DESCRIPTION

FIG. 1 is a front perspective view of a container showing our new design;

FIG. 2 is a top plan view of the container shown in FIG. 1;

FIG. 3 is a front elevational view of the container shown in FIG. 1; and,

FIG. 4 is a bottom view of the container shown in FIG. 1.

The broken lines are for environmental purposes only and form no part of the claimed design. It will be understood that the sidewall design shown in FIG. 3 extends completely around the container. As such, the left side, right side and rear views of the container are identical to the front elevational view of FIG. 3.

The outer most broken line circle on FIG. 4 defines the limit of the claim but is not a part thereof.
