#### (57)**CLAIM**

The ornamental design for a wide tire tread, as shown and described.

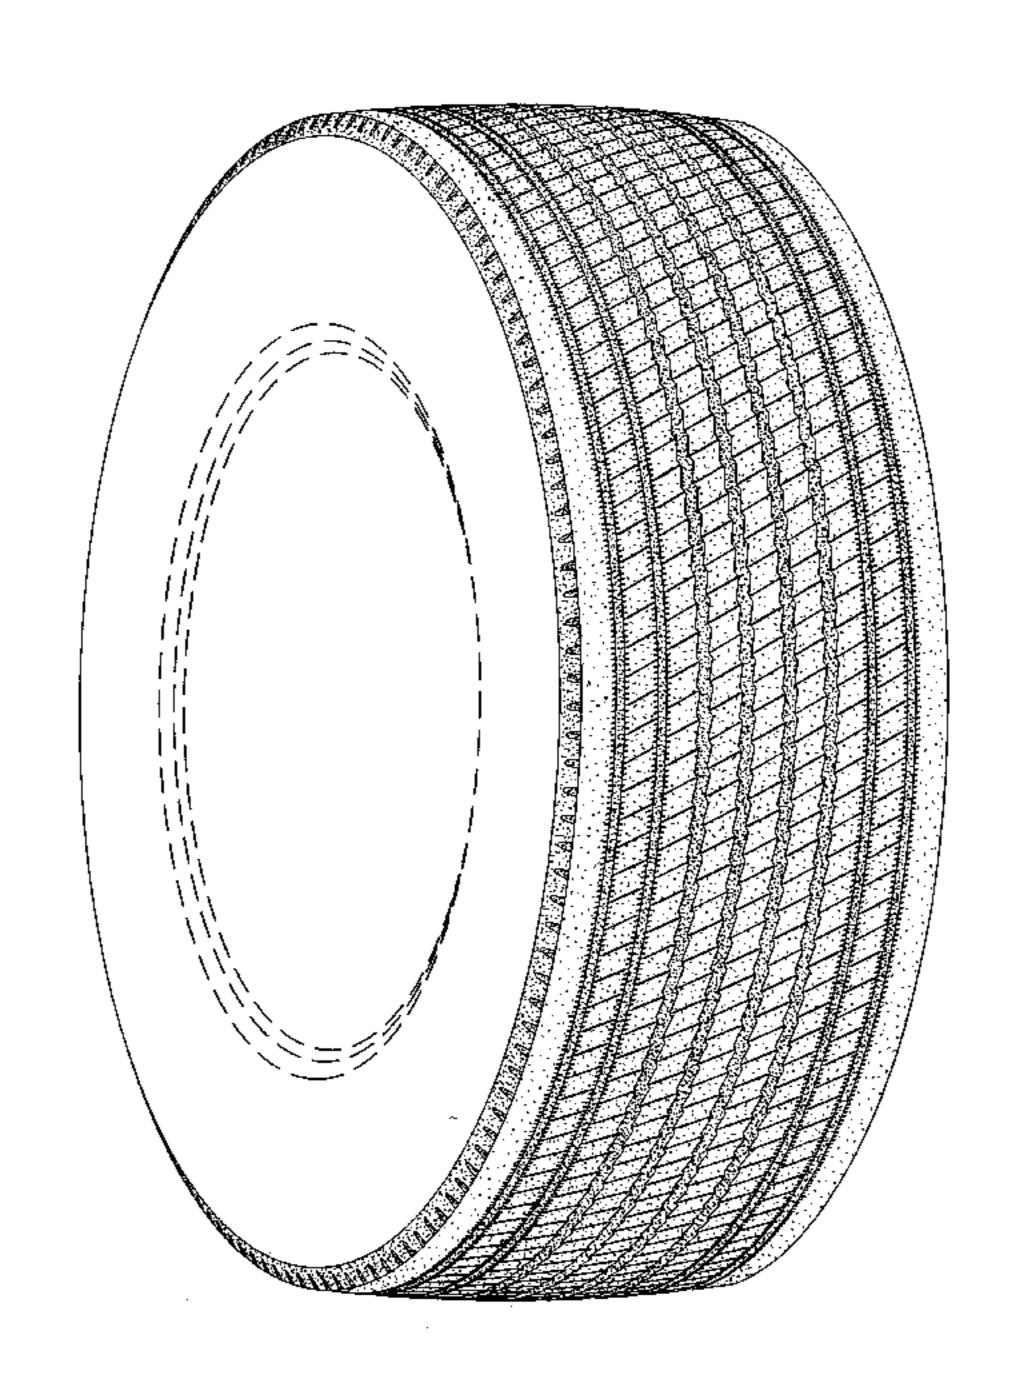

## **DESCRIPTION**

FIG. 1 is a perspective view of a wide tire tread showing our new design, it being understood that a tread pattern is repeated over the outer circumference and shoulder of a tire, the opposite side perspective view being essentially identical thereto; and,

FIG. 2 is an enlarged fragmentary front elevation view of the tread pattern of FIG. 1 showing our new tread pattern for the wide tire tread.

The broken line disclosure of the tire sidewall and inner bead is for illustrative purposes only and forms no part of the claimed design. In the drawings, the dark stippled shading in the groove area of the tread surface represents the recessed portion of the tread grooves, having recesses best illustrated by the top and bottom boundaries of FIG. 2.

# UNITED STATES PATENT AND TRADEMARK OFFICE CERTIFICATE OF CORRECTION

PATENT NO. : Des. 461,446 S

DATED : August 13, 2002 INVENTOR(S) : Janajreh et al.

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

## Title page,

Item [75], the surname of the first inventor is correctly written as follows:

-- Ibrahim Mustafa Janajreh --

Signed and Sealed this

Thirty-first Day of December, 2002

JAMES E. ROGAN
