(57) **CLAIM**

The air pump, as shown and described in the drawings.

DESCRIPTION

FIG. 1 is a front elevational view of the air pump of this invention.

FIG. 2 is a rear elevational view of the air pump of this invention.

FIG. 3 is a right side elevational view of the air pump of this invention.

FIG. 4 is a left side elevational view of the air pump of this invention.

FIG. 5 is a top elevational view of the air pump of this invention.

FIG. 6 is a bottom elevational view of the air pump of this invention; and,

FIG. 7 is a right perspective view of the air pump of this invention.

The portions of the invention in dotted lines are for illustrative purposes only and form no part of the claimed invention. Specifically, the front cylindrical projection and gauge therein, the thumb button on the front sliding plate, the eight air holes on the front sliding plate, the removable battery pack on the bottom, the air hose along the rear and top, the guide rails running parallel to the air hose on the top and rear, the electrical socket on the left side, the logo in FIG. 7, and the various screw holes are for illustrative purposes only and form no part of the claimed invention.
