(57) **CLAIM**

The ornamental design for a cooler, as shown and described in the above-identified application.

DESCRIPTION

FIG. 1 is a front elevational view of a cooler showing our new design therefor;

FIG. 2 is a top plan view thereof;

FIG. 3 is a left side elevational view thereof;

FIG. 4 is a right side elevational view thereof with a part shown in phantom-line as environment, forming no part of the design;

FIG. 5 is a rear elevational view thereof with a part shown in phantom-line as environment, forming no part of the design;

FIG. 6 is a front left top perspective view thereof;

FIG. 7 is a rear right top elevational view thereof with a part shown in phantom-line as environment, forming no part of the design;

FIG. 8 is a front right top perspective view thereof, with both top lids open and with parts shown in phantom-line as environment, forming no part of the design;

FIG. 9 is a rear elevational view thereof, with both top lids open and with a part shown in phantom-line as environment, forming no part of the design;

FIG. 10 is a top plan view thereof, with both top lids open and with parts shown in phantom-line as environment, forming no part of the design;

FIG. 11 is a front elevational view thereof, with both top lids open and with parts shown in phantom-line as environment, forming no part of the design;

FIG. 12 is a left side elevational view thereof, with both top lids open and with parts shown in phantom-line as environment, forming no part of the design;

FIG. 13 is a right side elevational view thereof, with both top lids open and with parts shown in phantom-line as environment, forming no part of the design;

FIG. 14 is a view similar to FIG. 7, but with both top lids open and with parts shown in phantom-line as environment, forming no part of the design; and,

FIG. 15 is a rear left top perspective view thereof, with both lids closed and with a part shown in phantom-line as environment, forming no part of the design.
