(57) **CLAIM**

The ornamental design for a cable guide device for guiding cables over multiple paths, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of the front face of a cable guide device for guiding cables over multiple paths of the present design to which cable captive elements (not shown) can be attached to space cables from the front surface;
FIG. **2** is a front plan view thereof showing mounting recesses for cable capture elements along the bottom and side edges;
FIG. **3** is a rear plan view thereof;
FIG. **4** is a top elevational view thereof;
FIG. **5** is a bottom elevational view thereof; and,
FIG. **6** is a left side elevational view thereof, the right side being a mirror image thereof.
