(57) **CLAIM**

The ornamental design for a server face plate, as shown and described.

DESCRIPTION

This design application is related to concurrently filed design and utility applications entitled, “Small Foot-Print Server Chassis,” U.S. patent application Ser. No.: 29/144,388; and “High Availability Small Foot-Print Server,” U.S. patent application Ser. No.: 09/859,602.

FIG. 1 illustrates a front, bottom, and side perspective view of a server face plate showing an embodiment of our new design;

FIG. 2 illustrates a front elevational view thereof;

FIG. 3 illustrates a top plan view thereof;

FIG. 4 illustrates a bottom plan view thereof;

FIG. 5 illustrates a right side elevational view thereof;

FIG. 6 illustrates a left side elevational view thereof;

FIG. 7 illustrates a front, bottom, and side perspective view of a server face plate showing another embodiment of our new design;

FIG. 8 illustrates a front elevational view thereof;

FIG. 9 illustrates a top plan view thereof;

FIG. 10 illustrates a bottom plan view thereof;

FIG. 11 illustrates a right side view thereof; and,

FIG. 12 illustrates a left side view thereof.

Portions of the server face plate, in particular the back side of the server face plate, are not shown in the drawings and form no part of the claimed design.
