(57) **CLAIM**

The ornamental design for a case and handle for lollipop, substantially as shown and described.

The ornamental design for a case and handle for lollipop that is the subject of the invention includes a closed position, illustrated in FIGS. 1-5 in which the case and handle may encase a lollipop mounted on the case and handle for carrying and storage; and an open position, illustrated in FIGS. 6-11, in which a lollipop mounted thereon may be eaten.

FIG. 1 is a pictorial view of the case and handle for lollipop in a closed position.

FIG. 2 is a front elevational view thereof, the rear elevational view being a mirror image of the front elevational view.

FIG. 3 is a bottom plan view thereof.

FIG. 4 is a top plan view thereof.

FIG. 5 is a first side elevational view thereof, the opposite side elevational view being a mirror image of the first side elevational view.

FIG. 6 is a perspective view of FIG. 1 in an open position, the lollipop is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 7 is a front elevational view of the case and handle shown in FIG. 6, the rear elevational view being a mirror image of the front elevational view.

FIG. 8 is a first side elevational view thereof.

FIG. 9 is a second opposite side elevational view thereof.

FIG. 10 is a bottom plan view thereof; and,

FIG. 11 is a top plan view thereof.
