(57) **CLAIM**

The ornamental design for a bottle, as shown and described.

DESCRIPTION

The present invention is a bottle used to deliver an irrigating solution to a surgical site or used to deliver an intravenous infusion fluid to a patient.

FIG. 1 is an upper, left, front perspective view of the bottle of the present invention.

FIG. 2 is a lower, left, front perspective view of the bottle of the present invention.

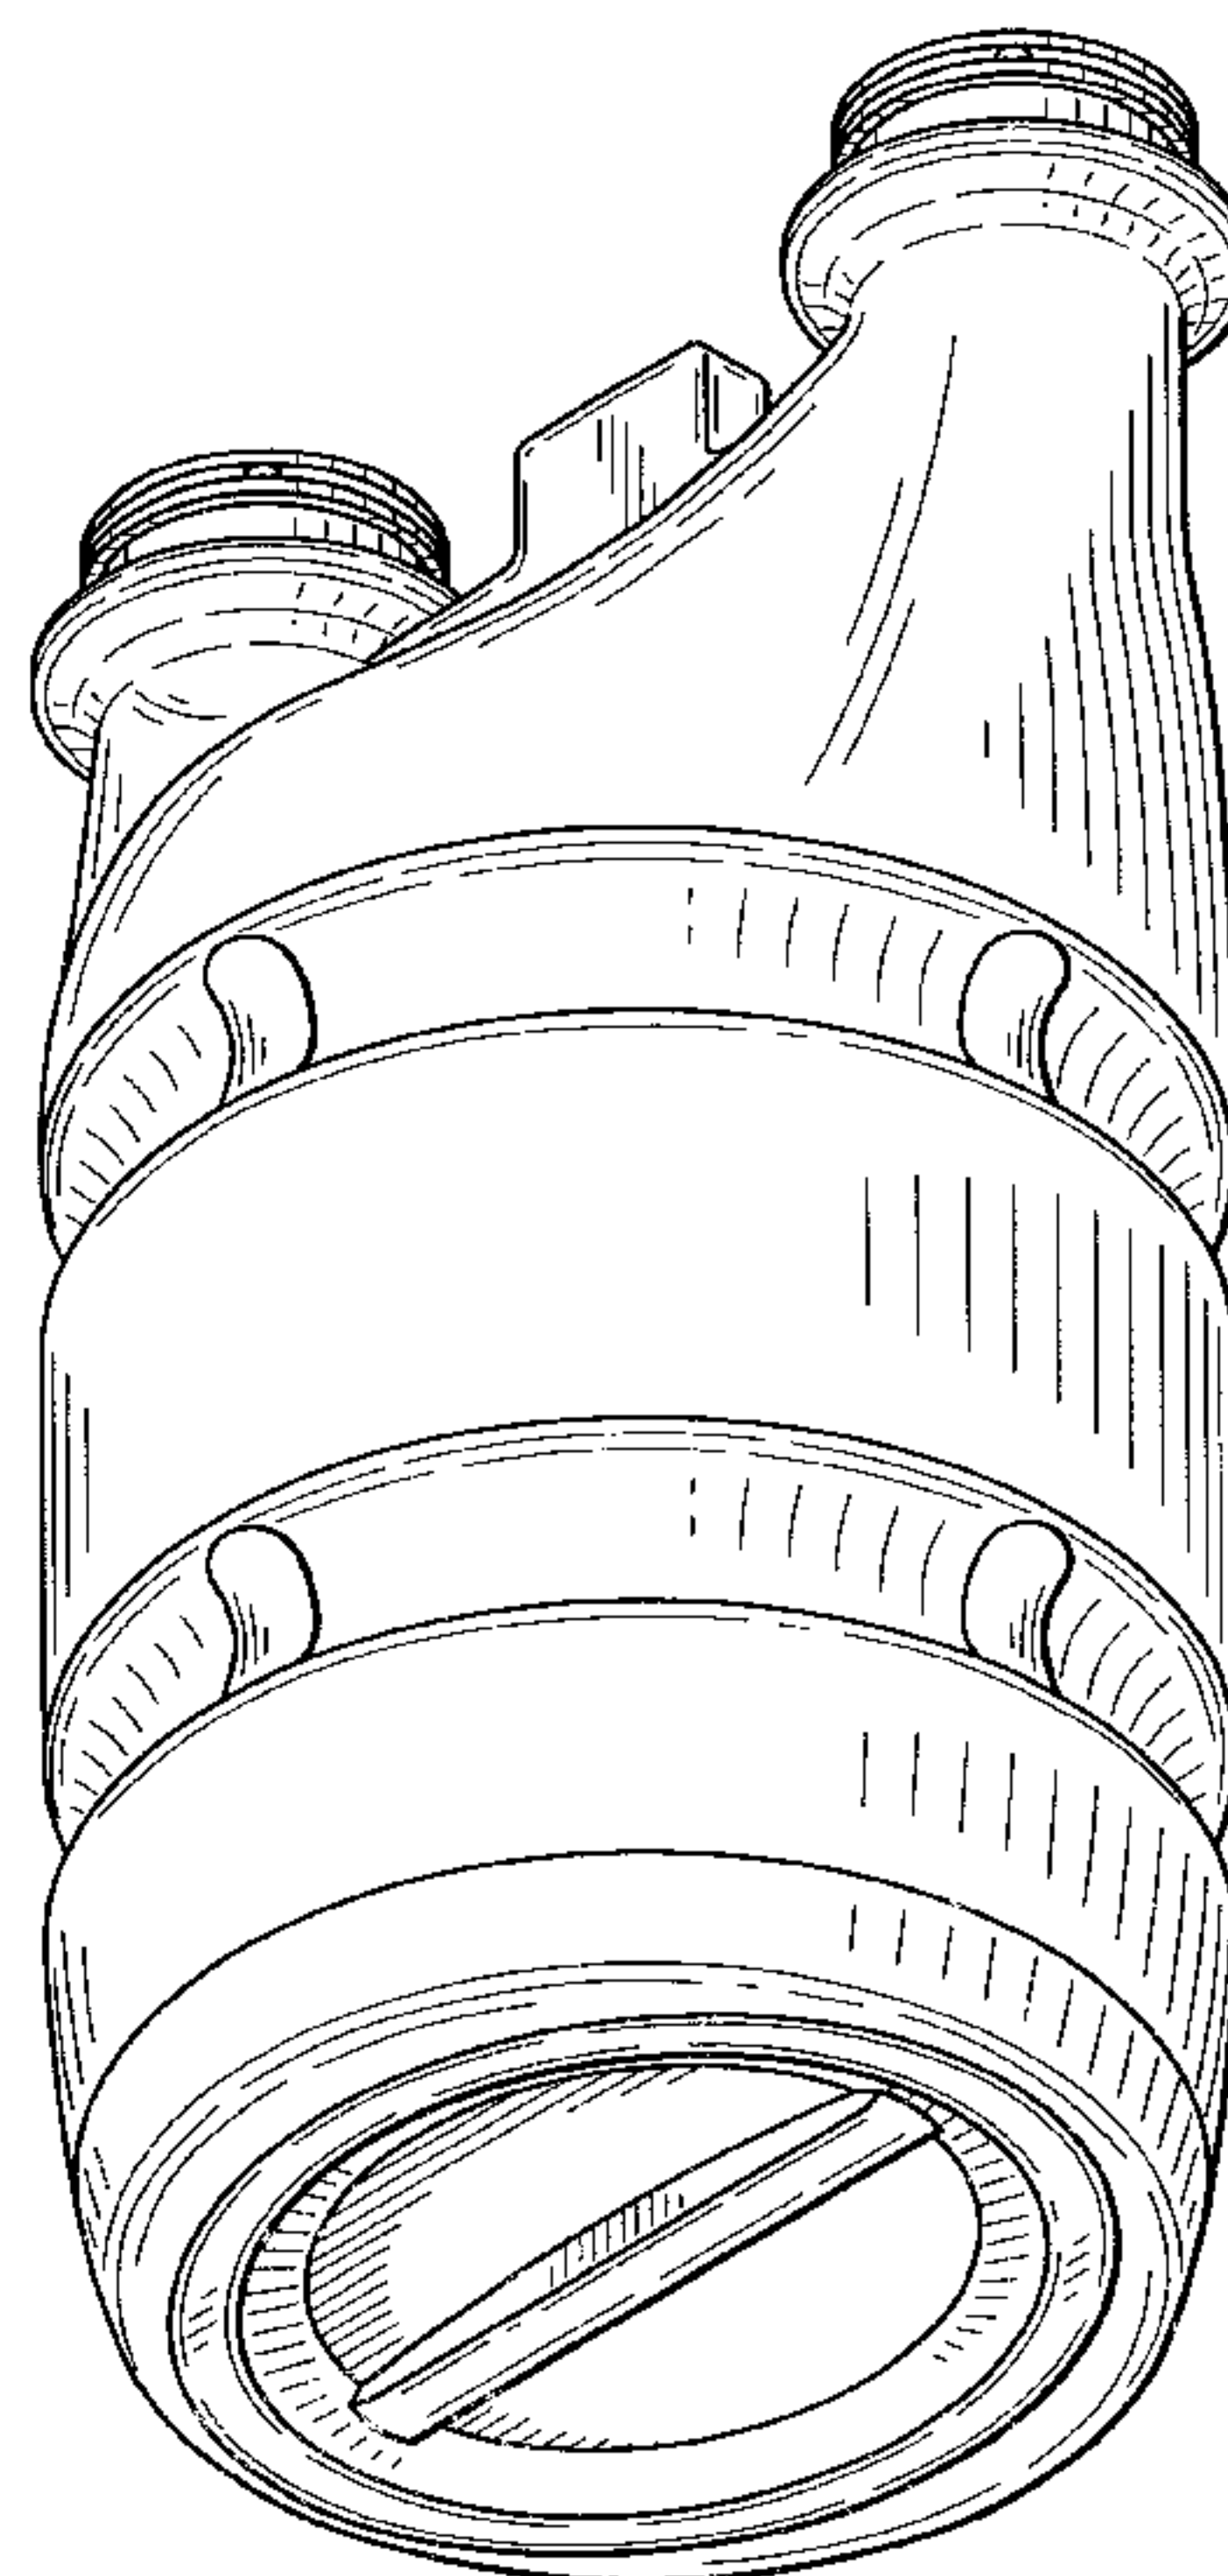

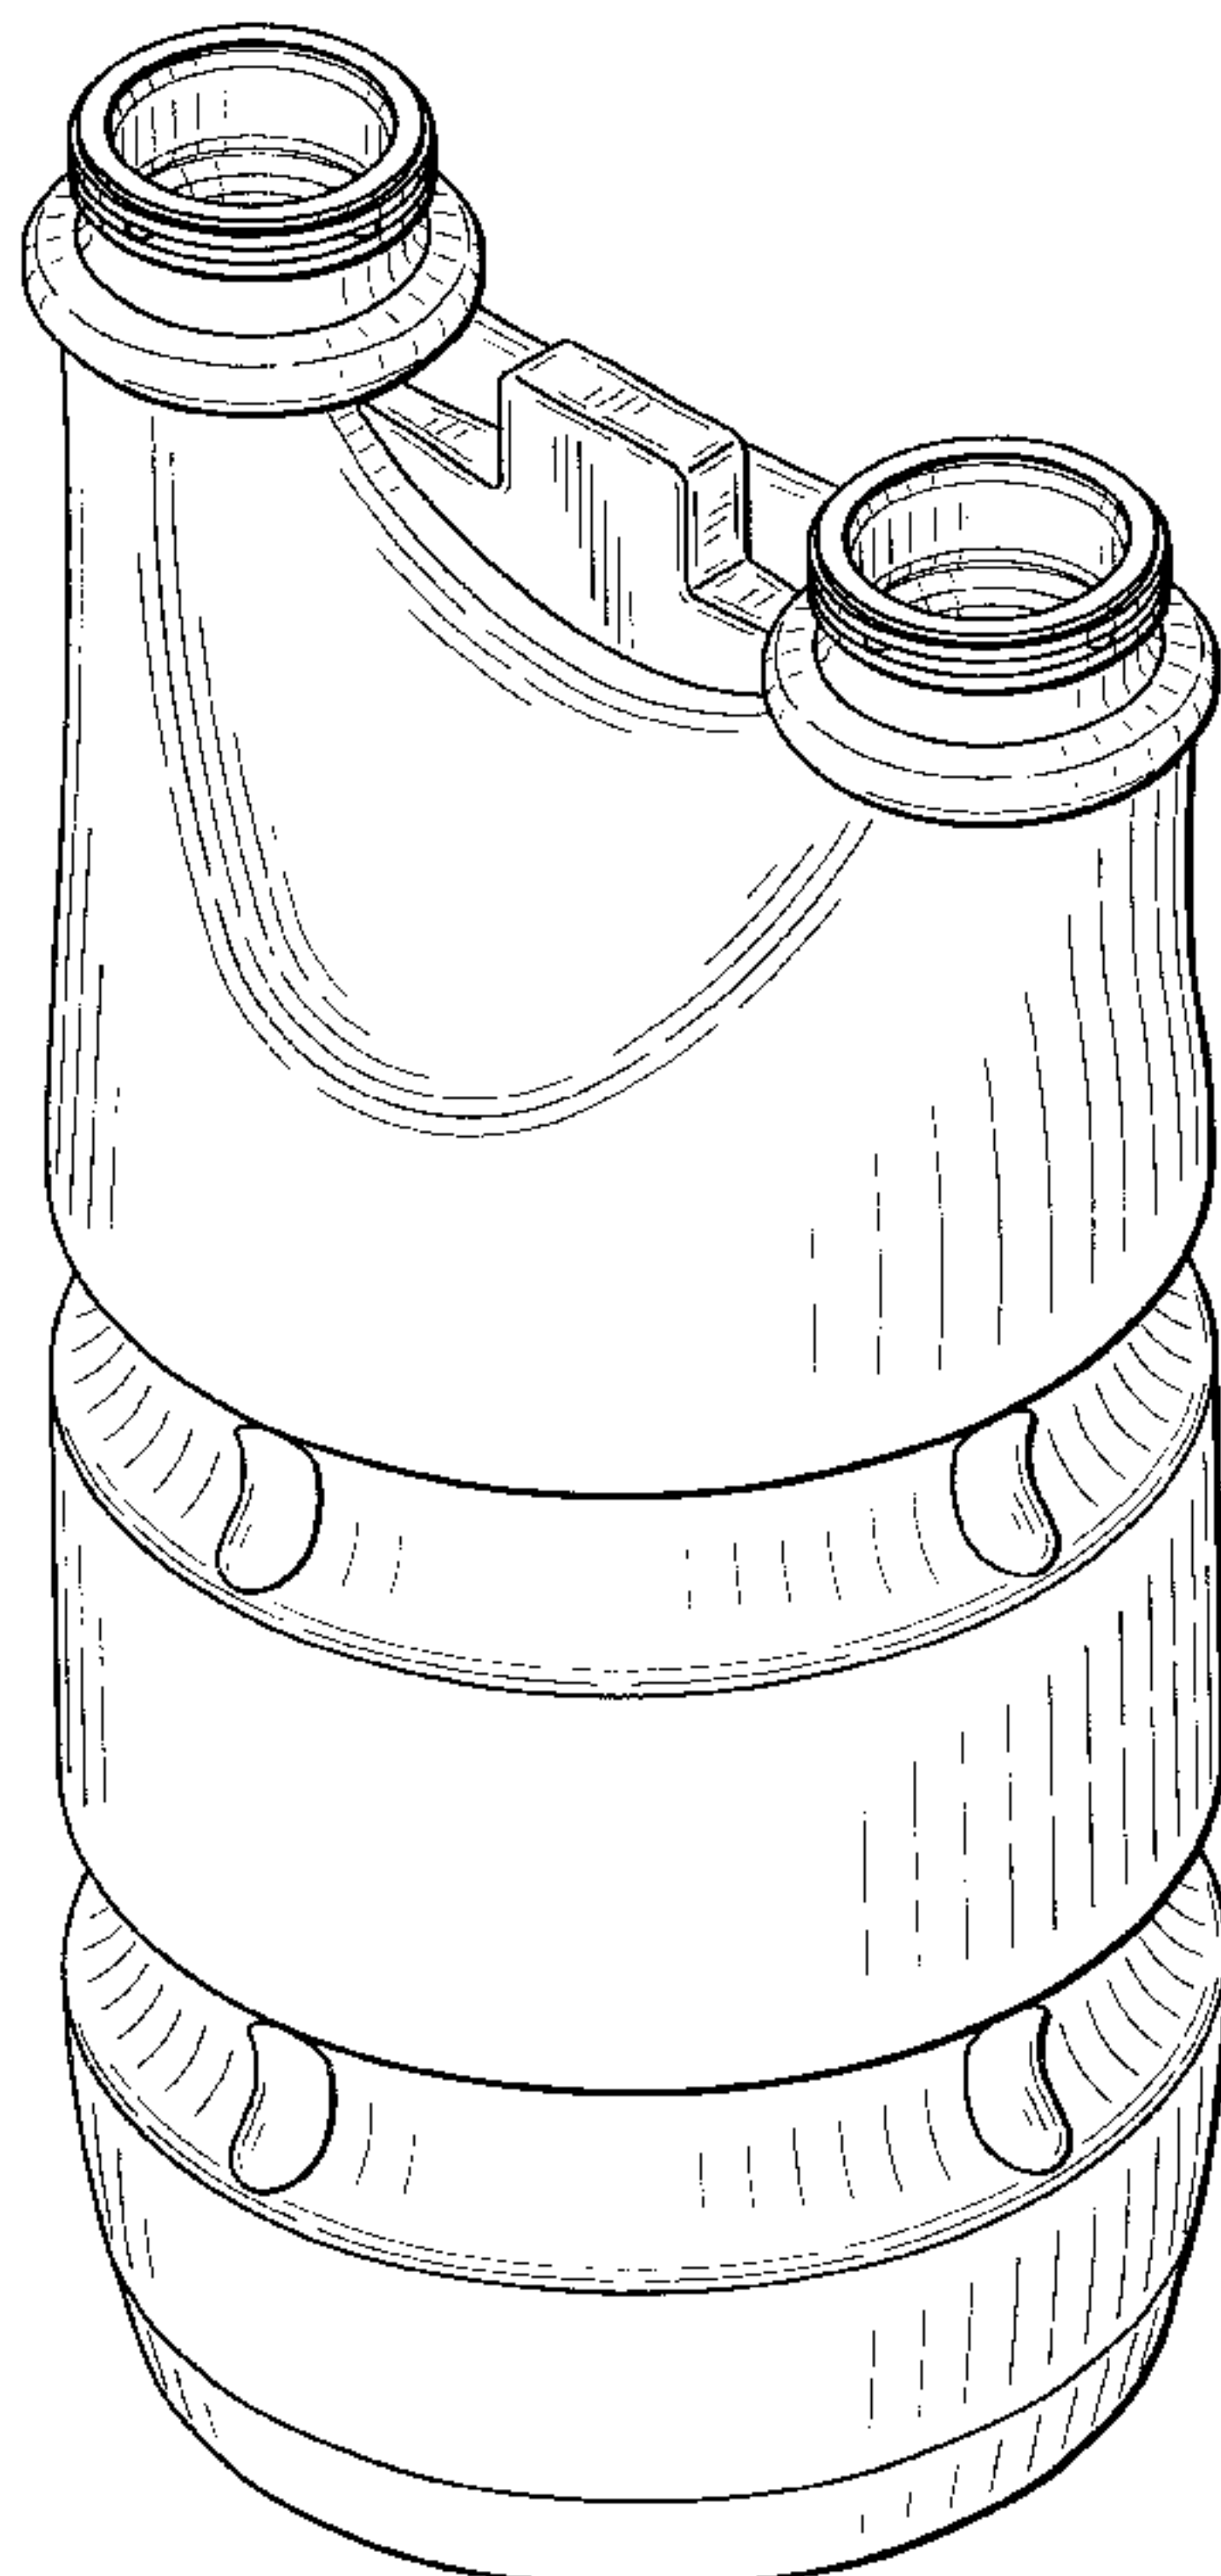

FIG. 3 is a front elevational view of the bottle of the present invention.

FIG. 4 is a left side elevational view of the bottle of the present invention.

FIG. 5 is a top plan view of the bottle of the present invention; and,

FIG. 6 is a bottom plan view of the bottle of the present invention.

1 Claim, 5 Drawing Sheets
