(57) **CLAIM**

The ornamental design for a dispenser housing, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a dispenser housing showing our new design;

FIG. 2 is a front view thereof;

FIG. 3 is a right side view thereof;

FIG. 4 is a left side view thereof;

FIG. 5 is a top view thereof;

FIG. 6 is a bottom view thereof;

FIG. 7 is a perspective view of a dispenser housing showing a second embodiment of our new design;

FIG. 8 is a front view of the dispenser housing of FIG. 7;

FIG. 9 is a right side view of the dispenser housing of FIG. 7;

FIG. 10 is a left side view of the dispenser housing of FIG. 7;

FIG. 11 is a top view of the dispenser housing of FIG. 7; FIG. 12 is a bottom view of the dispenser housing of FIG. 7;

FIG. 13 is a perspective view of an exemplary embodiment of the dispenser housing of FIG. 1 showing the dispenser having a particular height;

FIG. 14 is a front view of the dispenser housing of FIG. 13; FIG. 15 is a right side view of the dispenser housing of FIG. 13;

FIG. 16 is a top view of the dispenser housing of FIG. 13; FIG. 17 is a bottom view of the dispenser housing of FIG. 13;

FIG. 18 is a left side view of the dispenser housing of FIG. 13;

FIG. 19 is a rear view of the dispenser housing of FIG. 13; FIG. 20 is a perspective view of an exemplary embodiment of the dispenser housing of FIG. 7 showing the dispenser having a particular height;

FIG. 21 is a front side view of the dispenser housing of FIG. 20;

FIG. 22 is a right side view of the dispenser housing of FIG. 20;

FIG. 23 is a top view of the dispenser housing of FIG. 20; FIG. 24 is a bottom view of the dispenser housing of FIG. 20;

FIG. 25 is a left side view of the dispenser housing of FIG. 20; and,

FIG. 26 is a rear view of the dispenser housing of FIG. 20.

The broken line showing of various features is for illustrative purposes only and forms no part of the claimed design. The generally horizontal wavy broken lines and bracket in the dispenser housings in FIGS. 1–12 indicate that the claimed design includes upper and lower sections and that the center section therebetween forms no part of the claimed design. The rear surface of the dispenser, which is unshown in the embodiments in FIGS. 1–12 and disclaimed by a broken line boundary with no shading therein in the embodiments in FIGS. 13–26, forms no part of the claimed design. The shading of the front panel in the embodiments of FIGS. 1–6 and FIGS. 13–19 represents a front panel that is partially or totally transparent, and shading of the front panel in the embodiments of FIGS. 7–12 and FIGS. 20–26 represents a front panel that is partially or totally opaque.
