(57)**CLAIM** 

The ornamental design for a microscope, as shown and described.

#### **DESCRIPTION**

FIG. 1 is a front perspective view of a first embodiment of a microscope according to my novel design;

FIG. 2 is a front view of the first embodiment of the microscope according to my novel design;

FIG. 3 is a rear view of the first embodiment of the microscope according to my novel design;

FIG. 4 is a right side view of the first embodiment of the microscope according to my novel design, the left side view being mirror symmetrical;

FIG. 5 is a top view of the first embodiment of the microscope according to my novel design;

FIG. 6 is a bottom view of the first embodiment of the microscope according to my novel design;

FIG. 7 is a front perspective view of a second embodiment of a microscope according to my novel design;

FIG. 8 is a front view of the second embodiment of the microscope according to my novel design;

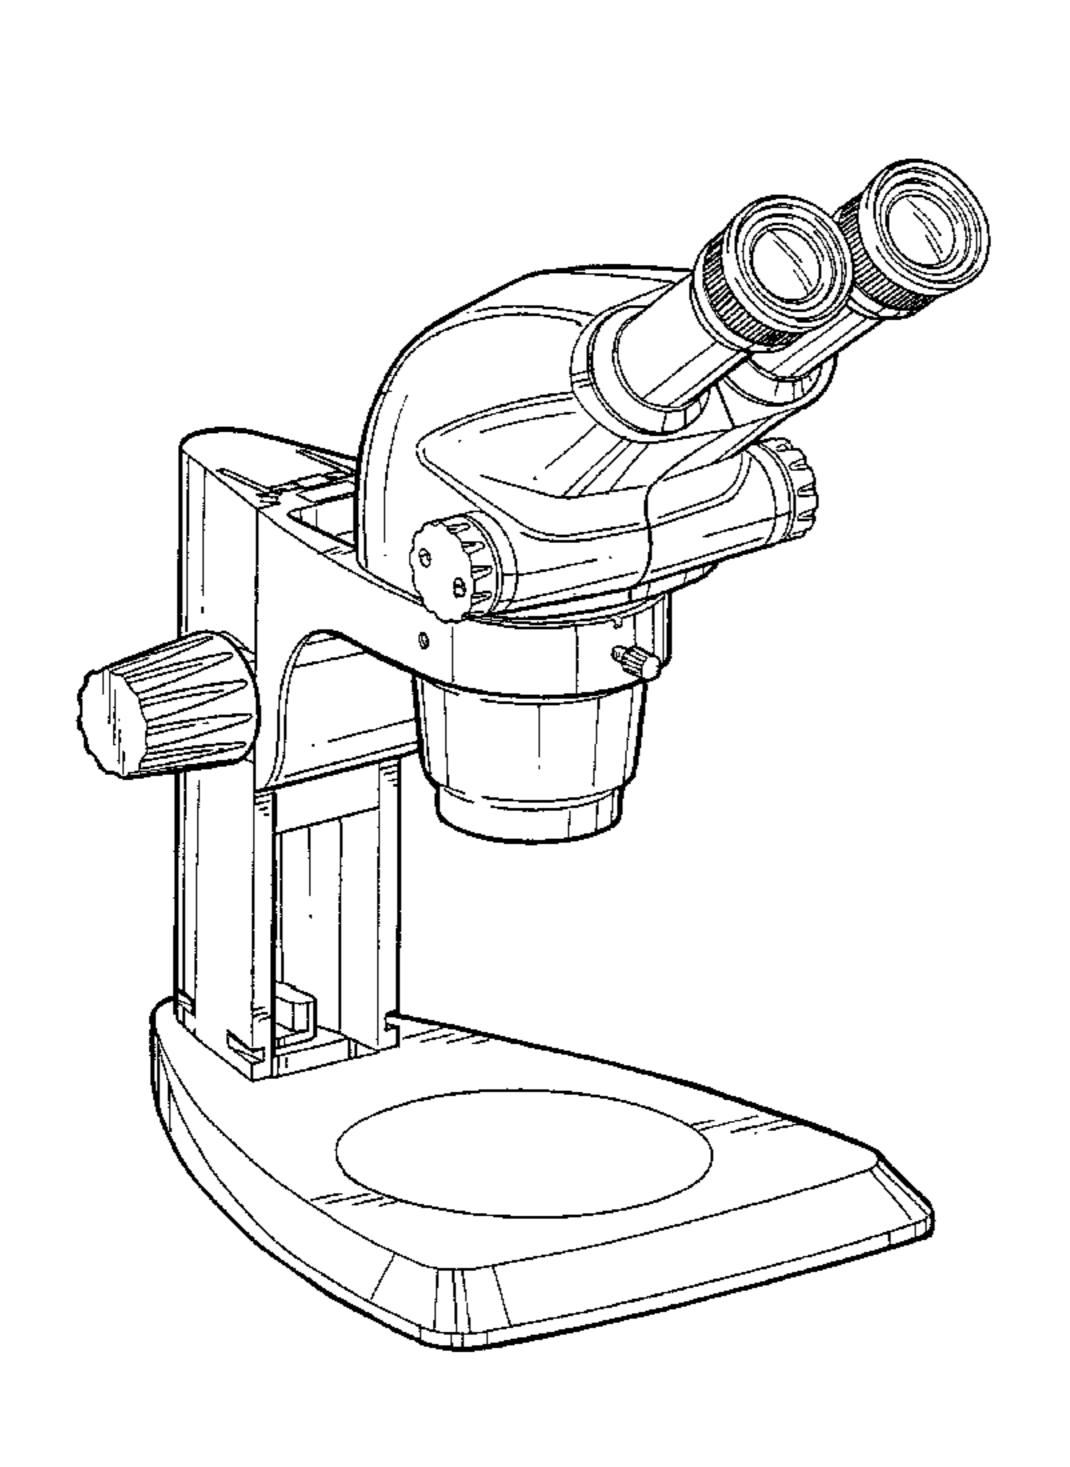

FIG. 9 is a rear view of the second embodiment of the microscope according to my novel design;

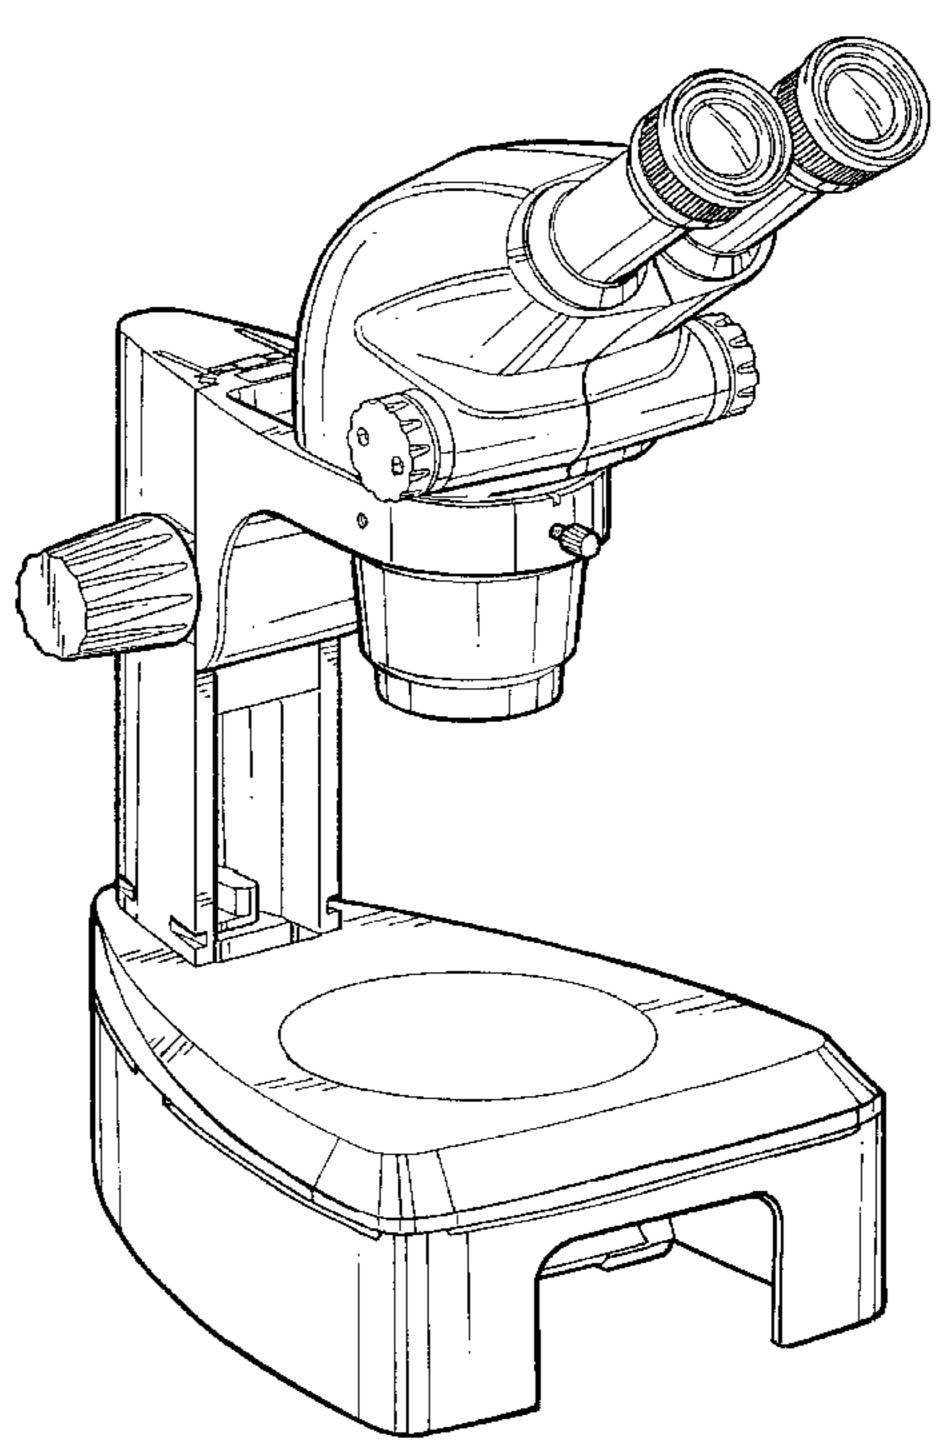

FIG. 10 is a right side view of the second embodiment of the microscope according to my novel design, the left side view being mirror symmetrical;

FIG. 11 is a top view of the second embodiment of the microscope according to my novel design; and,

FIG. 12 is a bottom view of the second embodiment of the microscope according to my novel design.
