**DESCRIPTION**

FIG. 1 is a perspective view of a filter frame holding flexible, irregular media;  
FIG. 2 is a top plan view of FIG. 1;  
FIG. 3 is a bottom plan view of FIG. 1;  
FIG. 4 is a front elevational view of FIG. 1, the rear elevational view being similar in appearance; the flexible, irregular media providing some variation in appearance;  
FIG. 5 is an end elevational view of FIG. 1, the opposite end elevational view being similar in appearance; the flexible, irregular media providing some variation and appearance;  
FIG. 6 is a perspective view of a second embodiment of a filter frame holding flexible, irregular media, the filter media being lined to indicate that it is a blue color;  
FIG. 7 is a top plan view of FIG. 6;  
FIG. 8 is a bottom plan view of FIG. 6;  
FIG. 9 is a front elevational view of FIG. 6, the rear elevational view being similar in appearance; the flexible, irregular media providing some variation in appearance; and,  
FIG. 10 is an end elevational view of FIG. 6, the opposite end elevational view being similar in appearance, the flexible, irregular media providing some variation in appearance.
