Reed; Alan A. Csontos

(57) **CLAIM**

The ornamental design for a tire tread, as shown and  
described.

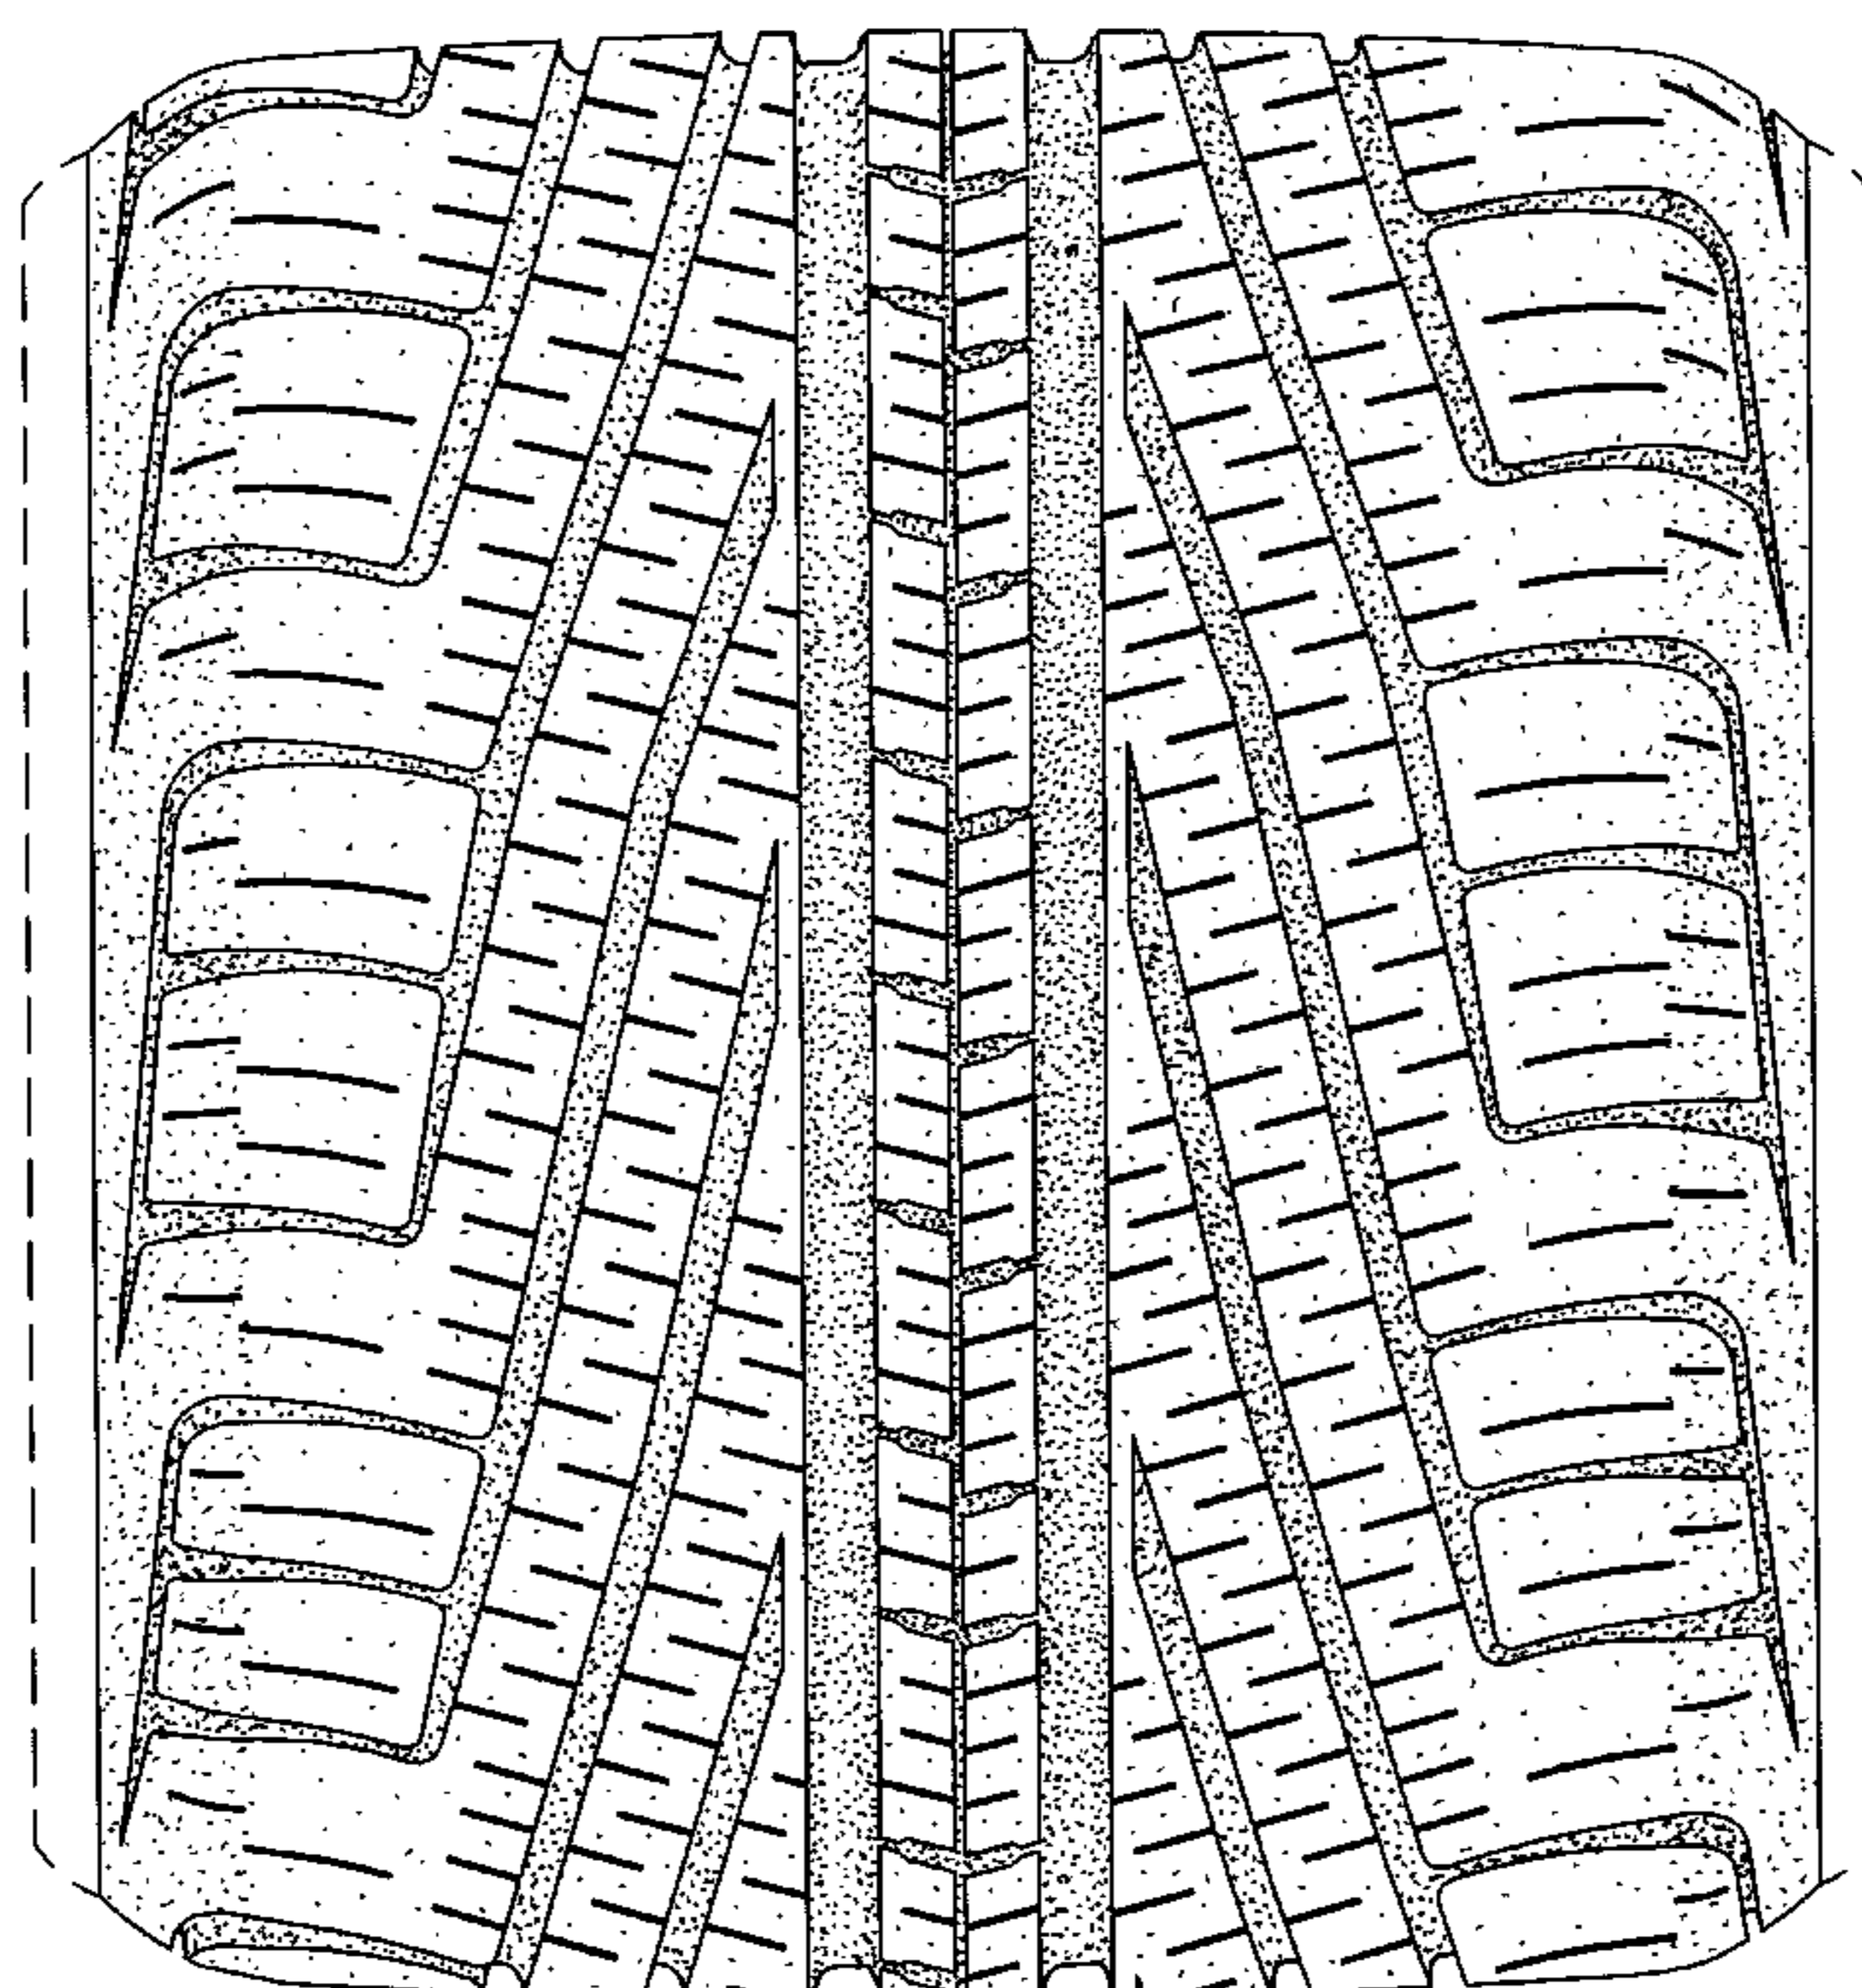

**DESCRIPTION**

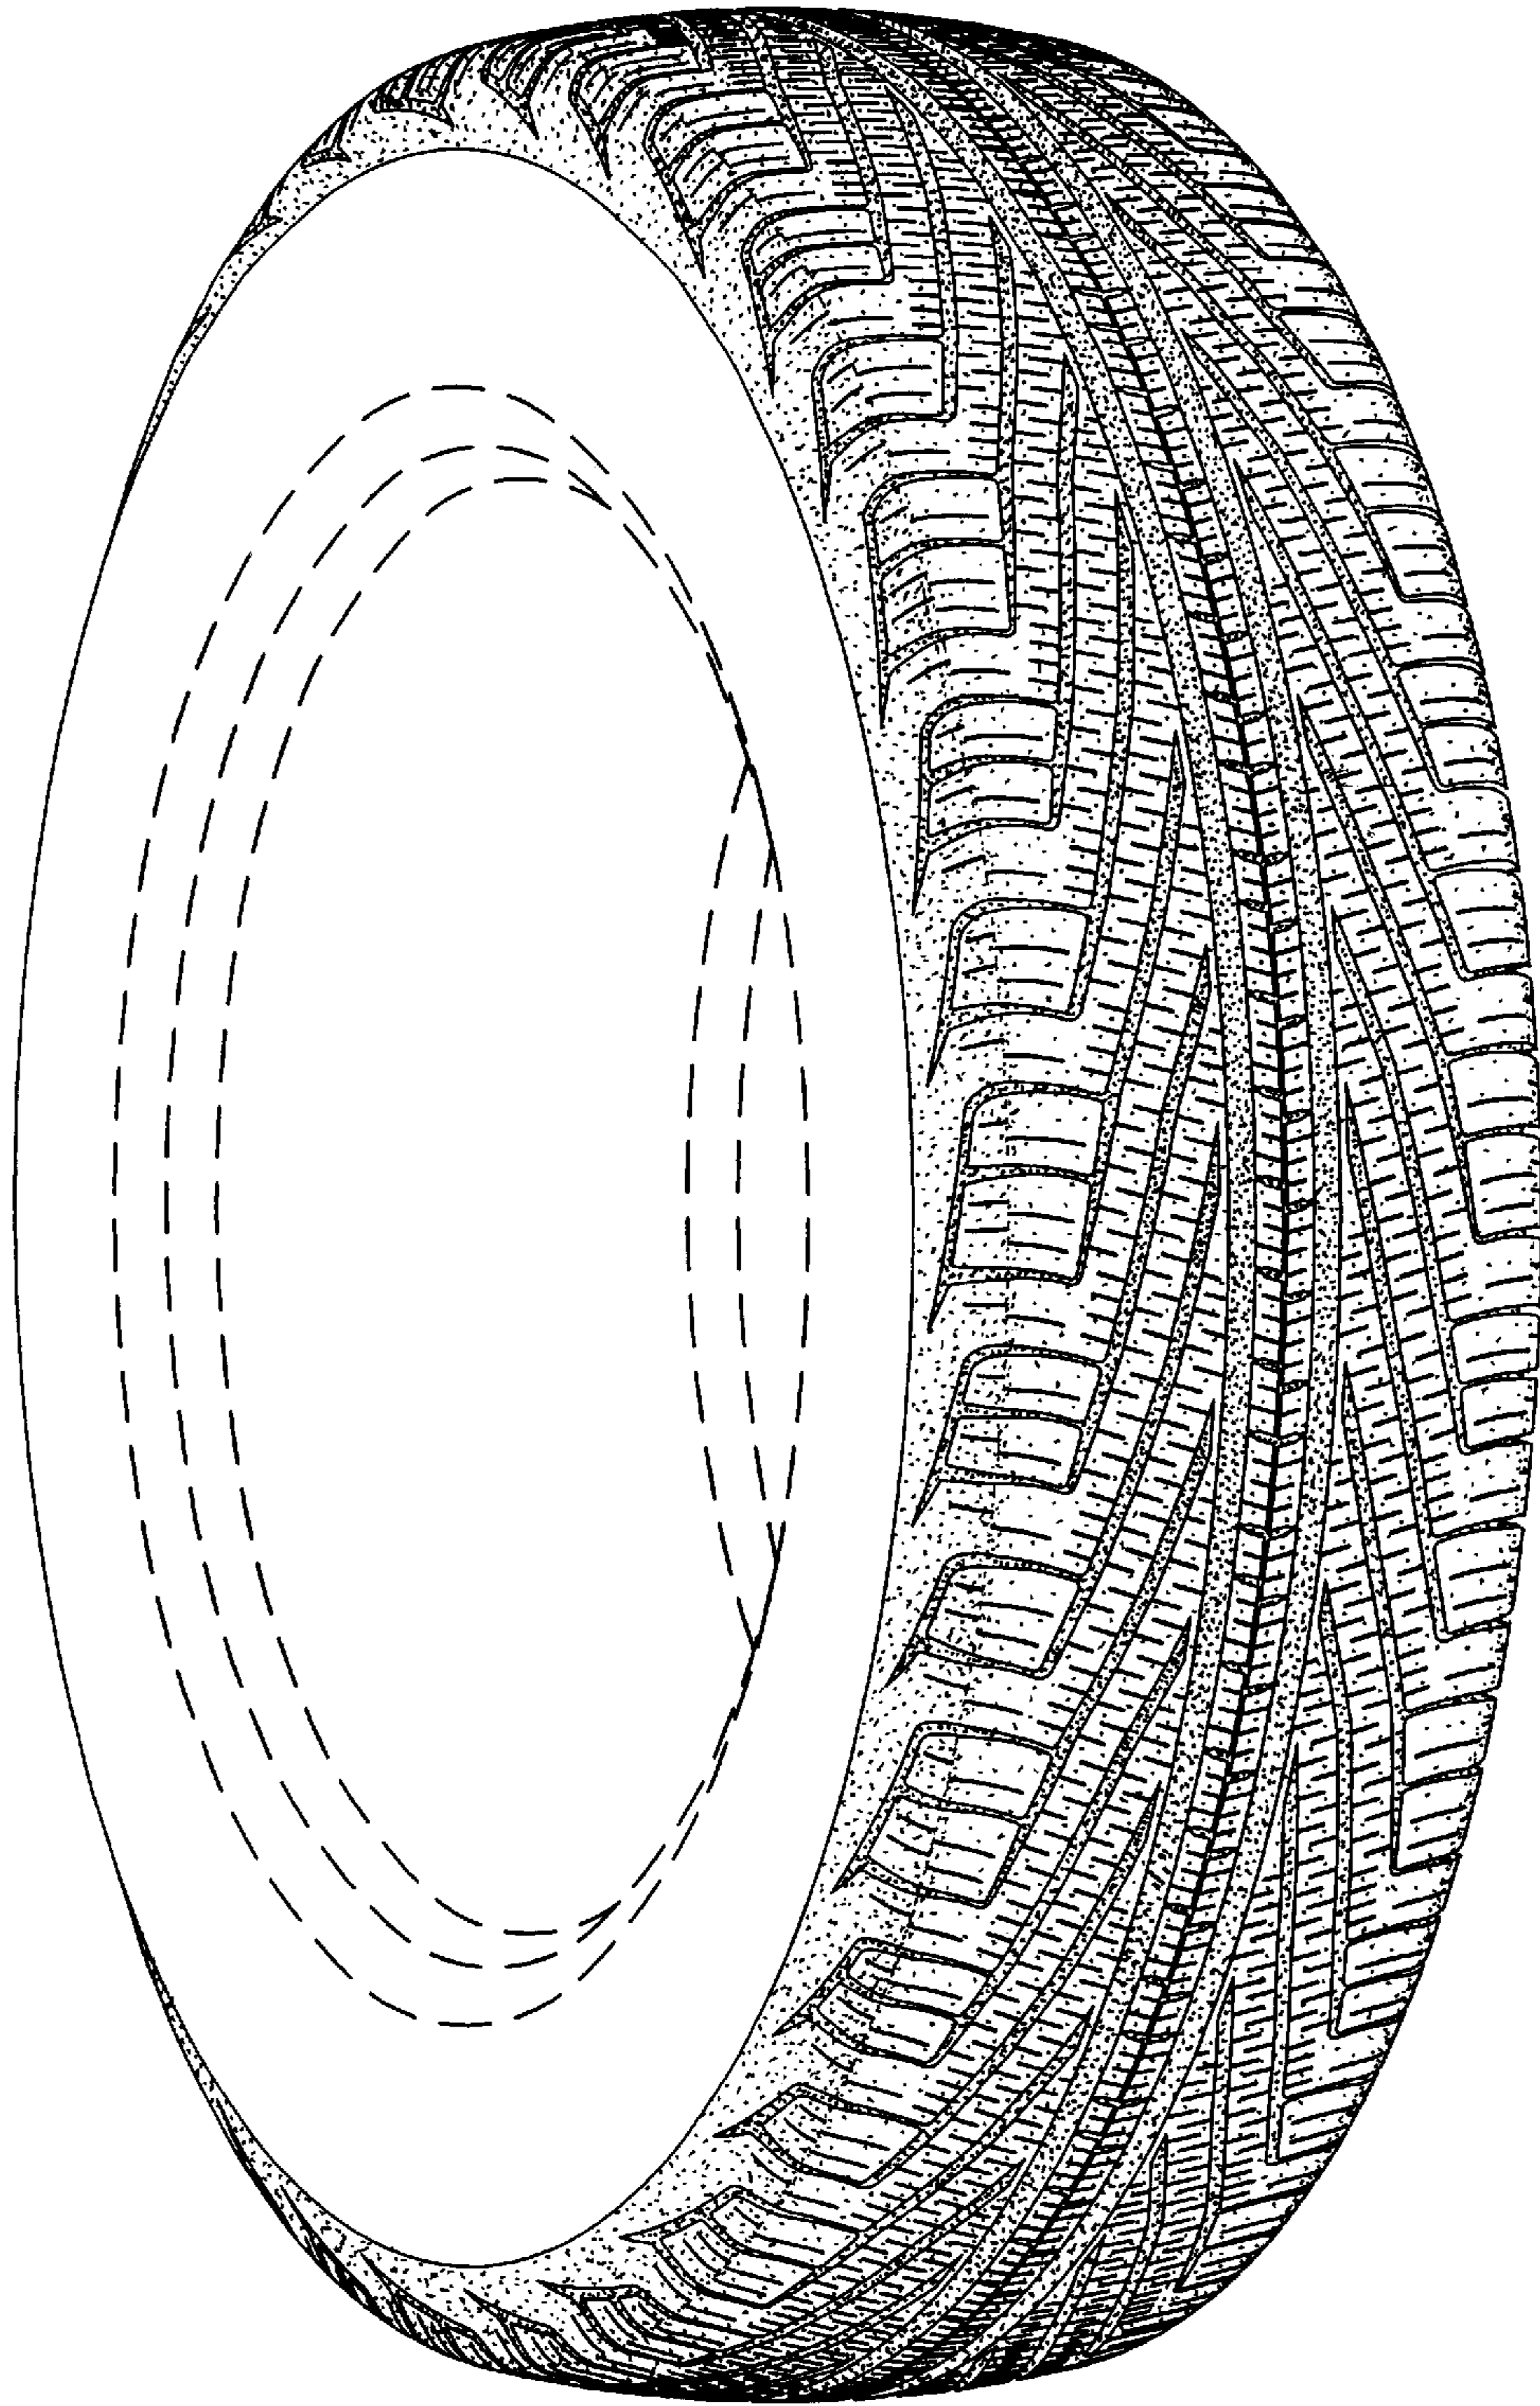

FIG. 1 is a perspective view of a tire tread showing our new  
design, it being understood that a tread pattern is repeated  
over the outer circumference and shoulder of a tire, the  
opposite side being substantially an inverted mirror image of  
that illustrated; and,

FIG. 2 is an enlarged fragmentary front elevation view of the  
tread pattern of FIG. 1 showing our new design for the tire  
tread.

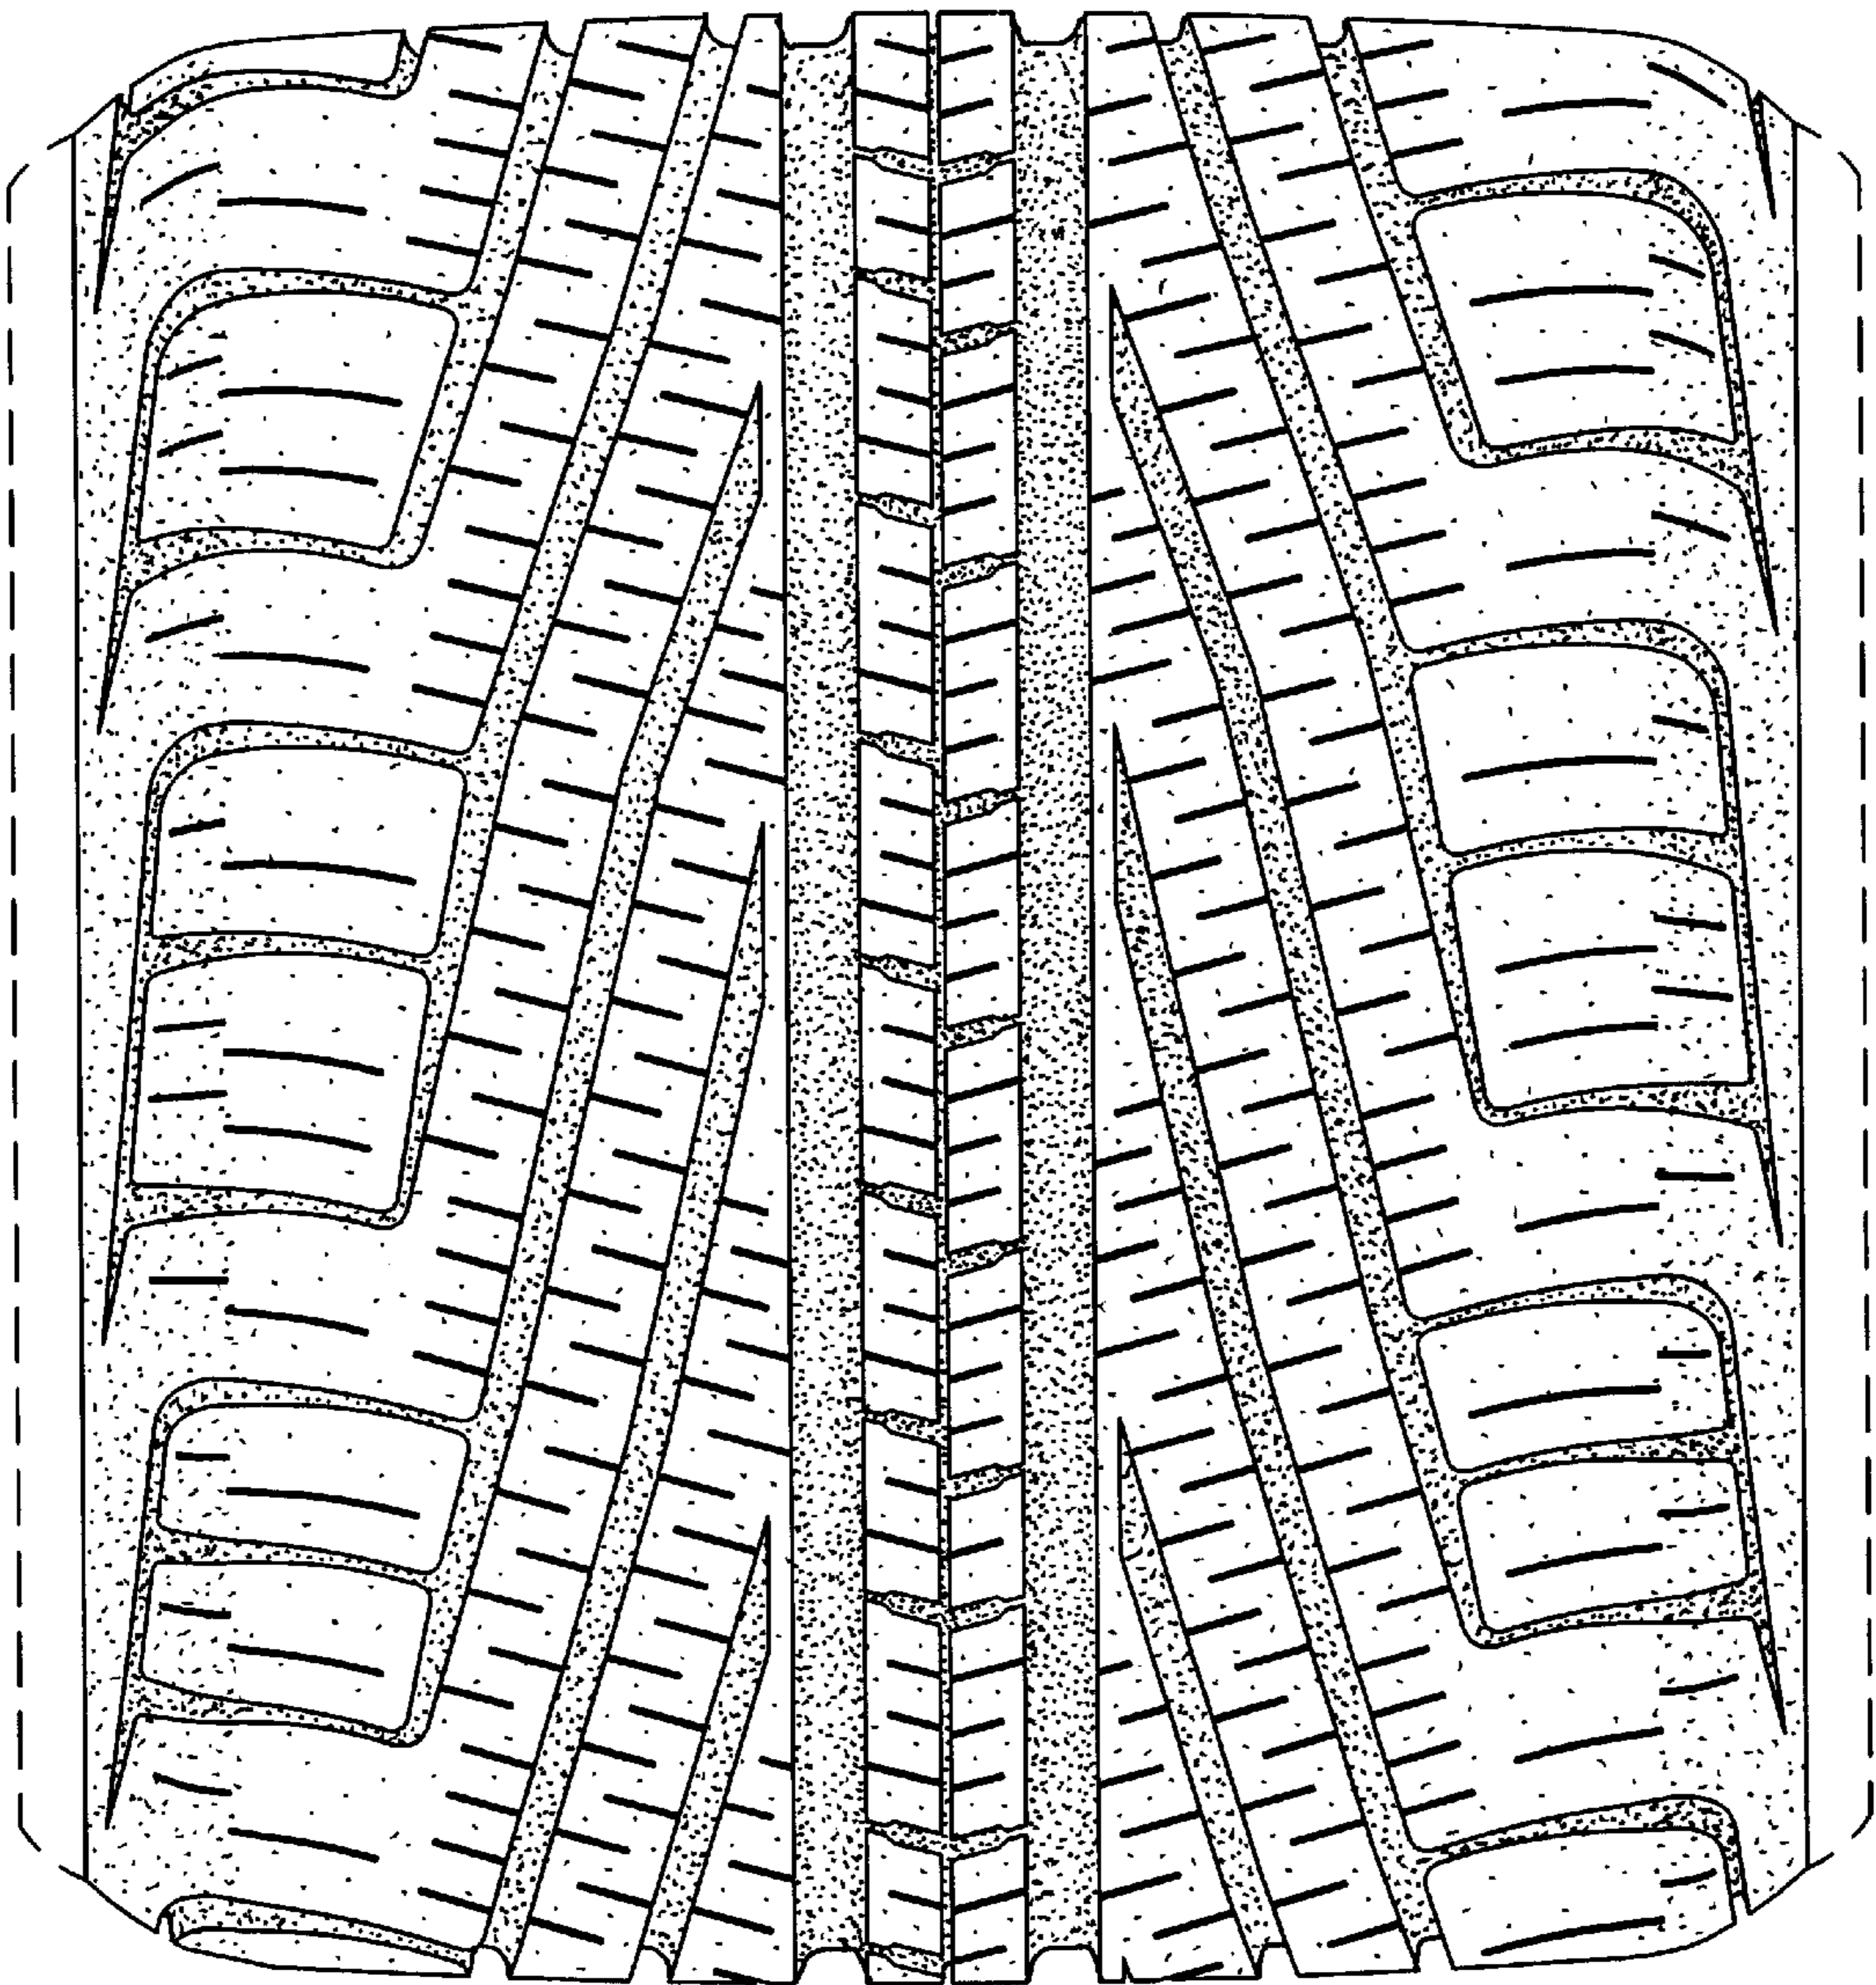

The broken line showing of a tire sidewall and inner bead is  
for illustrative purposes only and forms no part of the  
claimed design.
