(57) **CLAIM**

The ornamental design for a modular keyboard, as shown
and described.

DESCRIPTION

FIG. 1 is an elevated right side perspective view showing the
modular keyboard with an integral scanner module on the
right side and an integral magnetic card stripe reader on the
left side;

FIG. 2 is a top plan view thereof the bottom portion of the
keyboard is not part of the claimed design;

FIG. 3 is a left side elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a front elevational view thereof; and,

FIG. 6 is a rear elevational view thereof.

The keypads, lock console, the connector ports and the jacks
are shown in broken lines and are not part of the claimed
design further the integral scanner module and the integral
magnetic card stripe reader can be reversed so that the
integral scanner appears on the left and the integral magnetic
card stripe reader appears on the right side of the keyboard.
