(57) **CLAIM**

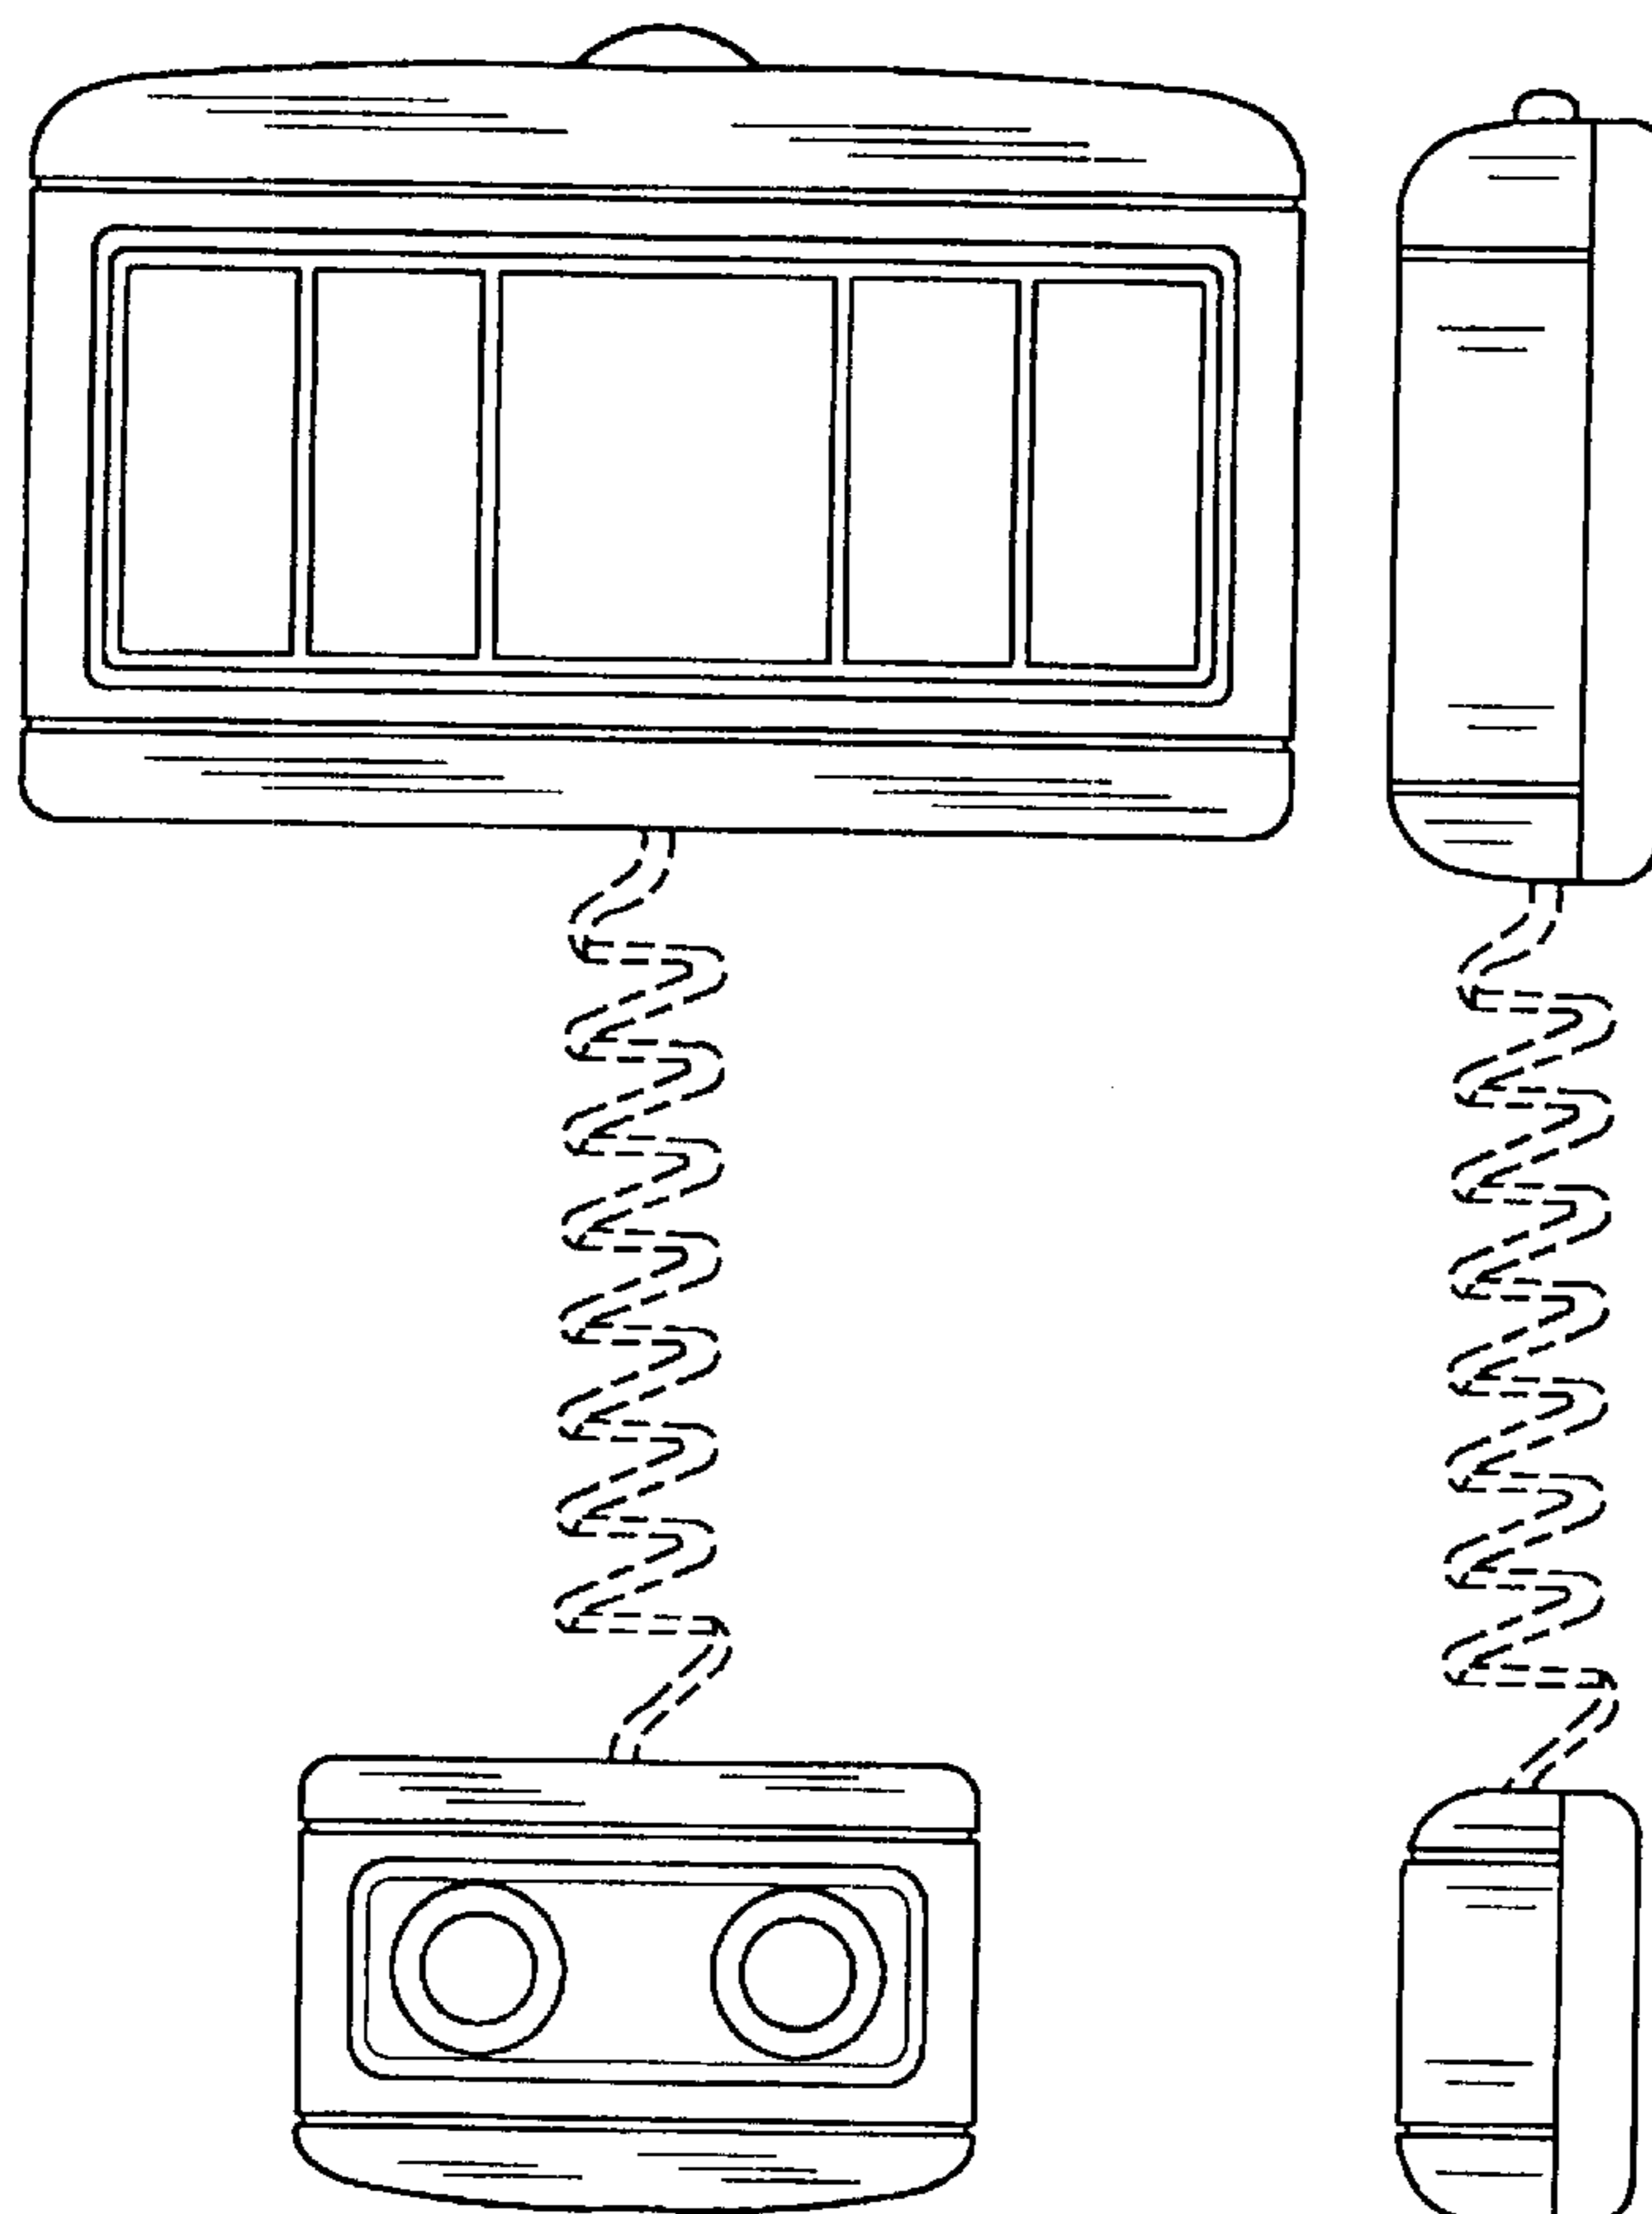

The ornamental design for a combined transmitter and receiver for a vehicle parking indicator sensor, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a combined transmitter and receiver for a vehicle parking indicator sensor according to our design, wherein the connector between the sensor and the indicator shown by broken lines is not part of the claimed design.

FIG. 2 is a top plan view thereof; and,
FIG. 3 is a side view thereof, the opposite side being a mirror image thereof, wherein the connector between the sensor and the indicator shown by broken lines is not part of the claimed design.
