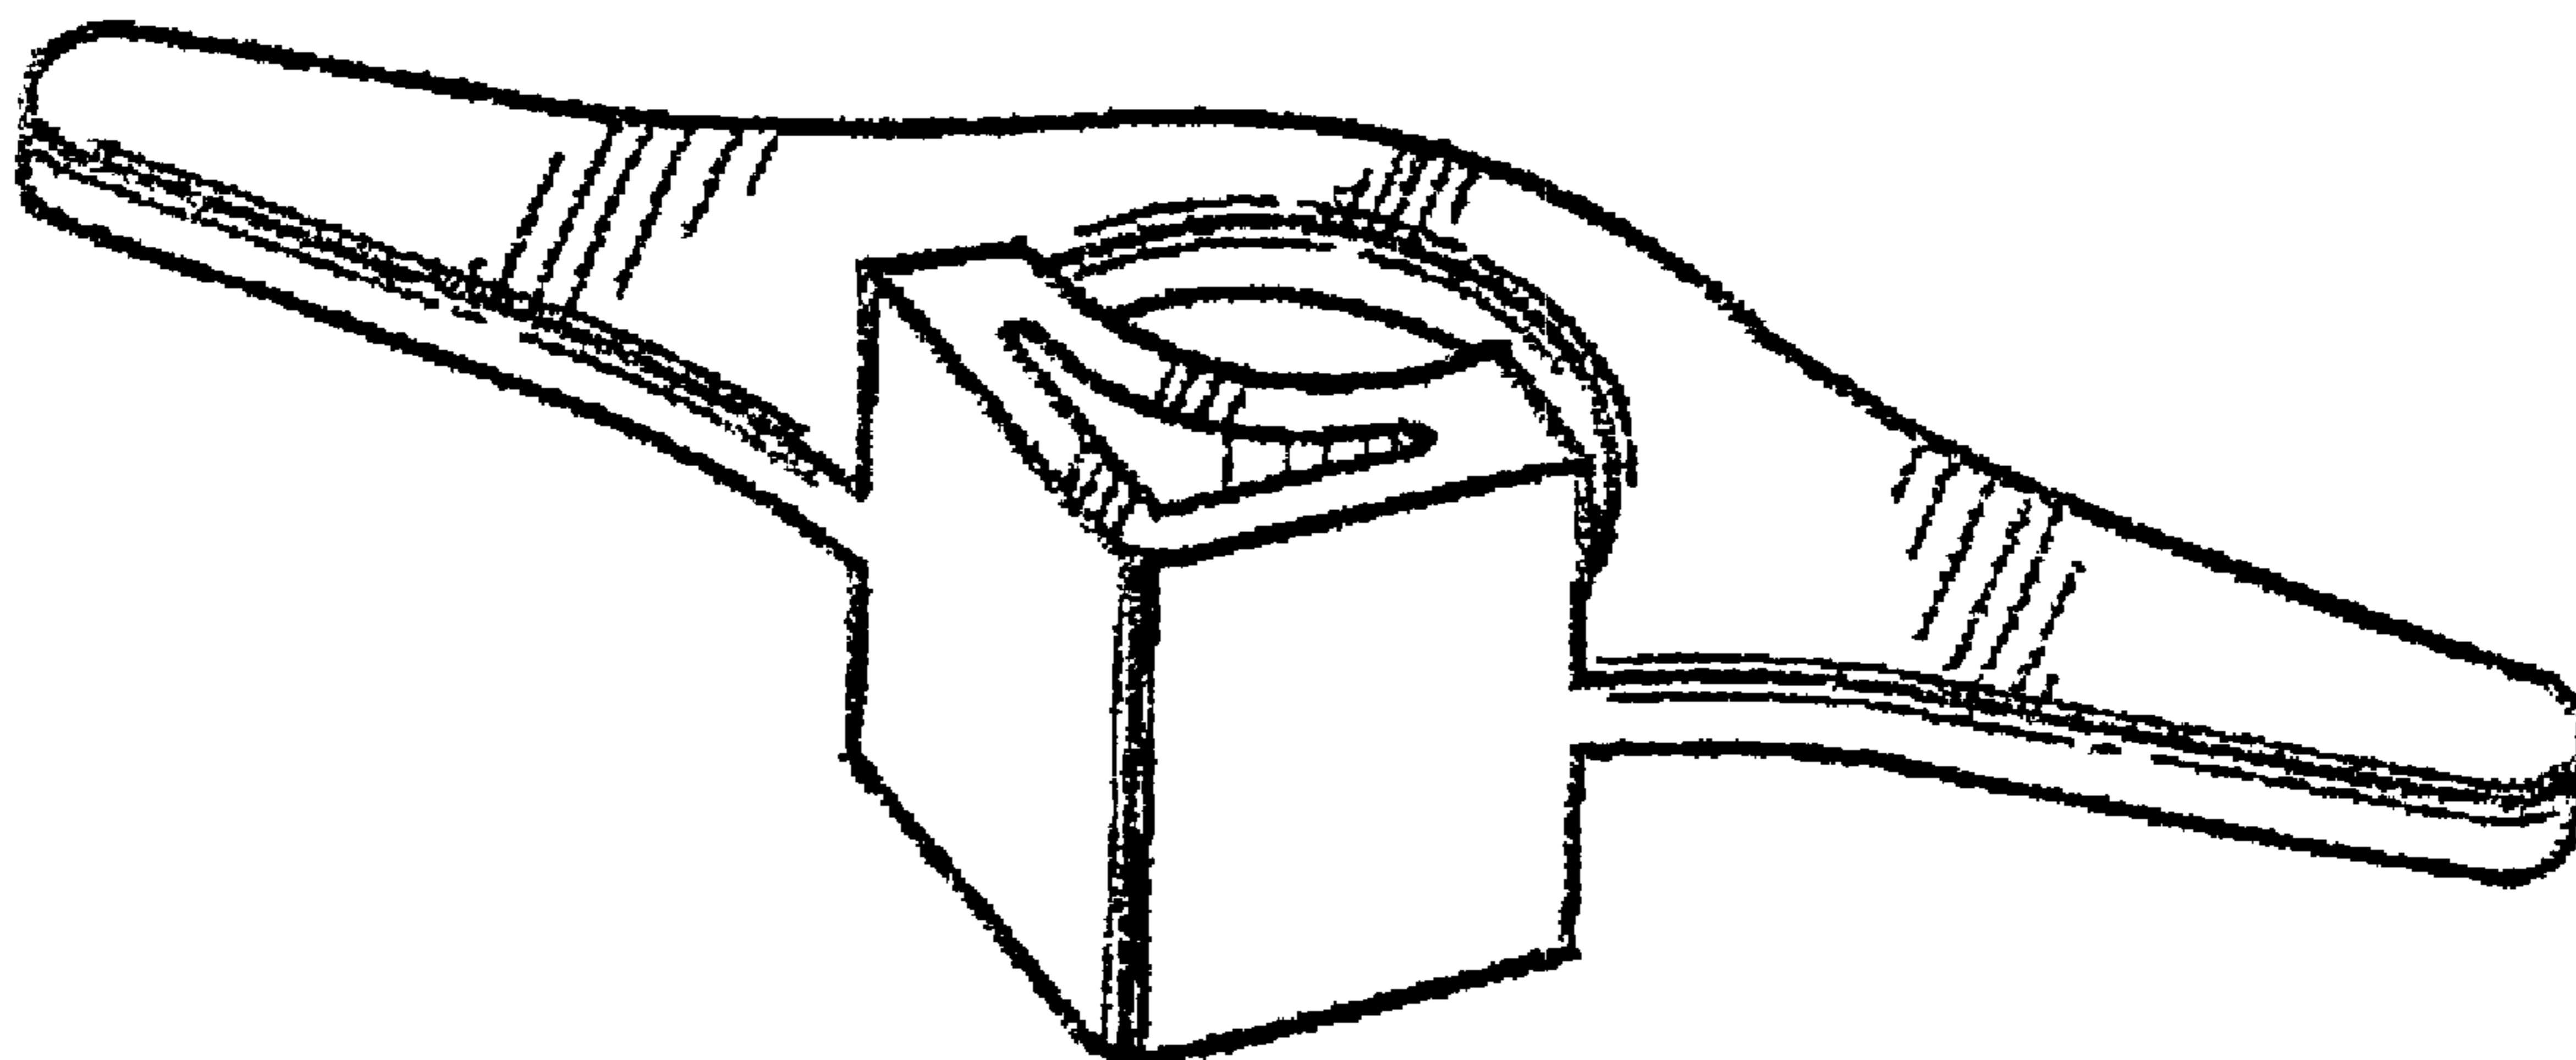

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a right end view thereof;

FIG. 6 is a left end view thereof; and,

FIG. 7 is a three-dimensional view thereof.
