(57) **CLAIM**

The ornamental design for a apertured nonwoven fabric,
substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a apertured nonwoven fabric
showing my new design;

FIG. 2 is a side elevational view thereof taken along lines
2—2 of FIG. 1, the opposite side elevational view being
identical; and,

FIG. 3 is a top plan view thereof.

The broken lines surrounding the claimed design indicate
that the apertured nonwoven fabric has indeterminate length
and width. The broken lines form no part of the claimed
design.
