(57) **CLAIM**

The ornamental design for a mounting apparatus, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a mounting apparatus including a support member with a mounting bracket mounted thereon and an exemplary support structure illustrated in broken lines attached to the mounting bracket;

FIG. 2 is an enlarged fragmentary perspective view of FIG. 1 with the broken line environmental structure omitted for clarity;

FIG. 3 is a front elevational view of the support member of FIG. 1;

FIG. 4 is a rear elevational view of the support member of FIG. 1;

FIG. 5 is a perspective view of the support member of FIG. 1;

FIG. 6 is an enlarged front perspective view of the mounting bracket;

FIG. 7 is an enlarged rear perspective view of the mounting bracket;

FIG. 8 is an enlarged top plan view of the mounting bracket; and,

FIG. 9 is an enlarged side elevational view of the mounting bracket.

The broken lines shown in the figures are for illustrative purposes only and form no part of the claimed design. FIGS. 3 through 7, showing the support member and mounting bracket separately, are for clarity of illustration.
