(57) **CLAIM**

The ornamental design for a filter cartridge container, as shown and described.

**DESCRIPTION**

The article is a container for holding a filter cartridge.

FIG. 1 is a front view of the filter cartridge container embodying our new design, the opposite side being a mirror image.

FIG. 2 is a side view of the filter cartridge container.

FIG. 3 is a top view of the filter cartridge container.

FIG. 4 is a bottom view of the filter cartridge container.

FIG. 5 is a perspective view of the filter cartridge container.

FIG. 6 is a front view of a second embodiment of the filter cartridge container embodying our new design, the opposite side being a mirror image.

FIG. 7 is a side view of the second embodiment of the filter cartridge container.

FIG. 8 is a top view of the second embodiment of the filter cartridge container.

FIG. 9 is a bottom view of the second embodiment of the filter cartridge container.

FIG. 10 is a perspective view of the second embodiment of the filter cartridge container.

FIG. 11 is a front view of a third embodiment of the filter cartridge container embodying our new design, the opposite side being a mirror image.

FIG. 12 is a side view of the third embodiment of the filter cartridge container.

FIG. 13 is a top view of the third embodiment of the filter cartridge container.

FIG. 14 is a bottom view of the third embodiment of the filter cartridge container.

FIG. 15 is a perspective view of the third embodiment of the filter cartridge container.

FIG. 16 is a front view of a fourth embodiment of the filter cartridge container embodying our new design, the opposite side being a mirror image.

FIG. 17 is a side view of the fourth embodiment of the filter cartridge container.

FIG. 18 is a top view of the fourth embodiment of the filter cartridge container.

FIG. 19 is a bottom view of the fourth embodiment of the filter cartridge container; and,

FIG. 20 is a perspective view of the fourth embodiment of the filter cartridge container.
