(57) **CLAIM**

We claim the ornamental design for the folding brush case,
as shown and described in the figures and specification
attached hereto.

DESCRIPTION

FIG. 1 is a top perspective view of the folding brush case,
shown in the open position, without a brush therein,

FIG. 2 is a perspective view of the folding brush case, shown
in the closed position, which is identical whether or not the
brush is located therein,

FIG. 3 is a right side view and a left side view of the folding
brush case, shown in the closed position, which is identical
whether or not the brush is located therein,

FIG. 4 is a top side view for a folding brush case, shown in
the closed position, which is identical whether or not the
brush is located therein,

FIG. 5 is a bottom side view of the folding brush case, shown
in the closed position, which is identical whether or not the
brush is located therein,

FIG. 6 is a front side view of the folding brush case, shown
in the closed position, which is identical whether or not the
brush is located therein,

FIG. 7 is a rear side view of the folding brush case, shown
in the closed position, which is identical whether or not the
brush is located therein,

FIG. 8 is a bottom side view of the folding brush case, shown
in the open position, which is identical whether or not the
brush is located therein;

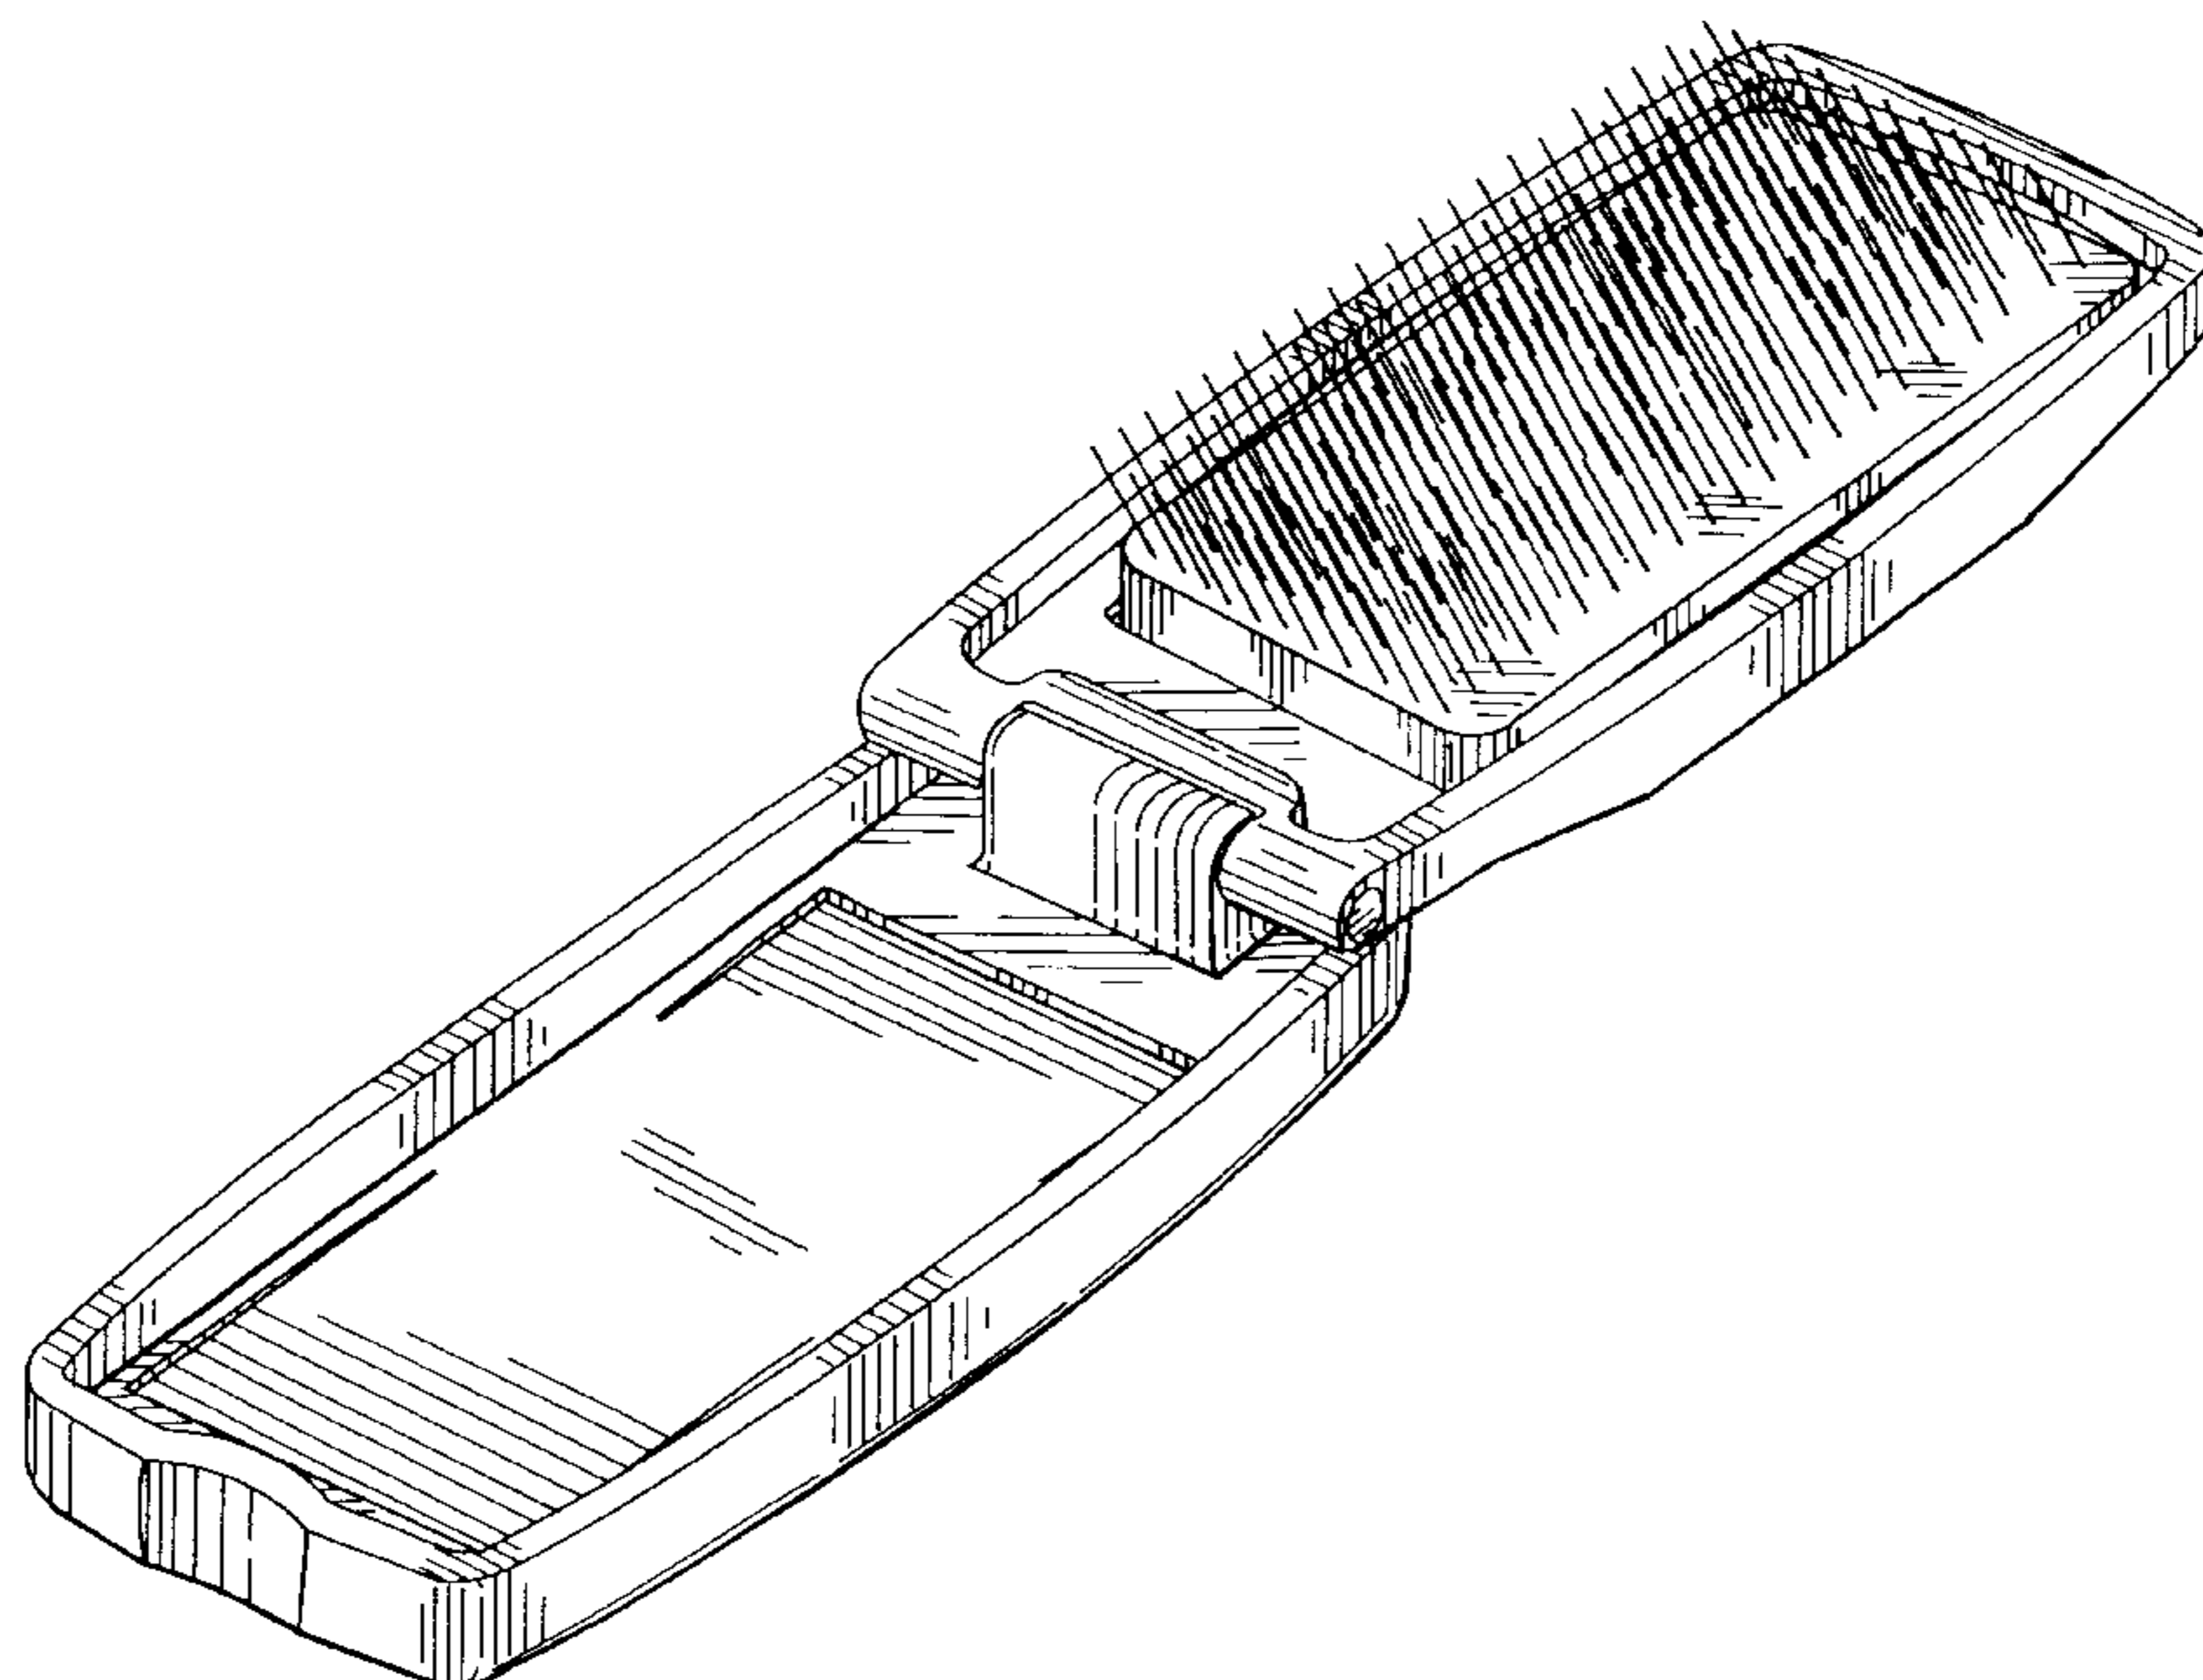

FIG. 9 is a top side view of the folding brush case, shown
in the open position, without a brush therein,

FIG. 10 is a right side view and a left side view of the folding
brush case, shown in the open position, without a brush
therein,

FIG. 11 is a bottom perspective view of the folding brush
case, which is identical whether or not the brush is located
therein.

FIG. 12 is a top perspective view of a second embodiment,
of the folding brush case, showing the brush therein, and,
FIG. 13 is an environmental view of the folding brush case,
of FIG. 12, demonstrating one of the many uses of the
instant invention. The broken lines shown in FIG. 13 are
illustrative purposes only and do not comprise any part of
the claimed design.
