(57) **CLAIM**

The ornamental design for a lighted display cabinet for a refrigerated cooler, as shown and described.

**DESCRIPTION**

FIG. 1 is an elevated perspective front view of the lighted display cabinet for a refrigerated cooler with the shape of the border of the front window in the display cabinet, the pivot bolt near the bottom, rear side edge of the display cabinet and the locking pin near the top, rear side edge of the display

cabinet indicated in dashed line as environmental and showing the cooler as environmental structure in dashed lines;

FIG. 2 is a top plan view of the design of the embodiment of FIG. 1 with the pivot bolts near the bottom, rear side edge of the display cabinet indicated in dashed line as environmental;

FIG. 3 is a bottom plan view of the design of the embodiment of FIG. 1 with the pivot bolts near the bottom, rear side edges of the display cabinet indicated in dashed line as environmental;

FIG. 4 is a left side plan view of an embodiment as in FIG. 1 with the pivot bolt near the bottom, rear side edge of the display cabinet, and the locking pin near the top, rear side edge of the display cabinet indicated in dashed line as environmental;

FIG. 5 is a right side plan view of an embodiment as in FIG. 1 with the pivot bolt near the bottom, rear side edge of the display cabinet, and the locking pin near the top, rear side edge of the display cabinet indicated in dashed line as environmental;

FIG. 6 is a rear plan view of an embodiment as in FIG. 1 with the pivot bolts near the bottom, rear side edges of the display cabinet indicated in dashed line as environmental;

FIG. 7 is a front plan view of an embodiment as in FIG. 1 with the shape of the border of the front window in the display cabinet indicated in dashed line as environmental and the pivot bolts near the bottom side edges of the display cabinet indicated in dashed line as environmental;

FIG. 8 is an top, front perspective view of a second embodiment of FIG. 1, the pivot bolt near the bottom, rear side edge of the display cabinet and the locking pin near the top, rear side edge of the display cabinet indicated in broken lines for environmental purposes only; and,

FIG. 9 is a front elevational view of FIG. 8, the pivot bolts near the bottom side edges of the display cabinet indicated in broken lines for environmental purposes only.
