(57) **CLAIM**

The ornamental design for a combination clock radio and telephone, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of a combination clock radio and telephone according to the present invention;
FIG. **2** is a front view of the combination clock radio and telephone of FIG. **1**;
FIG. **3** is a rear view of the combination clock radio and telephone of FIG. **1**;
FIG. **4** is a first side view of the combination clock radio and telephone of FIG. **1**;
FIG. **5** is a second, opposite side view of the combination clock radio and telephone of FIG. **1**;
FIG. **6** is a top view of the combination clock radio and telephone of FIG. **1**;
FIG. **7** is a bottom view of the combination clock radio and telephone of FIG. **1**; and,
FIG. **8** is a second perspective view of the combination clock radio and telephone of FIG. **1** shown with the handle removed and the display shown in the angled back position.
