(57) CLAIM

We claim the ornamental design for portions of a clamp bracket assembly for use with push button latch and lock operating assemblies, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing principally top and front features of a first embodiment of portions of a clamp bracket assembly for use with push button latch and lock operating assemblies embodying our new design;

FIG. 2 is a perspective view showing principally bottom and rear features thereof;

FIG. 3 is a front view thereof;

FIG. 4 is a rear view thereof;

FIG. 5 is a right side view thereof;

FIG. 6 is a left side view thereof;

FIG. 7 is a top view thereof;

FIG. 8 is a bottom view thereof;

FIG. 9 is a perspective view showing principally bottom and front portions thereof with a pivotally movable lever thereof at one end of its range of pivotal movement;

FIG. 10 is a perspective view similar to FIG. 9 but with the pivotally movable lever thereof at the other end of its range of pivotal movement, with broken lines disclosing the position of a push button latch and lock operating assembly clamped by the clamp bracket assembly, with this broken line disclosure being provided for illustrative purposes only and forming no part of the design;

FIG. 11 is a perspective view similar to FIG. 10 but showing a second embodiment of portions of a clamp bracket assembly for use with push button latch and lock operating assemblies embodying our new design;

FIG. 12 is a front view thereof;

FIG. 13 is a rear view thereof;

FIG. 14 is a right side view thereof;

FIG. 15 is a left side view thereof;

FIG. 16 is a top view thereof; and,

FIG. 17 is a bottom view thereof.
