(57) **CLAIM**

The ornamental design for an interconnect enclosure for computer and audio visual equipment concealable in furniture with circular base plate, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an interconnect enclosure for computer and audio visual equipment concealable in furniture with circular base plate in the open position, the left side thereof being the mirror image of the right side thereof shown in FIG. 1. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 2 is a front elevational view thereof in the open position. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 3 is a front elevational view thereof in the concealed position. The broken lines are to illustrate an environment only and form no part of the claimed design; and,

FIG. 4 is a top plan view thereof in the concealed position. The appearance of the bottom form no part of the claimed design.
