(57) **CLAIM**

The ornamental design as shown and described for an
electrical equipment housing.

DESCRIPTION

The housing of this invention is suitable for holding elec-
trical equipment such as communications circuitry for resi-
dential buildings. The housing is designed for wall mounting
and has a faceplate with a projecting surface having a
slightly convex cylindrical curvature.

FIG. 1 is a perspective view of the housing with the top
surface of the housing facing the viewer.

FIG. 2 is a perspective view of the housing with the bottom
surface of the housing facing the viewer.

FIG. 3 is a front elevation view of the housing oriented with
the top at the top of the page; and,
FIGS. 4, 5, and 6 are respectively bottom, top, and right side
elevation views of the housing.

The rear view of the electrical equipment housing forms no
part of the claimed design.
