(57) **CLAIM**

We claim the ornamental design for an equipment bag for digital video-recording camera, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an equipment bag for digital video-recording camera showing our new design; FIG. 2 is a front elevational view of the bag shown in FIG. 1; FIG. 3 is a rear elevational view of the bag shown in FIG. 1; FIG. 4 is a left side elevational view of the bag shown in FIG. 1; FIG. 5 is a right side elevational view of the bag shown in FIG. 1; FIG. 6 is a plan view of the bag shown in FIG. 1; FIG. 7 is a bottom side elevational view of the bag shown in FIG. 1; FIG. 8 is a front perspective view of a first alternate embodiment of the design shown in FIG. 1; FIG. 9 is a front elevational view of the bag shown in FIG. 8; FIG. 10 is a rear elevational view of the bag shown in FIG. 8; FIG. 11 is a left side elevational view of the bag shown in FIG. 8; FIG. 12 is a right side elevational view of the bag shown in FIG. 8; FIG. 13 is a plan view of the bag shown in FIG. 8; and, FIG. 14 is a bottom side elevational view of the bag shown in FIG. 8.

The bag depicted in the drawings is “soft,” meaning that it is largely made of fabric, and is useful for carrying equipment and the accessories related to such equipment. An example of such equipment is a digital video-recording camera.

The broken lines shown on the edges, bottom, and handle, of the bag, throughout the views are understood to represent stitching.
