(57) **CLAIM**

The ornamental design for multiple foodservice unit, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view showing one embodiment of multiple foodservice unit illustrating the inventive design of flanking free-standing pylons on each side of typical foodservice counters,

FIG. 2 is a rear perspective view of the first embodiment of FIG. 1,

FIG. 3 is a front perspective view of a second embodiment of the invention showing an alternative arrangement of multiple foodservice unit; and,

FIG. 4 is a rear perspective view of the second embodiment of FIG. 3.

Novel features of the present design reside in the spatial relationship between multiple foodservice counters with intermediate and/or flanking free-standing pylons.

The broken lines shown are for illustrative purposes only and forms no part of the claimed design.
