(57) **CLAIM**

We claim the ornamental design for a container closure, as shown and described.

DESCRIPTION

FIG. 1 is a front prospective view of the container closure. FIG. 2 is a front elevational view of the closure, the rear elevational view being a mirror image thereof.

FIG. 3 is a side elevational view of the closure, the opposing side elevational view being a mirror image thereof.

FIG. 4 is a top plan view of the closure, the bottom of the closure being without ornamentation and forming no part of the claimed design.

FIG. 5 is a perspective view of a container closure in accordance with a modified embodiment of the invention.

FIG. 6 is a front elevation view of the closure of FIG. 5, the rear elevational view being a mirror image thereof.

FIG. 7 is a side elevation view of the closure of FIGS. 5-6, the opposing side elevational view being a mirror image thereof, the top plan view of the closure of FIGS. 5-7 being identical to FIG. 4 and the bottom of the closure being without ornamentation and forming no part of the claimed design; and,

FIG. 8 is a perspective view of a closure in accordance with another modified embodiment of the invention, the front elevational view being identical to FIG. 6 and the rear elevational view being a mirror image thereof, the side elevational view being identical to FIG. 7 and the opposing side elevational view being a mirror image thereof, the top plan view being identical to FIG. 4, and the bottom being without ornamentation and forming no part of the claimed design.
