(57) **CLAIM**

The ornamental design for a removable handbag accessory, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent

file or records, but reserves all other copyright rights whatsoever.

FIG. 1 is a front left top perspective view of the design of a removable handbag accessory in a zipped closed position in which a pair of adjustable/retractable handles are shown in a fully extended position;

FIG. 2 is a front elevational view of the removable handbag accessory wherein the handles are shown in a fully extended position, the rear elevational view being a mirror image thereof;

FIG. 3 is a bottom plan view of the removable handbag accessory in a zipped closed position;

FIG. 4 is a front right perspective view of the removable handbag accessory in an unzipped open position wherein an inner compartment is unzipped open and the handles are in a fully extended position;

FIG. 5 is a top plan view of the removable handbag accessory in an unzipped open position wherein the inner compartment is zipped closed and the handles are in a fully extended position;

FIG. 6 is a right side elevational view of the removable handbag accessory in an unzipped open position wherein the handles are shown in a fully extended position and is a right side view of FIG. 5;

FIG. 7 is a left side elevational view of the removable handbag accessory in an unzipped open position wherein the handles are shown in a fully extended position and is a left side view of FIG. 5;

FIG. 8 is a top rear perspective view of the removable handbag accessory in an unzipped open position wherein the inner compartment is zipped closed and the handles are in a fully extended position and is a top rear perspective view of FIG. 5;

FIG. 9 is a rear elevational view of the removable handbag accessory in an unzipped open position in which the handles are in a fully extended position and is rear view of FIG. 5; and,

FIG. 10 is a perspective view of the removable handbag accessory in a zipped closed position in which the pair of handles are shown in a fully stowed position.

The broken line showing of the larger outer handbag is for illustrative purposes only and forms no part of the claimed design.
