(57) **CLAIM**

The ornamental design for a network remotely switchable power supply, as shown and described.

DESCRIPTION

This application is related to the following design application by the same inventor, each of which is incorporated by reference and each of which was filed on the same day at this application:

FIG. 1 is a perspective view of a network remotely switchable power supply showing my new design;

FIG. 2 is a top plan view thereof; the bottom plan view being a mirror image thereof;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a left side elevational view thereof;

FIG. 6 is a rear elevational view thereof;

FIG. 7 is a perspective view of a network remotely switchable power supply showing flush outlets openings according to an alternative embodiment of my new design;

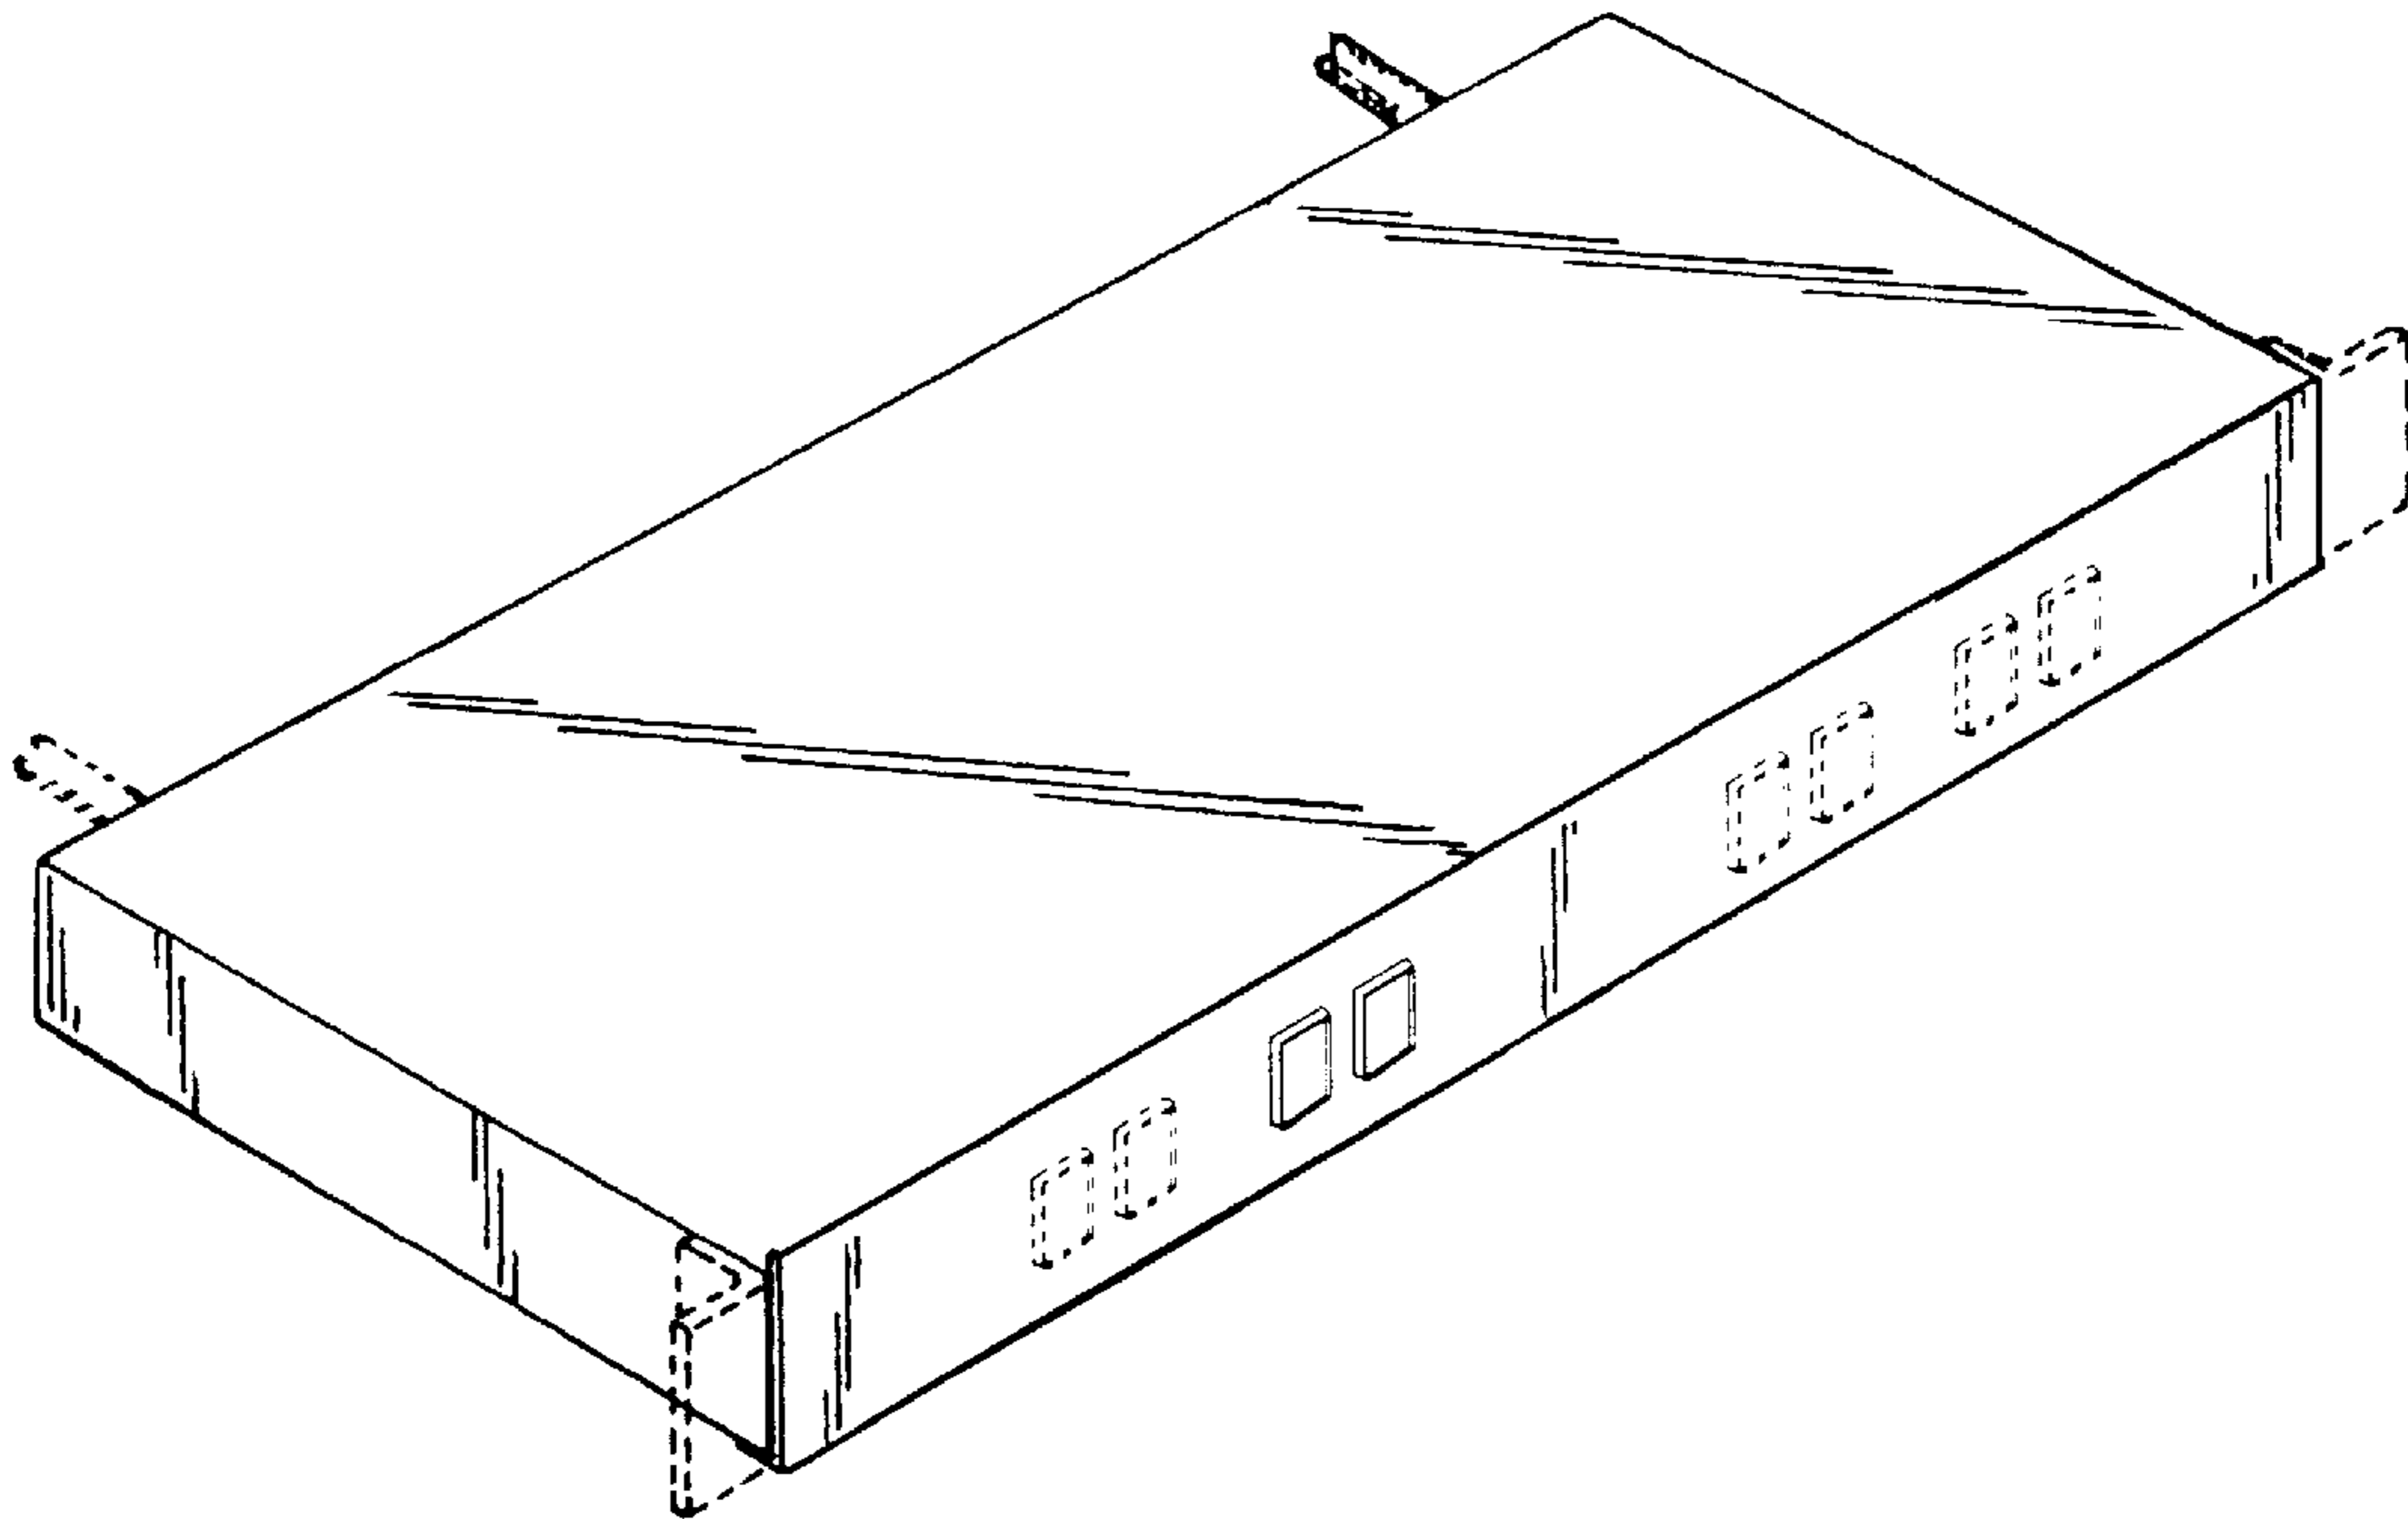

FIG. 8 is a top plan view of the embodiment shown in FIG. 7, the bottom plan view being a mirror image thereof;

FIG. 9 is a right side elevational view of the embodiment shown in FIG. 7; and,

FIG. 10 is a left side elevational view of the embodiment shown in FIG. 7.

The broken line showing throughout the drawing figures is included for the purpose of illustrating environmental structure only and forms no part of the claimed design.
