The ornamental design for the combination of a candle in a tin with a card, as shown and described.

DESCRIPTION

The present application discloses a combination of a candle formed inside a cylindrical tin with a card affixed to the inside of the lid of the tin. This combination is intended to be used as a gift item for special occasions, with the candle used in the ordinary manner and the card customizable for the particular occasion.

FIG. 1 shows an oblique view of the combination (tin with lid, tin closed).

FIG. 2 shows a top view of the combination (tin lid visible, tin closed).

FIG. 3 shows a side view of the combination (tin with lid, tin closed).

FIG. 4 shows a bottom view of the combination (bottom of tin, portion of lid visible).

FIG. 5 shows a side view of the combination of the tin lid and card (card open).

FIG. 6 shows a bottom view of the combination of the tin lid and card (card open).

FIG. 7 shows a top view of the combination (tin lid visible).

FIG. 8 shows a side view of the combination of the tin lid and card (card open).

FIG. 9 shows an oblique view of the combination of the tin lid and card from a perspective above the combination; and,

FIG. 10 shows an oblique view of the combination of the tin lid and card from a perspective beneath the combination.
