(57) CLAIM

The ornamental design for a test device platform, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of test device platform showing our new design, lined for the colors pink or red;

FIG. 2 is a perspective view of a second embodiment of a test device platform showing our new design, lined for the color blue;

FIG. 3 is a perspective view of a third embodiment of a test device platform showing our new design, lined for the colors violet or purple;

- FIG. 4 is a perspective view of a fourth embodiment of a test device platform showing our new design, lined for the colors grey or silver;
- FIG. 5 is a perspective view of a fifth embodiment of a test device platform showing our new design, lined for the color green;
- FIG. 6 is a perspective view of a sixth embodiment of a test device platform showing our new design, lined for the color brown;
- FIG. 7 is a perspective view of a seventh embodiment of a test device platform showing our new design, lined for the colors yellow or gold;
- FIG. 8 is a perspective view of a eight embodiment of a test device platform showing our new design, lined for the color orange;
- FIG. 9 is a perspective view of a ninth embodiment of a test device platform showing our new design, lined for the color black;
- FIG. 10 is top plan view of a tenth embodiment of a test device platform showing our new design, lined for transparent or translucent;
- FIG. 11 is a right side view thereof;
- FIG. 12 is a left side view thereof;
- FIG. 13 is an end view thereof;
- FIG. 14 is an end view thereof, opposite that shown in FIG. 13;
- FIG. 15 is a bottom plan view thereof;
- FIG. 16 is a perspective view of a sixteenth embodiment of a test device platform showing our new design, lined for transparent or translucent;
- FIG. 17 is a perspective view of a seventeenth embodiment of a test device platform showing our new design, lined for transparent or translucent and the colors pink or red;
- FIG. 18 is a perspective view of a eighteenth embodiment of a test device platform showing our new design, lined for transparent or translucent and for the color blue;
- FIG. 19 is a perspective view of a nineteenth embodiment of a test device platform showing our new design, lined for transparent or translucent and lined for the colors violet or purple;

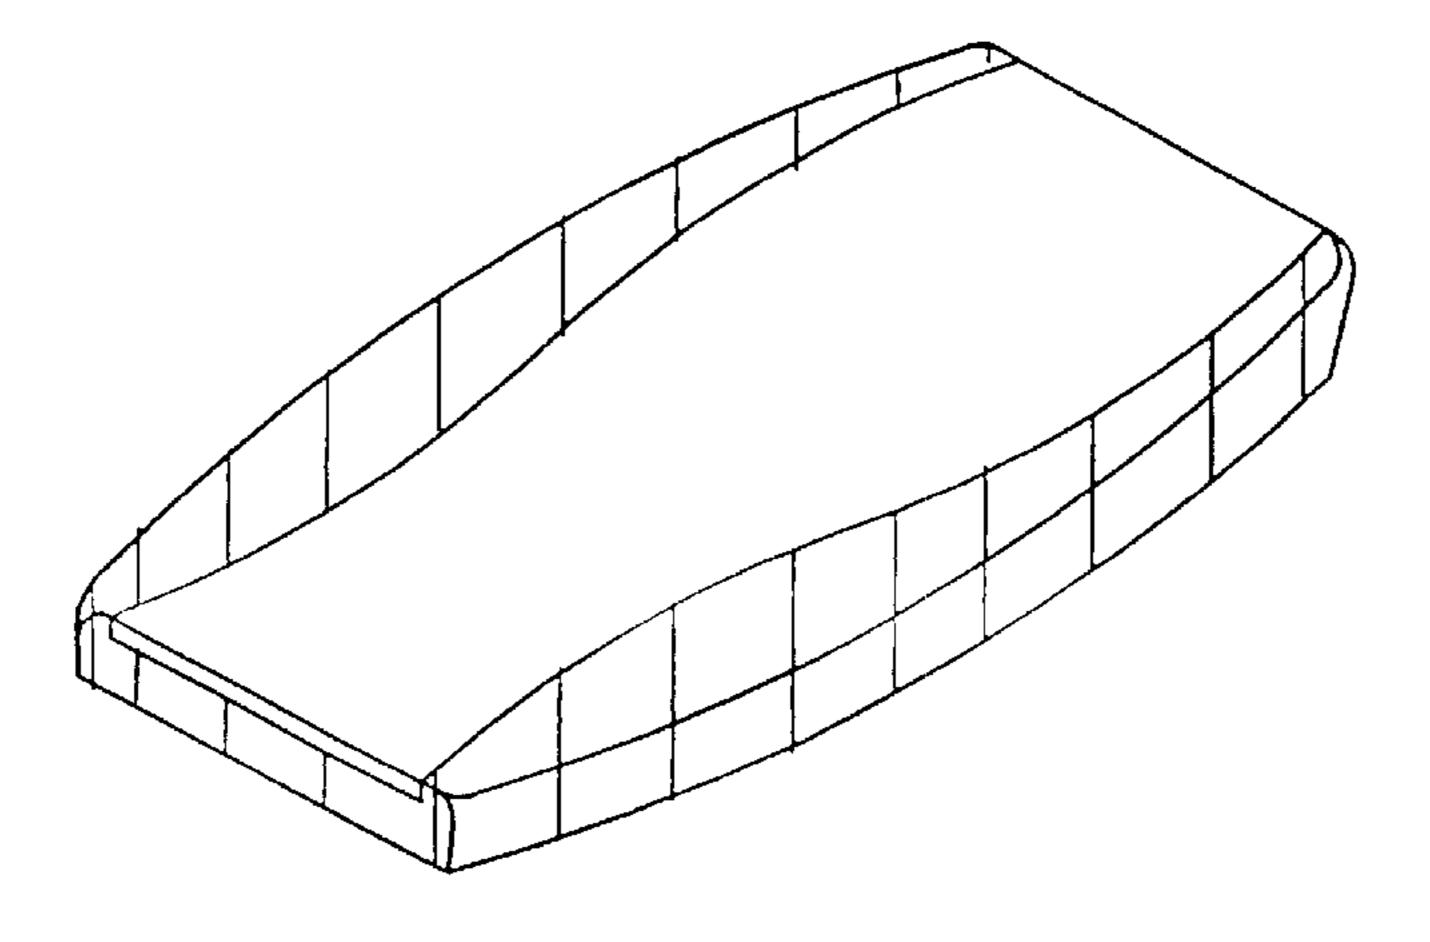

FIG. 20 is a perspective view of a twentieth embodiment of a test device platform showing our new design, lined for transparent or translucent and lined for the colors grey or silver;

FIG. 21 is a perspective view of a twenty first embodiment of a test device platform showing our new design, lined for transparent or translucent and lined for the color green;

FIG. 22 is a perspective view of a twenty second embodiment of a test device platform showing our new design, lined for transparent or translucent and lined for the color brown; FIG. 23 is a perspective view of a twenty third embodiment of a test device platform showing our new design, lined for transparent or translucent and lined for the colors yellow or gold;

FIG. 24 is a perspective view of a twenty fourth embodiment of a test device platform showing our new design, lined for transparent or translucent and lined for the color orange; and,

FIG. 25 is a perspective view of a twenty fifth embodiment of a test device platform showing our new design, lined for transparent or translucent lined for the color black.

The figures, when lined, are lined for color, transparent or translucent using standard United States Patent and Trademark Office symbols.
