Primary Examiner—Dominic Simone

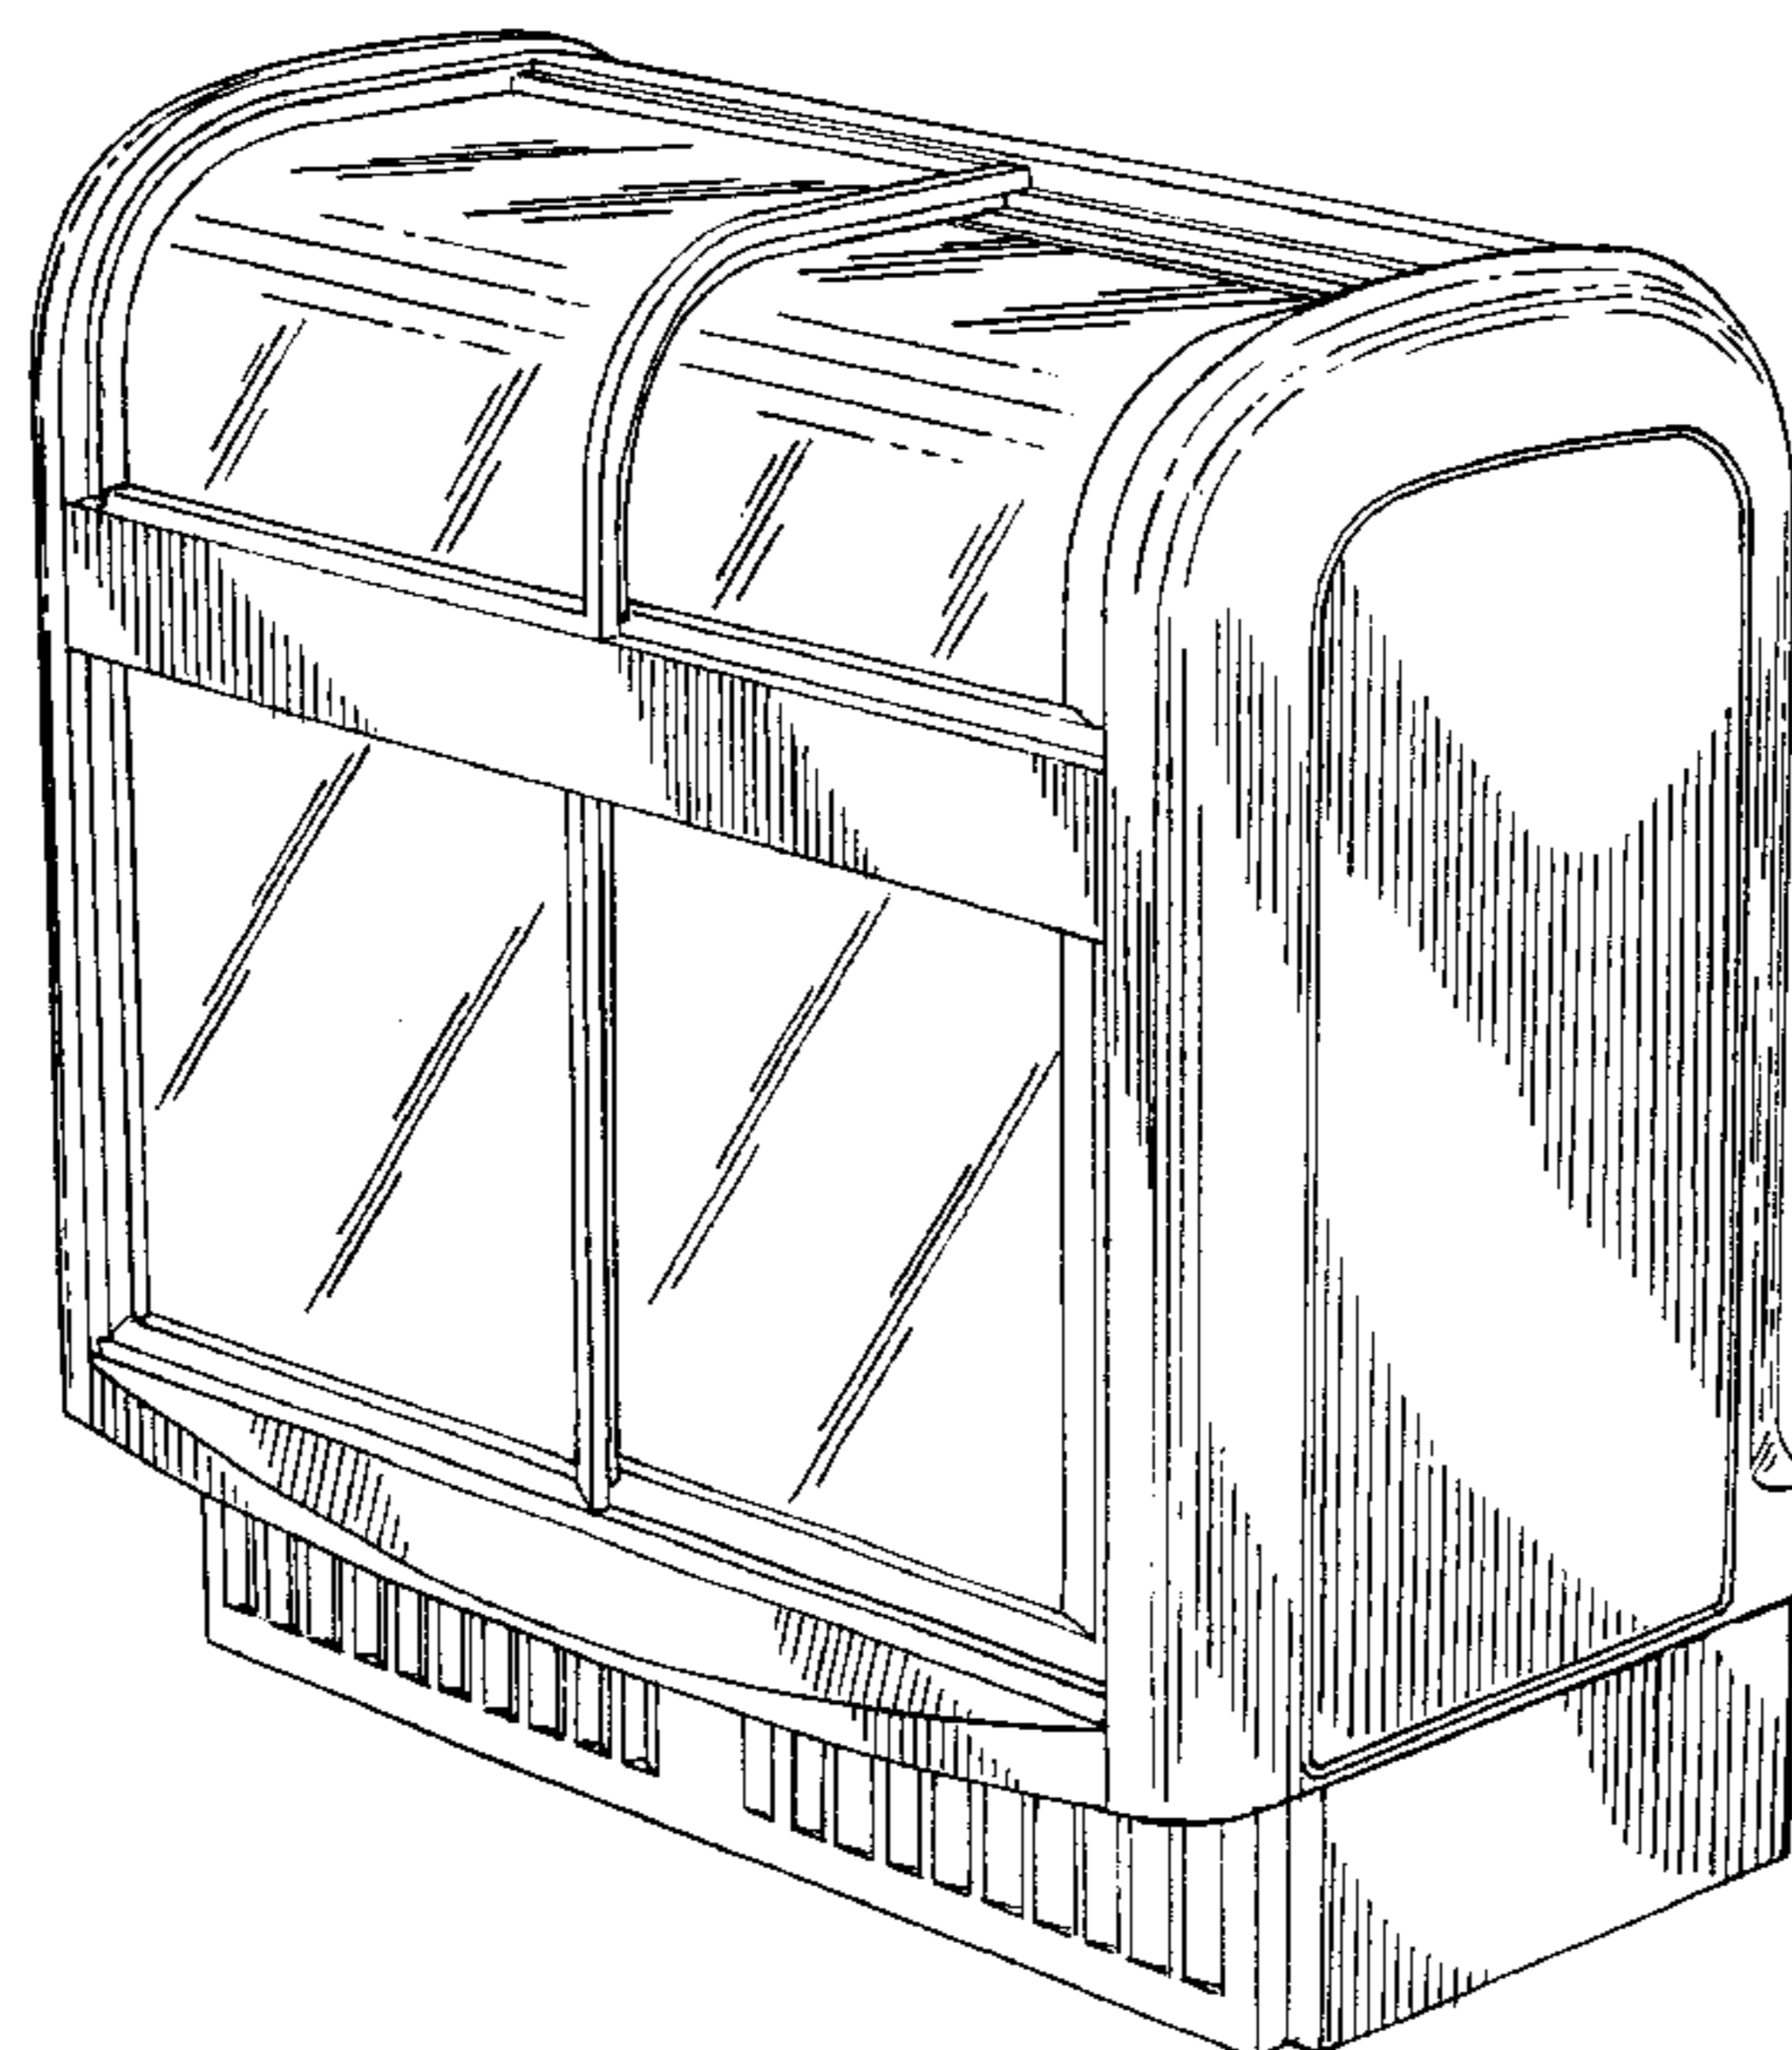

(57) **CLAIM**

The ornamental design for a refrigerated display cooler, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a refrigerated display cabinet showing our new design;
 FIG. 2 is a front plan view thereof;
 FIG. 3 is a rear plan view of an embodiment as in FIG. 1 with the rear side corners of the adaptive transition sections between the base and the main body indicated in dashed line as environmental.
 FIG. 4 is a top plan view of an embodiment as in FIG. 1 with the rear side corners of the adaptive transition sections between the base and the main body indicated in dashed line as environmental.
 FIG. 5 is a bottom plan view of an embodiment as in FIG. 1 with the base indicated in dashed line as environmental and the rear side corner of the adaptive transition sections between the base and the main body indicated in dashed line as environmental.
 FIG. 6 is a left side plan view of an embodiment as in FIG. 1 with the base indicated in dashed line as environmental and the rear side corner of the adaptive transition sections between the base and the main body indicated in dashed line as environmental; and,
 FIG. 7 is a right side plan view of an embodiment as in FIG. 1 with the base indicated in dashed line as environmental and the rear side corner of the adaptive transition sections between the base and the main body indicated in dashed line as environmental.
