(57) **CLAIM**

The ornamental design for an interconnect enclosure for computer and audio visual equipment mountable on an edge of a table, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an interconnect enclosure for computer and audio visual equipment mountable on an edge

of a table in accordance with a first embodiment. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 2 is a front elevational view thereof. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 3 is a left elevational view thereof. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 4 is a right elevational view thereof. The broken lines are to illustrate an environment only and form no part of the claimed design.

The appearance of the back and the bottom forms no part of the claimed design.

FIG. 5 is a perspective view of an interconnect enclosure for computer and audio visual equipment mountable on an edge of a table in accordance with a second embodiment. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 6 is a left elevational view thereof. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 7 is a front elevational view thereof. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 8 is a right elevational view thereof. The broken lines are to illustrate an environment only and form no part of the claimed design.

The appearance of the back and the bottom forms no part of the claimed design.

FIG. 9 is a perspective view of an interconnect enclosure for computer and audio visual equipment mountable on an edge of a table in accordance with a third embodiment. The broken lines are to illustrate an environment only and form no part of the claimed design.

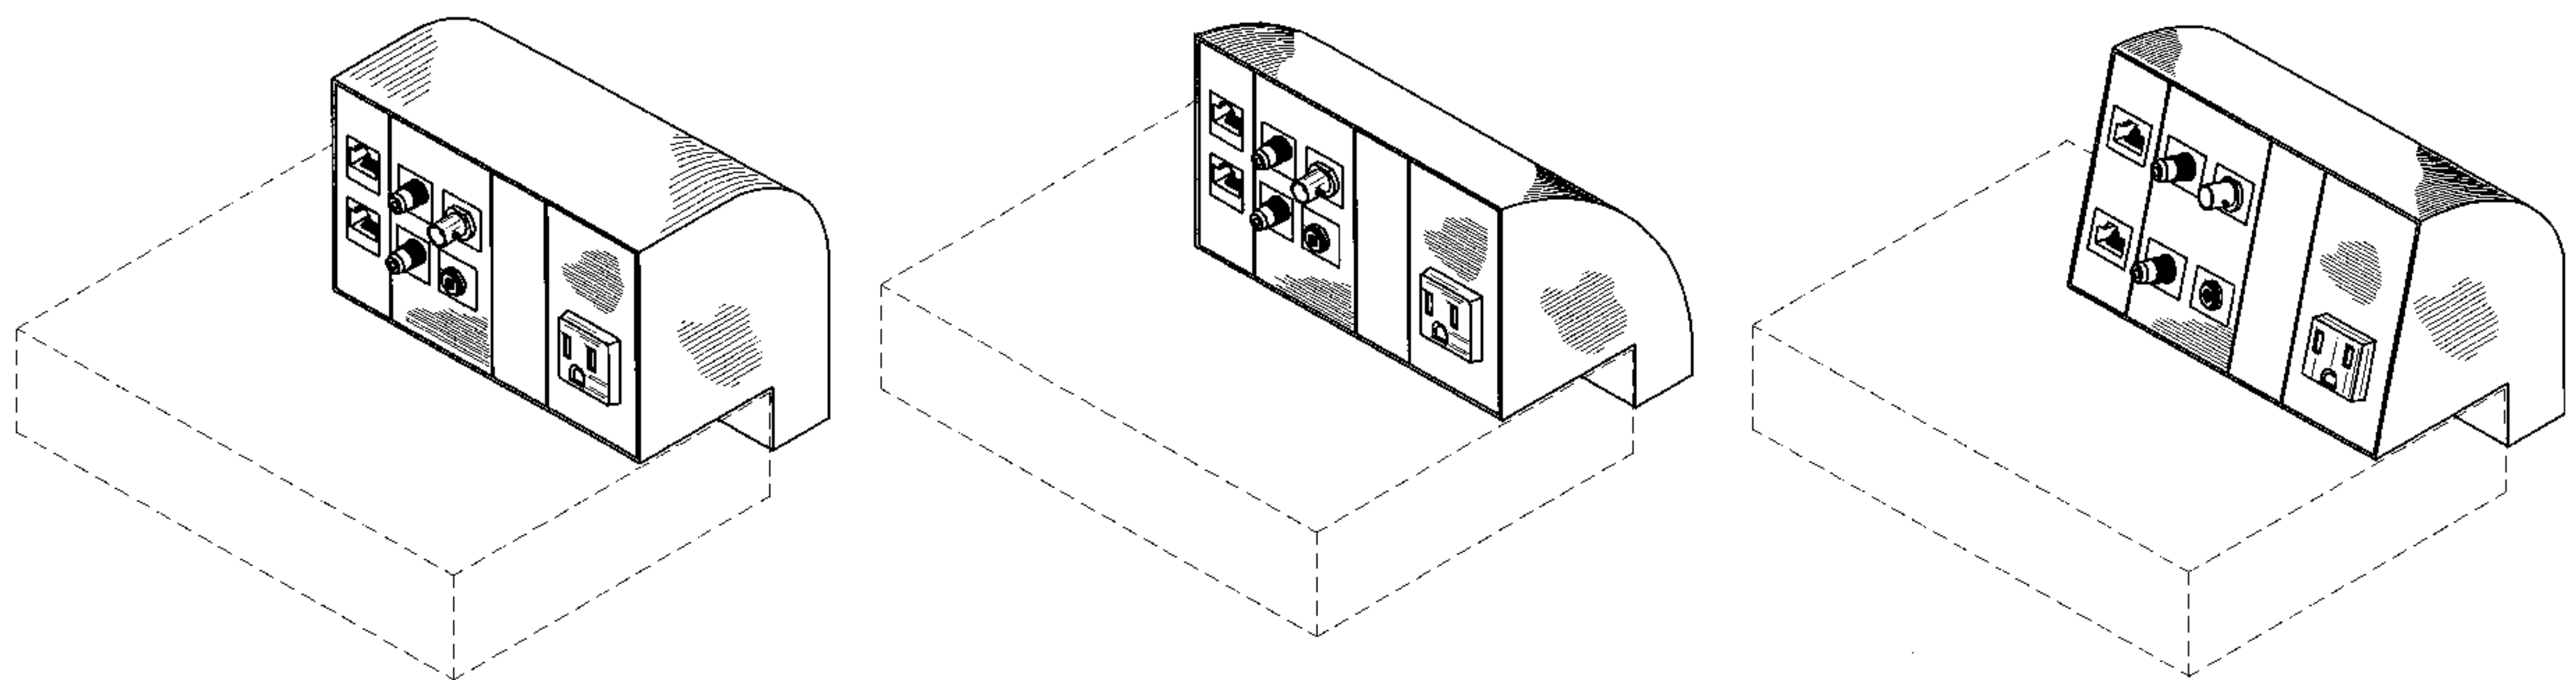

FIG. 10 is a left elevational view thereof. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 11 is a front elevational view thereof. The broken lines are to illustrate an environment only and form no part of the claimed design; and,

FIG. 12 is a right elevational view thereof. The broken lines are to illustrate an environment only and form no part of the claimed design.

The appearance of the back and the bottom forms no part of the claimed design.
