(57) **CLAIM**

The ornamental design for a ceiling rack for pots, pans and utensils, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a ceiling rack in accordance with one embodiment of the present invention.

FIG. 2 is a side view of the ceiling rack of FIG. 1 looking from the right side of FIG. 1, it being understood that the side view from the left side is a mirror image of the view shown in FIG. 2.

FIG. 3 is a top view of the ceiling rack of FIG. 1.

FIG. 4 is a front view of a ceiling rack of FIG. 1, it being understood that the rearview is the same as the front view except that the fastener heads visibly shown in the front view are typically not visible in the rear view.

FIG. 5 illustrates a bottom view of the ceiling rack of FIG. 1.

FIG. 6 is a perspective view of an alternative form of ceiling rack in accordance with the present invention having a grid.

FIG. 7 is a side view of the ceiling rack of FIG. 6 looking from the right side of FIG. 6, it being understood that the side view from the left side is a mirror image of the view shown in FIG. 6.

FIG. 8 is a top view of the ceiling rack of FIG. 6.

FIG. 9 is a front view of the ceiling rack of FIG. 6, it being understood that the rearview is the same as the front view except that the fastener heads visibly shown in the front view are typically not visible in the rearview; and,

FIG. 10 illustrates a bottom view of the ceiling rack of FIG. 6.
