(57) **CLAIM**

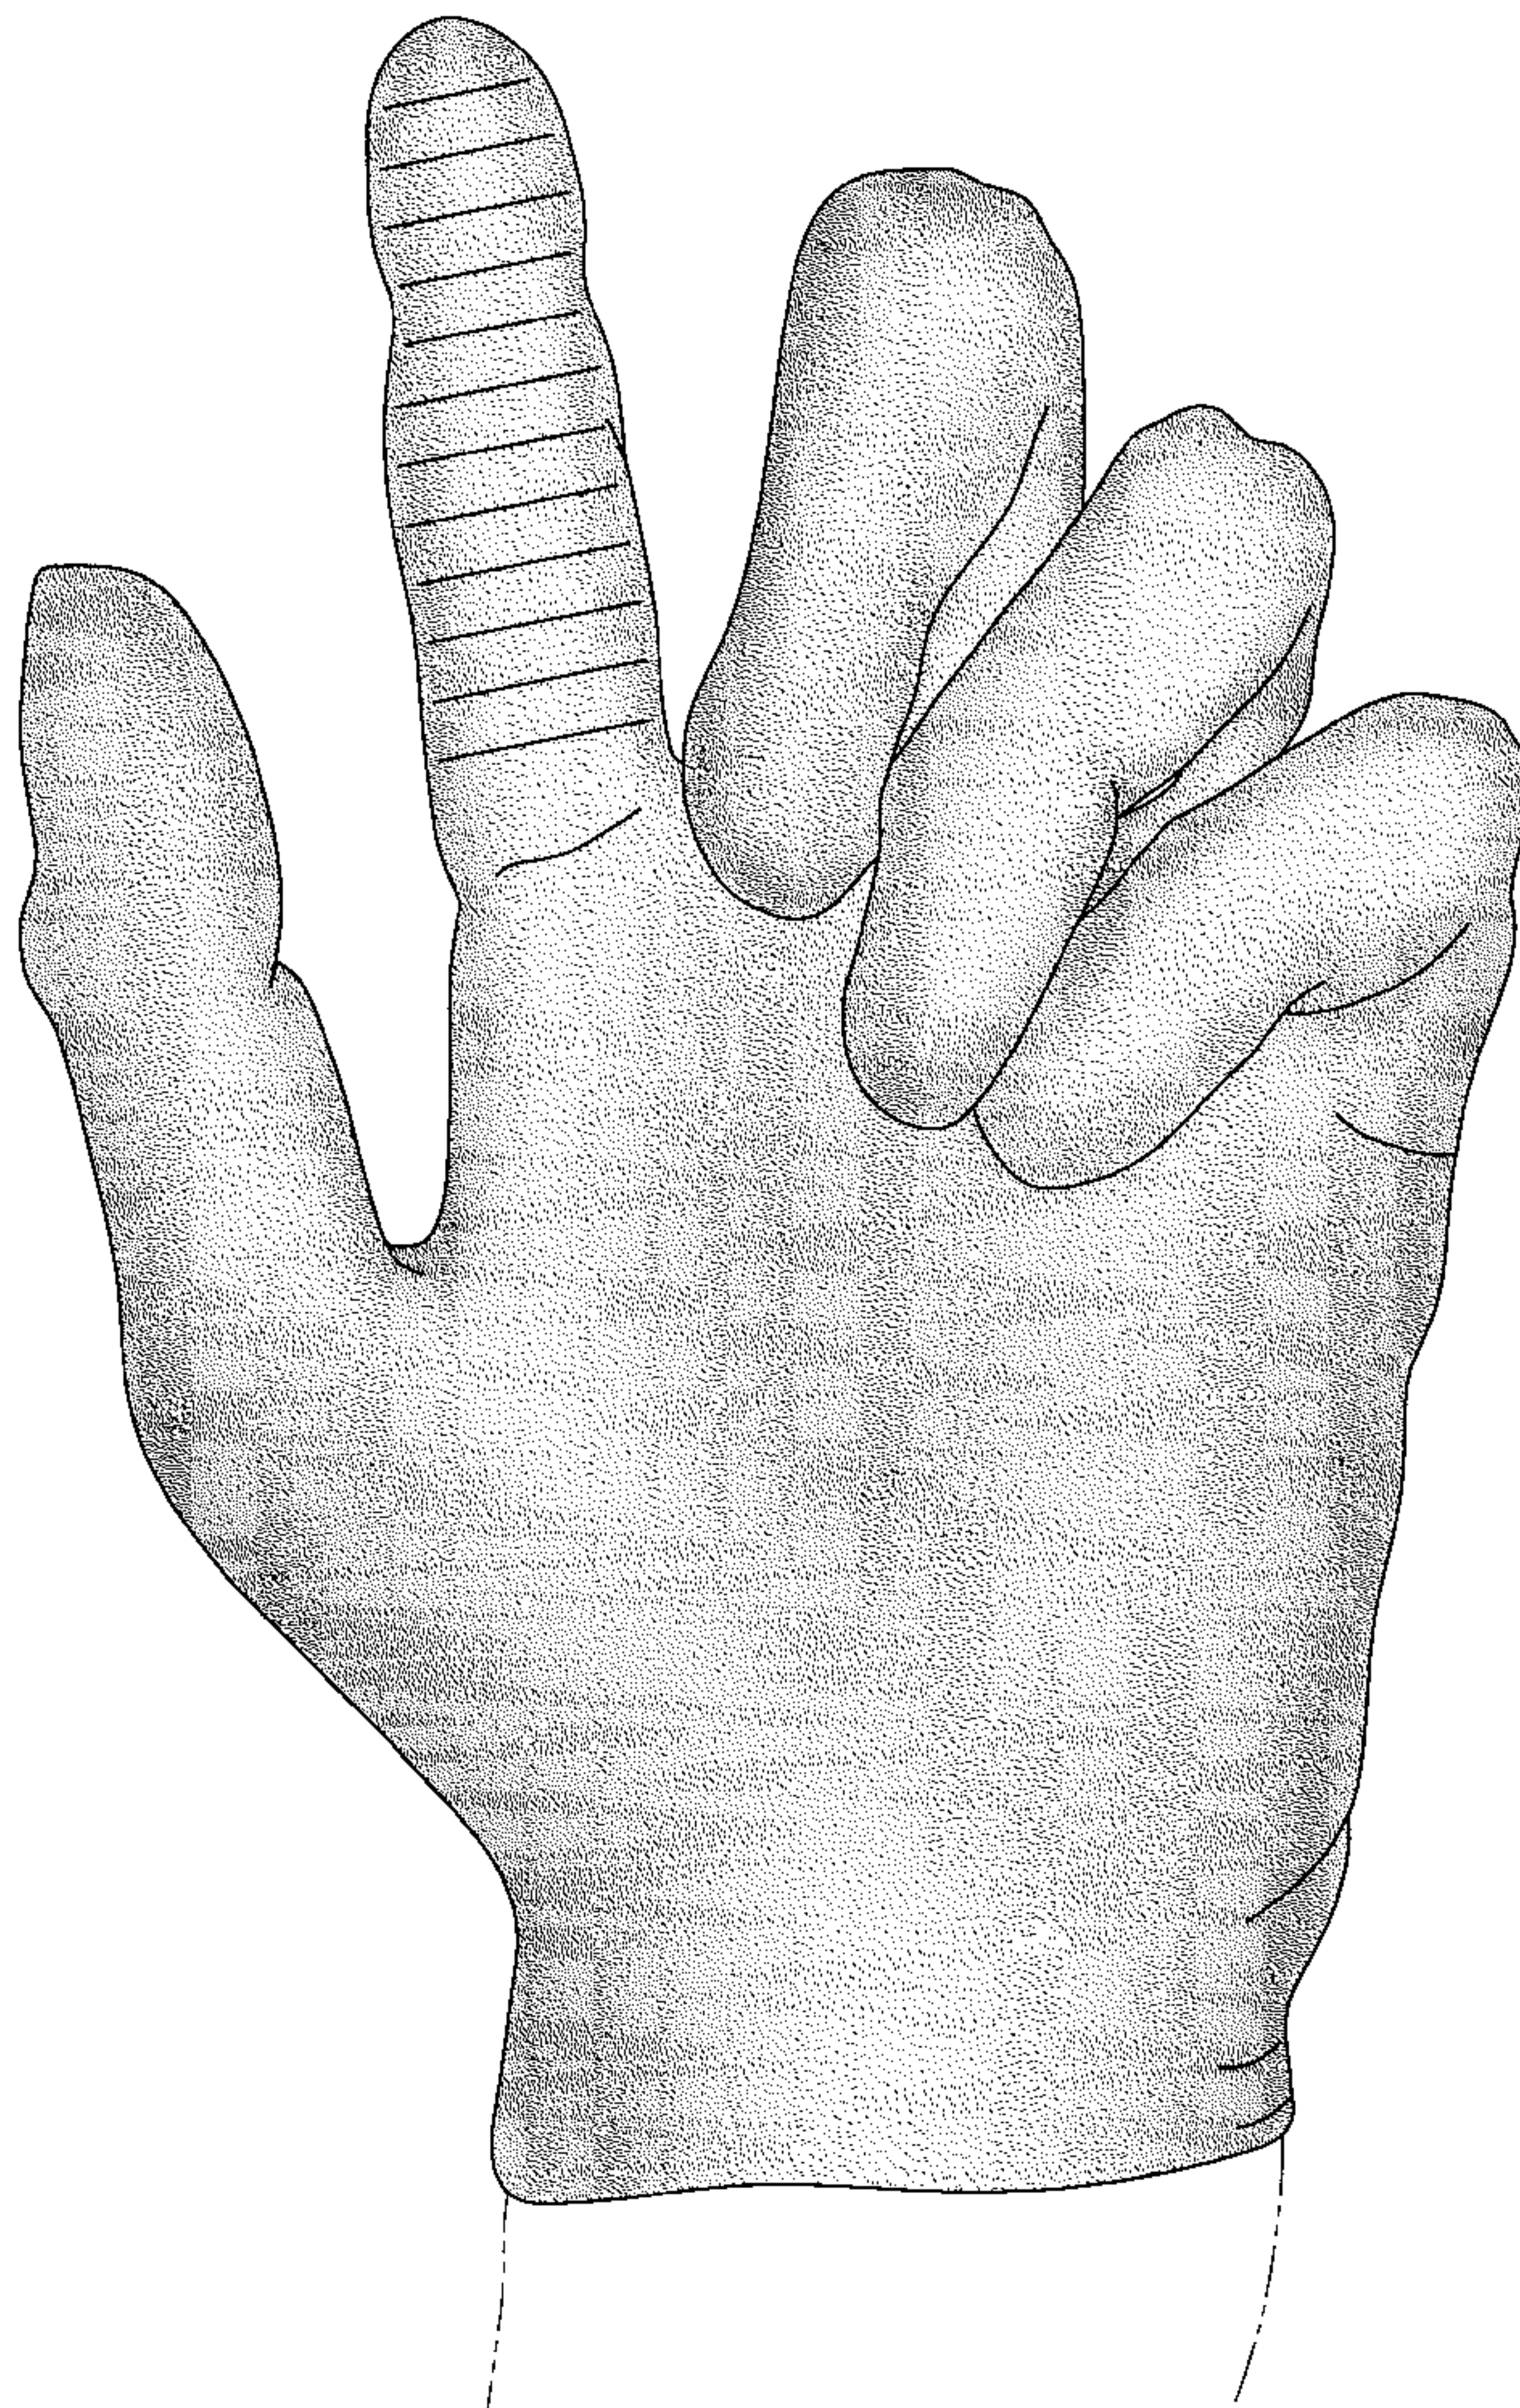

The ornamental design for a glove with equally spaced markings, as shown and described.

DESCRIPTION

The FIGURE is a front perspective view of a glove with equally-spaced markings showing my new design in condition of use on a human hand shown in broken lines and forming no part of the claimed design.

The index finger of the glove is marked at equally-spaced intervals on the palm side by solid lines which can be correlated with units of measurement for use in measuring the size of an object during an examination.
