(57) **CLAIM**

The ornamental design for a snow stop, as shown and described.

DESCRIPTION

FIG. 1 is top view of a snow stop of the invention and showing my new design is made of a light-transmissive material, its base having holes and a grooved, rough surfaced bottom;

FIG. 2 is a bottom view thereof;

FIG. 3 is a front view thereof;

FIG. 4 is a left side view thereof, its right side being a mirror image thereof;

FIG. 5 is a rear view thereof;

FIG. 6 is a top, left, rear perspective view thereof; and

FIG. 7 shows detail of bottom slots or grooves in the base thereof.

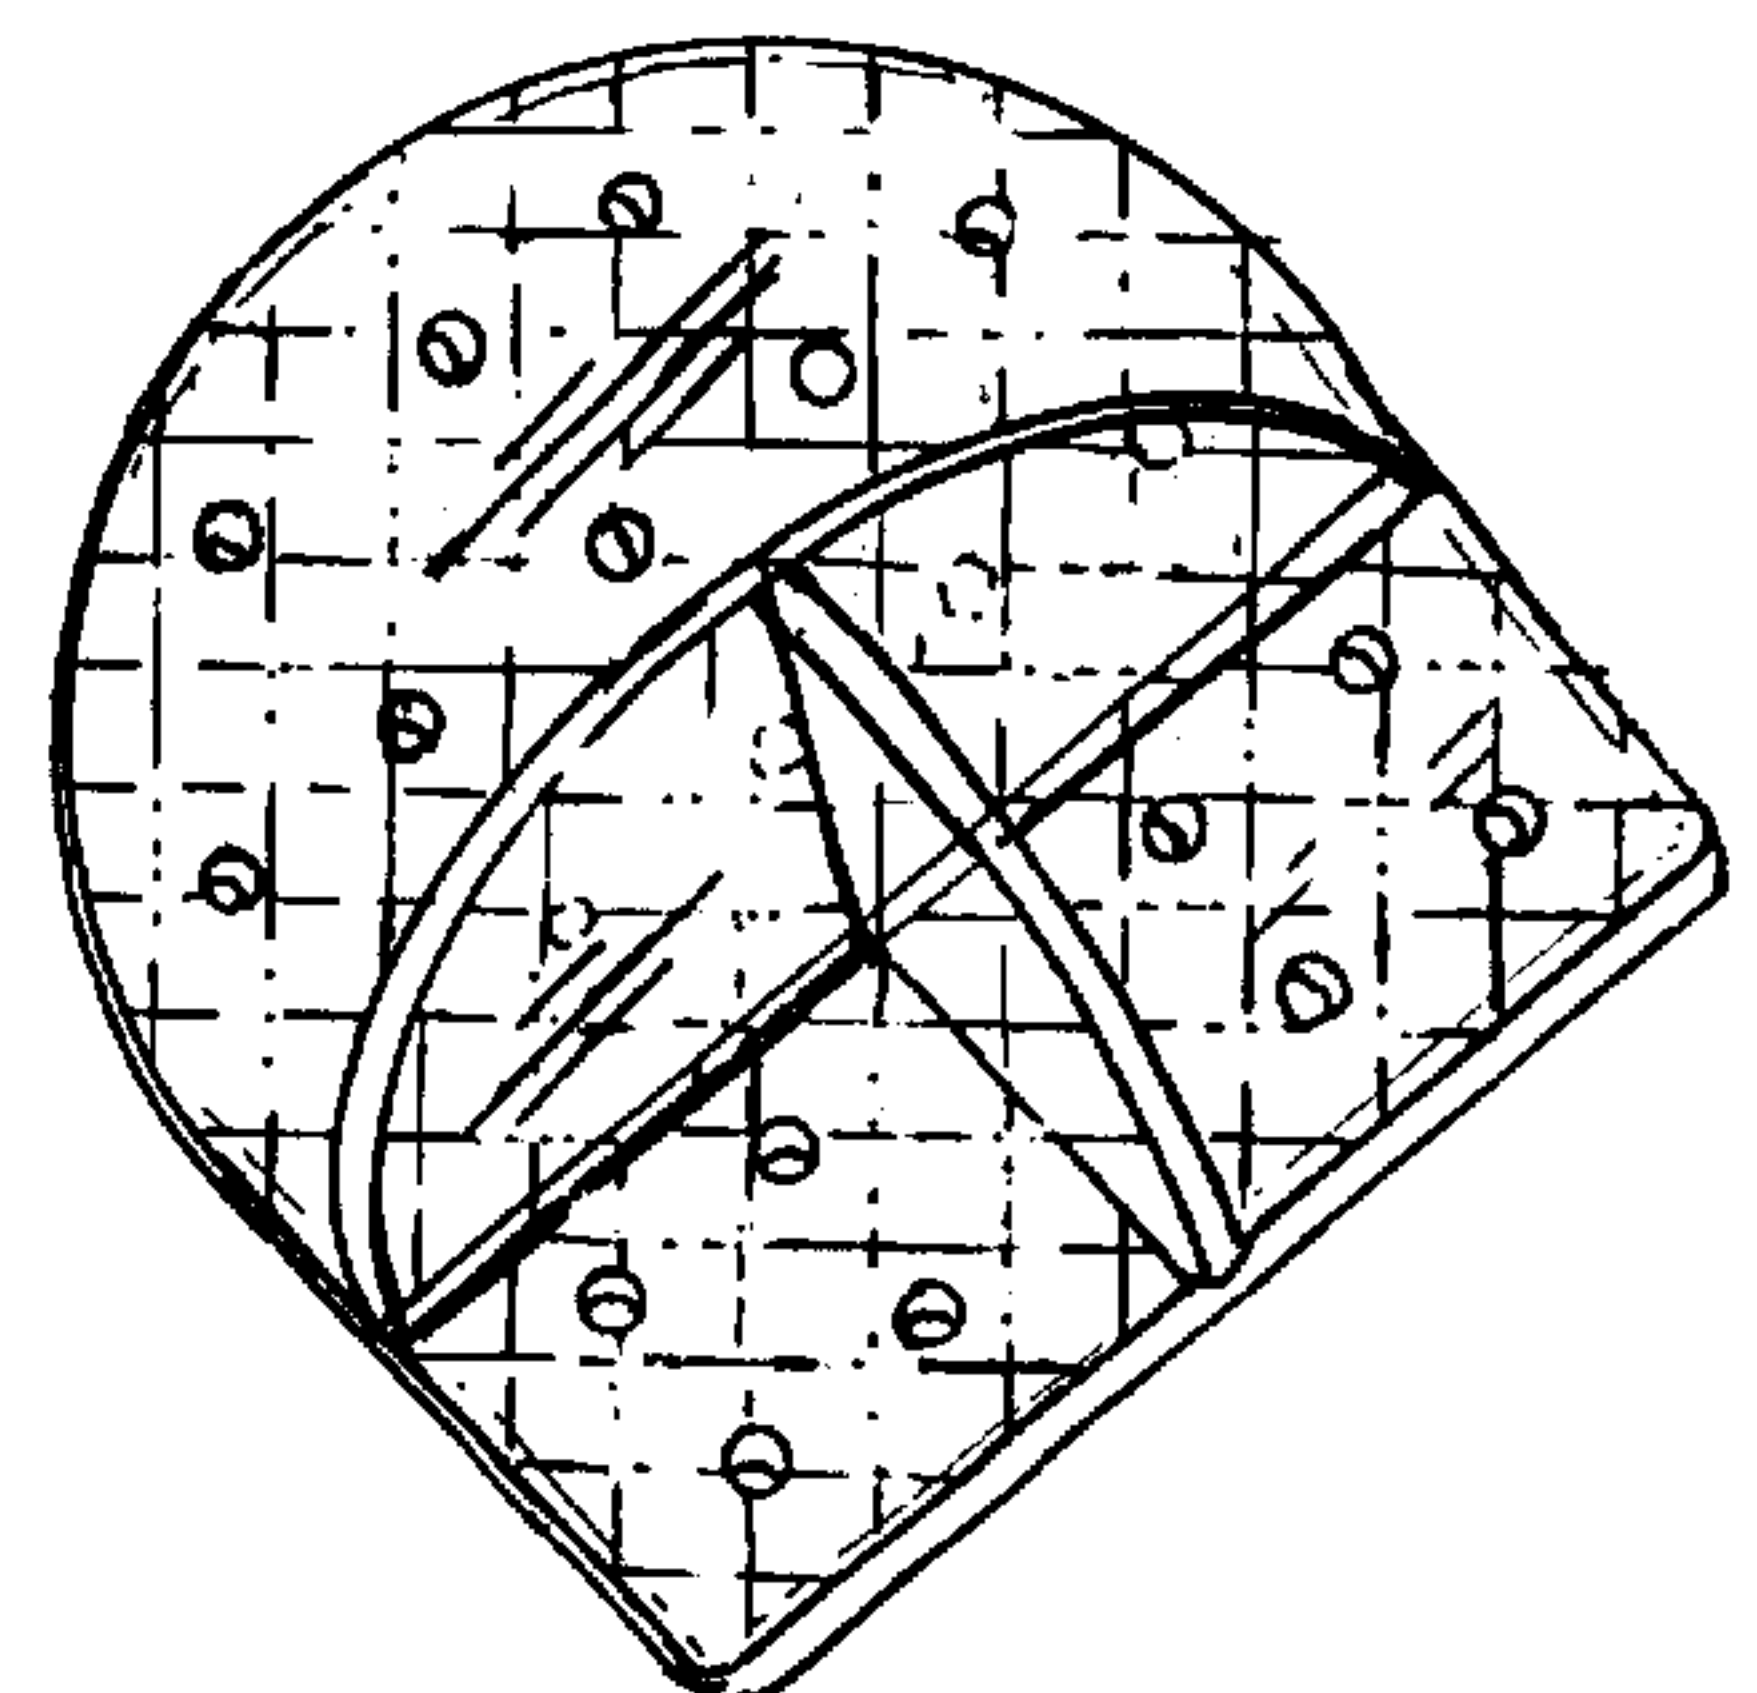

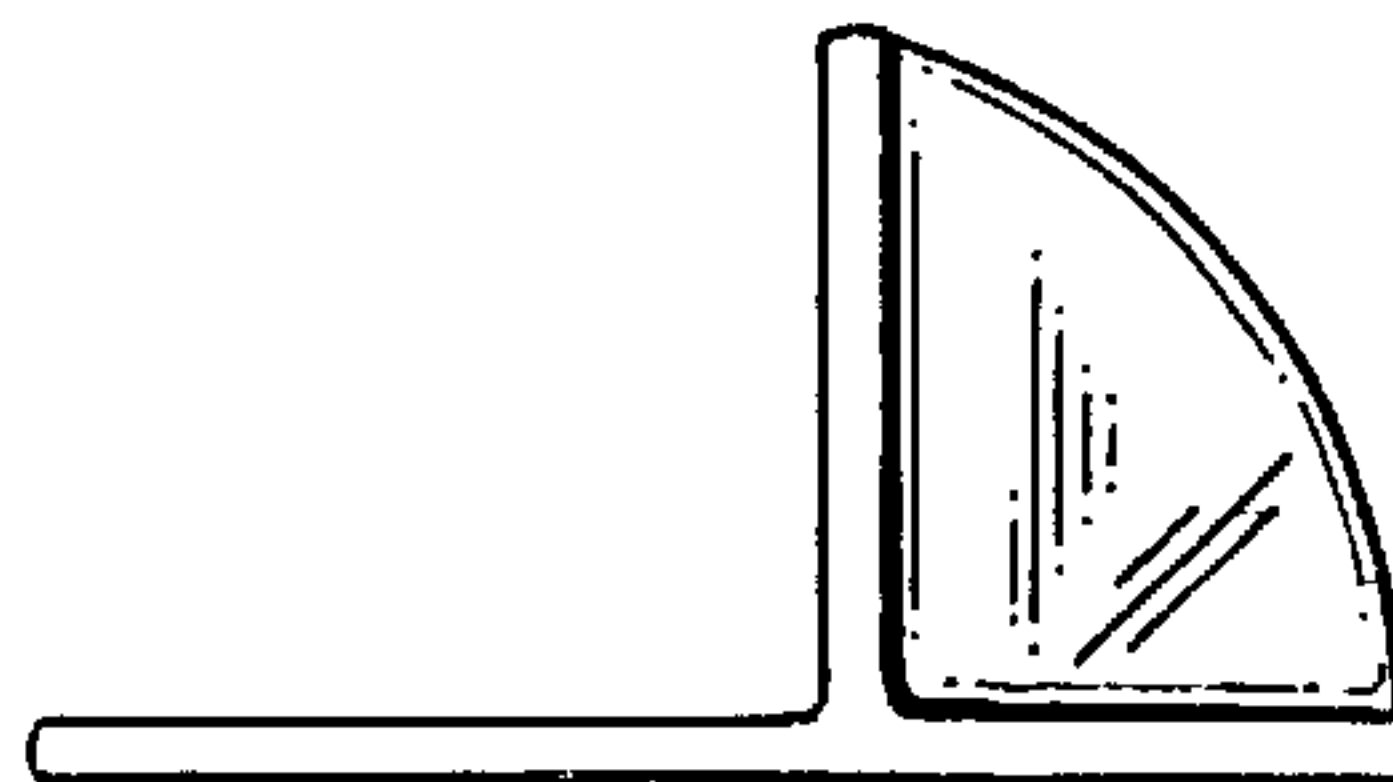

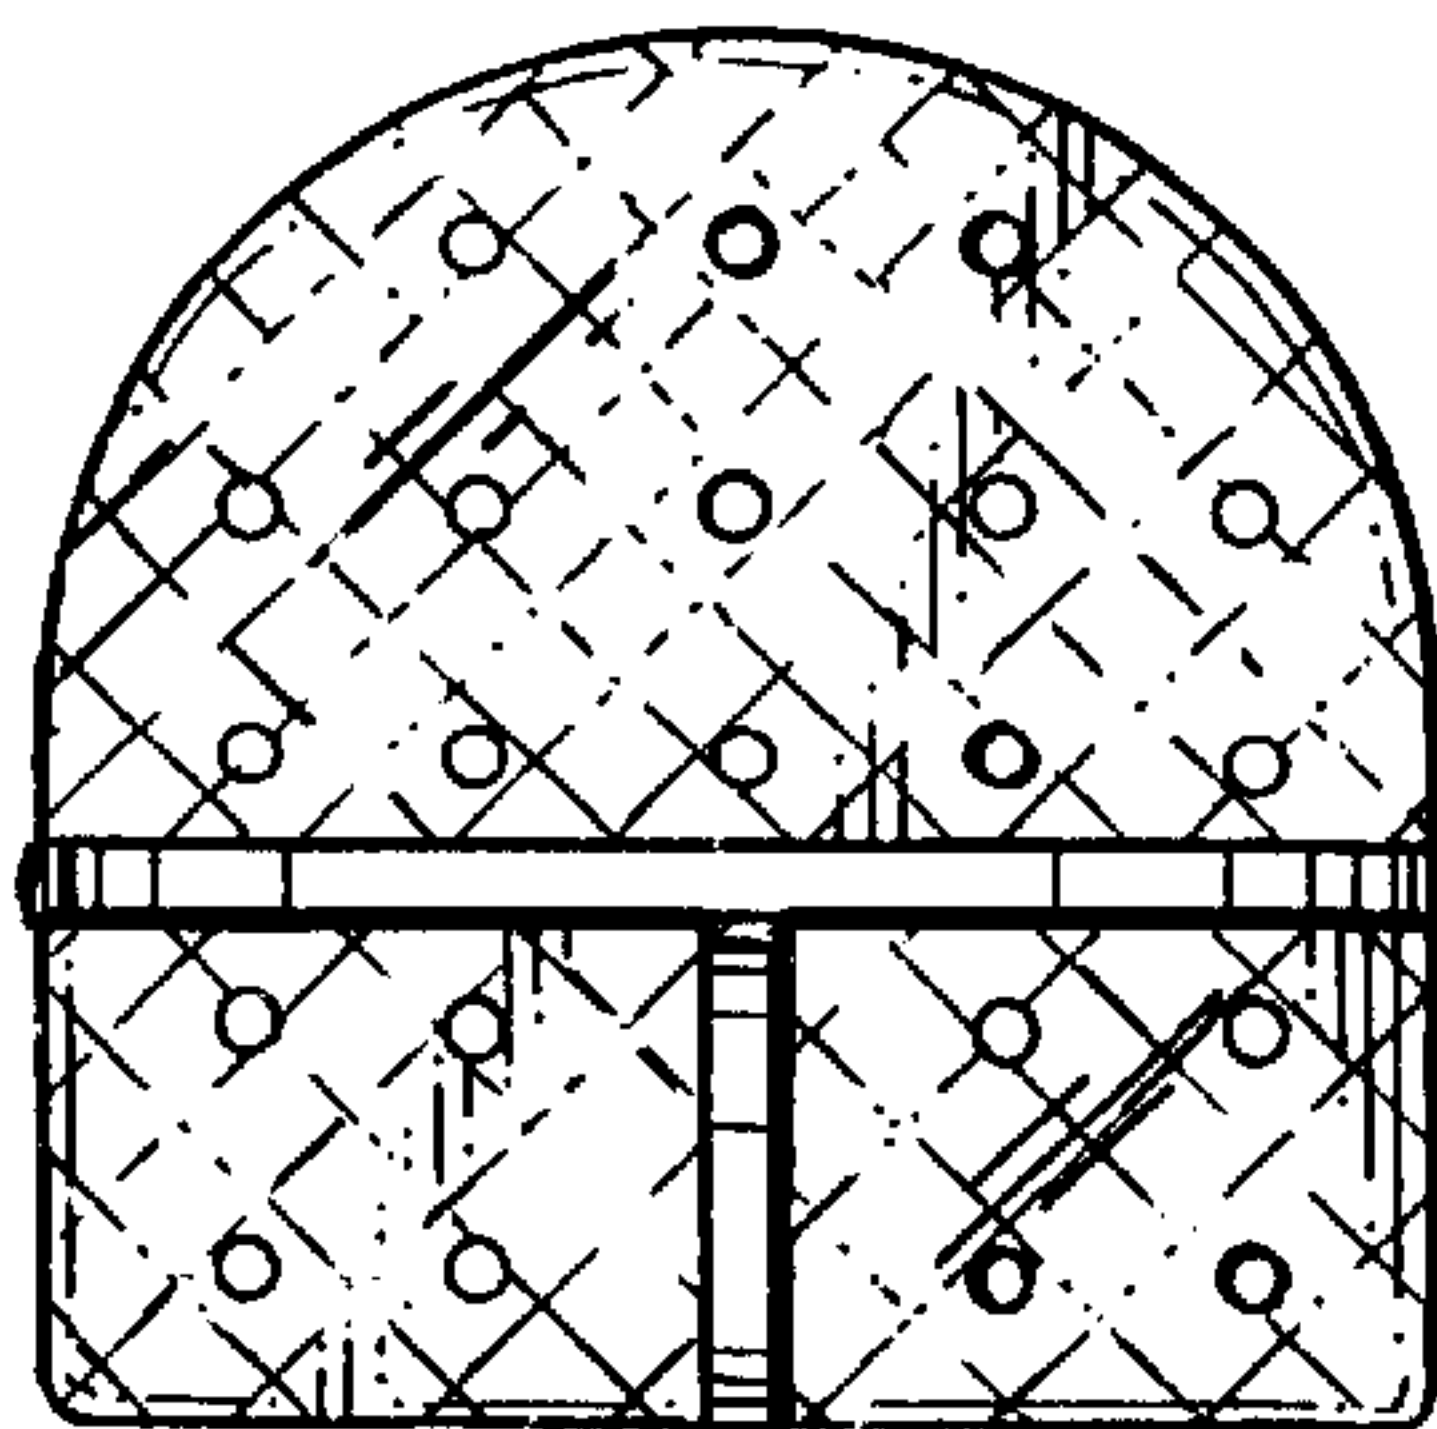

FIG. 8 is a top view of another embodiment of a snow stop of the invention and showing my new design is made of a light-transmissive material, its base without holes but having a grooved, rough surfaced bottom;

FIG. 9 is a bottom view thereof; and,

FIG. 10 is a top, left, rear perspective view thereof, with the remaining views being otherwise akin to FIGS. 3–5 and 7.

In general, the present snow stop has its grooved pattern extending substantially across the bottom of the base.
