(57) **CLAIM**

The ornamental design for a tip-up light bar assembly, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of a tip-up light bar assembly showing our new design, the opposite rear view being identical;

FIG. 2 is a top plan view, partially illustrated in broken lines, of the tip-up light bar assembly of FIG. 1;

FIG. 3 is a left side elevational view, partially illustrated in broken lines of the tip-up light bar assembly of FIG. 1, the opposite right side view being identical;

FIG. 4 is a front elevational view, partially illustrated in broken lines, of the tip-up light bar assembly of FIG. 1 projected to an upright position;

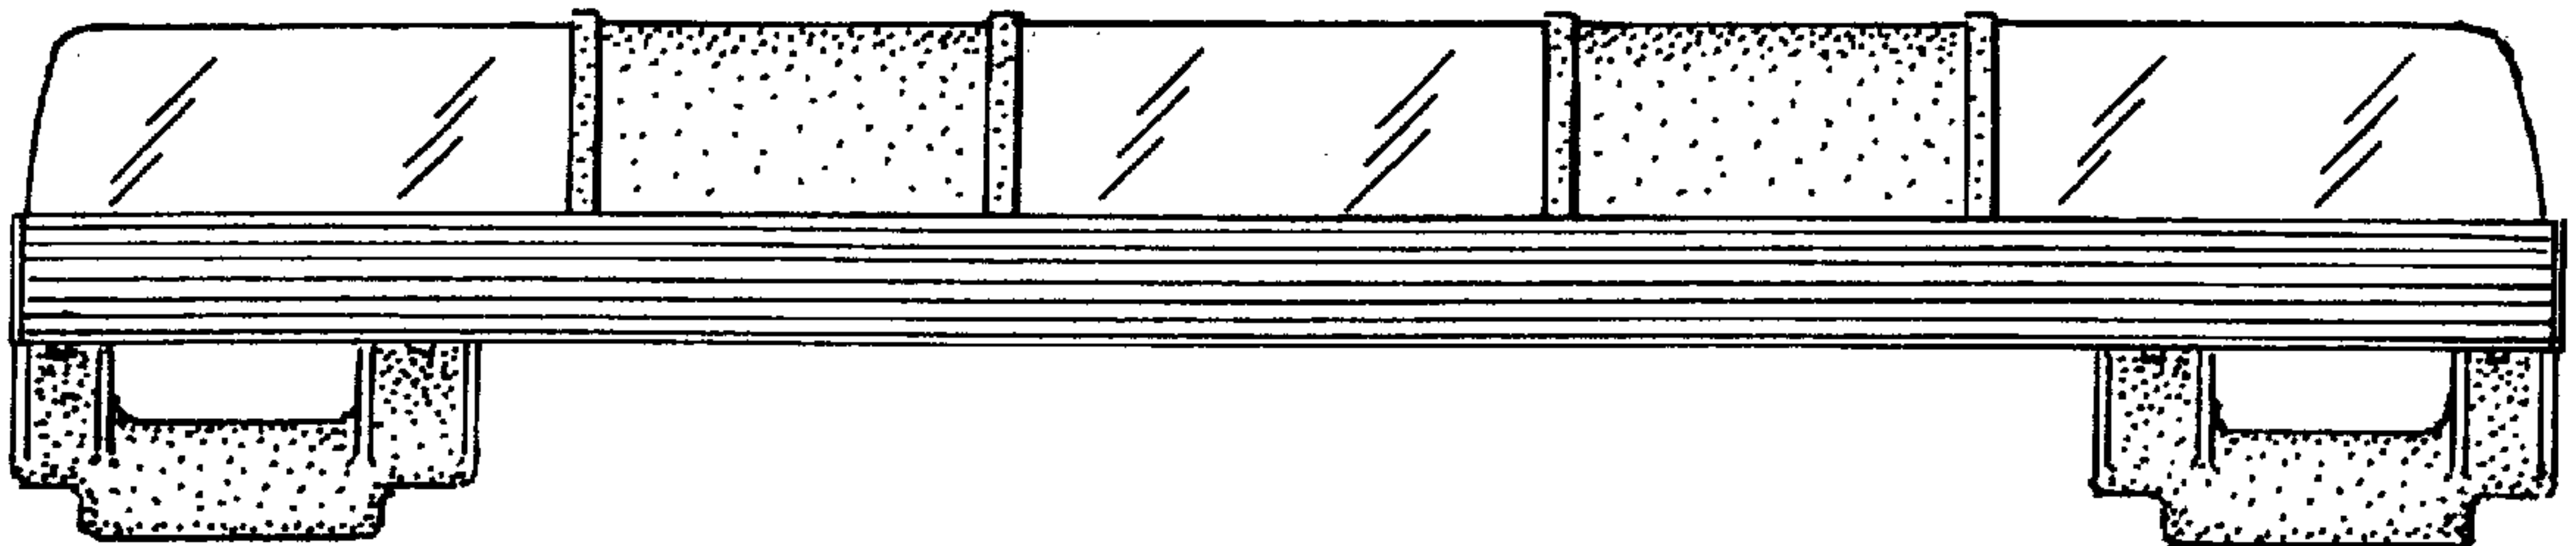

FIG. 5 is a top plan view, partially illustrated in broken lines, of the tip-up light bar assembly in the position of FIG. 4; and,

FIG. 6 is a left side elevational view, partly illustrated in broken lines, of the tip-up light bar assembly in the position of FIG. 4, the opposite right side elevational view being a mirror image identical.

No claim is made to any fractures of the bottom plan view of the tip-up light bar assembly.

The portions shown in broken lines form no part of the claimed design.
