(57) **CLAIM**

The ornamental design for a tread of a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a tread of a tire of the present invention, it being understood that the pattern is repeated uniformly throughout the circumference of the tread; and, FIG. 2 is an elevational view of the tread of the tire tread shown in FIG. 1.

The broken lines showing the inner bead in FIG. 1 are for illustrative purposes only and form no part of the claimed design.

In the drawings, the dark stippled surface shading represents the recessed portion of the tread grooves, having a depth as best shown in FIG. 2.
