(57) **CLAIM**

The ornamental designs for a laser projection tool, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of one embodiment of a laser projection tool with its lid down;
FIG. **2** is a right side view of the laser projection tool shown in FIG. **1** with the left side view being substantially a mirror image thereof;
FIG. **3** is a top view of the laser projection tool shown in FIG. **1**;
FIG. **4** is a bottom view of the laser projection tool shown in FIG. **1**;
FIG. **5** is a front side view of the laser projection tool shown in FIG. **1**;
FIG. **6** is a rear side view of the laser projection tool shown in FIG. **1**;
FIG. **7** is a perspective view of the laser projection tool shown in FIG. **1** with its lid up;
FIG. **8** is a right side view of the laser projection tool shown in FIG. **7** with the left side view being substantially a mirror image thereof;
FIG. **9** is a top view of the laser projection tool shown in FIG. **7**;
FIG. **10** is a bottom view of the laser projection tool shown in FIG. **7**;
FIG. **11** is a front side view of the laser projection tool shown in FIG. **7**;
FIG. **12** is a rear side view of the laser projection tool shown in FIG. **7**;
FIG. **13** is a perspective view of another embodiment of a laser projection tool with its lid up;
FIG. **14** is a right side view of the laser projection tool shown in FIG. **13** with the left side view being substantially a mirror image thereof;
FIG. **15** is a top view of the laser projection tool shown in FIG. **13**;
FIG. **16** is a bottom view of the laser projection tool shown in FIG. **13**;
FIG. **17** is a front side view of the laser projection tool shown in FIG. **13**; and,
FIG. **18** is a rear side view of the laser projection tool shown in FIG. **13**.
The broken lines showing the environment of the laser projection tool are for environmental purposes only and do not form any part of the claimed designs.
