(57) **CLAIM**

The ornamental design for a front bezel for an electronic device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a front bezel for an electronic device;

FIG. 2 is a top view of a front bezel for an electronic device;

FIG. 3 is a left side view of a front bezel for an electronic device;

FIG. 4 is a frontal view of a front bezel for an electronic device;

FIG. 5 is a right side view of a front bezel for an electronic device; and,

FIG. 6 is a bottom view of a front bezel for an electronic device.

The broken lines in the Figures illustrate a possible environment for the front bezel and are not part of the claimed design. The environment shown by broken lines may be, for example, any electronic device, such as a computer system or network storage system.

The broken lines in the Figures illustrate a possible environment for the front bezel and are not part of the claimed design. The environment shown by broken lines may be, for example, any electronic device, such as a computer system or network storage system.

The broken lines in the Figures illustrate a possible environment for the front bezel and are not part of the claimed design. The environment shown by broken lines may be, for example, any electronic device, such as a computer system or network storage system.

The broken lines in the Figures illustrate a possible environment for the front bezel and are not part of the claimed design. The environment shown by broken lines may be, for example, any electronic device, such as a computer system or network storage system.

The broken lines in the Figures illustrate a possible environment for the front bezel and are not part of the claimed design. The environment shown by broken lines may be, for example, any electronic device, such as a computer system or network storage system.

The broken lines in the Figures illustrate a possible environment for the front bezel and are not part of the claimed design. The environment shown by broken lines may be, for example, any electronic device, such as a computer system or network storage system.

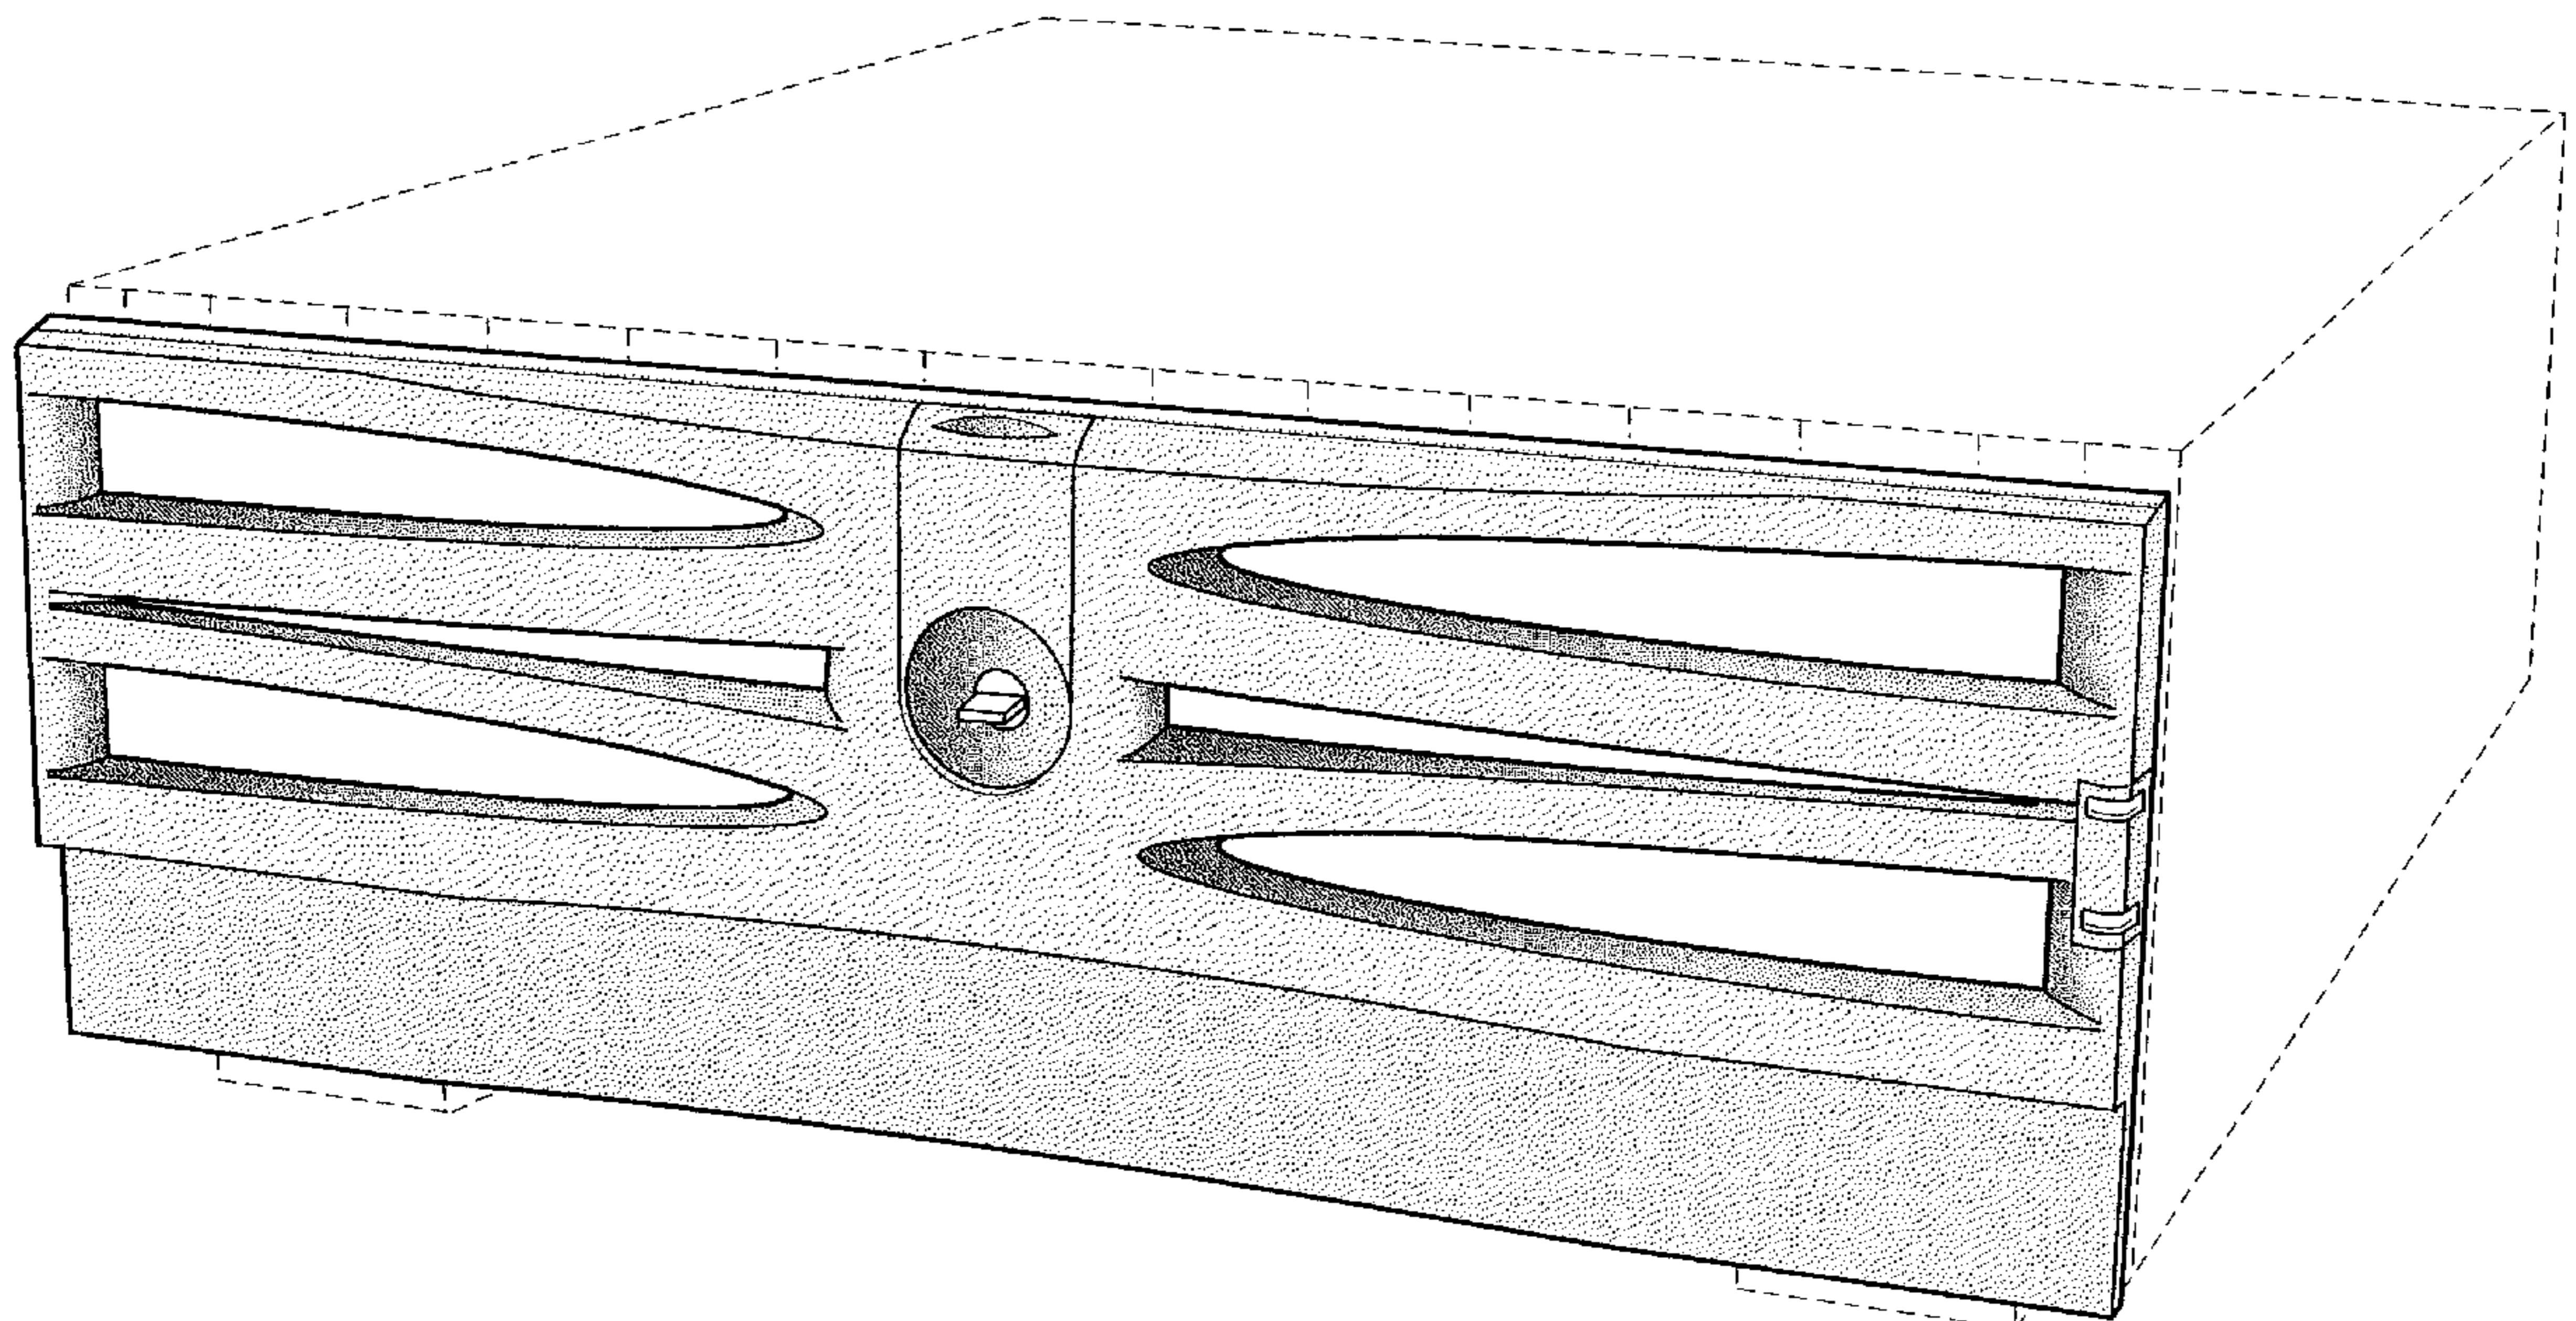

The broken lines in the Figures illustrate a possible environment for the front bezel and are not part of the claimed design. The environment shown by broken lines may be, for example, any electronic device, such as a computer system or network storage system.

The broken lines in the Figures illustrate a possible environment for the front bezel and are not part of the claimed design. The environment shown by broken lines may be, for example, any electronic device, such as a computer system or network storage system.

The broken lines in the Figures illustrate a possible environment for the front bezel and are not part of the claimed design. The environment shown by broken lines may be, for example, any electronic device, such as a computer system or network storage system.

The broken lines in the Figures illustrate a possible environment for the front bezel and are not part of the claimed design. The environment shown by broken lines may be, for example, any electronic device, such as a computer system or network storage system.
