(57) **CLAIM**

The ornamental design for a electro magnetic stimulation belt control, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of the electro magnetic stimulation belt control of the present invention; FIG. 2 is a rear elevational view of the electro magnetic stimulation belt control of FIG. 1; FIG. 3 is a left side elevational view of the electro magnetic stimulation belt control of FIG. 1; FIG. 4 is a right side elevational view of the electro magnetic stimulation belt control of FIG. 1; FIG. 5 is a top plan view of the electro magnetic stimulation belt control of FIG. 1; FIG. 6 is a bottom plan view of the electro magnetic stimulation belt control of FIG. 1; and, FIG. 7 is a front elevational view in use (attached to electromagnetic stimulation belt).

The broken lines showing of a logo and numbers in FIGS. 1 and 7, the logo in FIGS. 8 and 14, and the electromagnetic stimulation belt in FIGS. 7 and 14 are for illustrative purposes only and form no part of the claimed design.
