CLAIM

The ornamental design for an surface configuration of the interior passenger cabin of an airplane, as shown and described.

DESCRIPTION

This application is related to co-pending application Ser. No. 29/133,533, of the inventors, filed on even date herewith and entitled “Overhead Passenger Controls for an Airplane.” This application is related to co-pending application Ser. No. 29/133,537, of the inventors, filed on even date herewith and entitled “Surface Configuration of a Ceiling Panel for an Airplane.”

FIG. 1 is a view from the front of a surface configuration of the interior passenger cabin of an airplane, the reduction of size indicating the increasing distance from the perspective from which the view is shown, according to our novel design;

FIG. 2 is a view of the side of the surface configuration of the interior passenger cabin of an airplane according to our novel design; and,

FIG. 3 is a view of the ceiling of the surface configuration of the interior passenger cabin of an airplane according to our novel design.

Also enclosed is a set of photographs of an embodiment of our invention.

1 Claim, 3 Drawing Sheets

FIG. 1

FIG. 2

FIG. 3
