(57) **CLAIM**

The ornamental design for a control console for a printing machine, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a control console for a printing machine according to the present invention; FIG. 2 is a front elevational view thereof; and, FIG. 3 is a left side elevational view thereof, the right side is a mirror image.

The bottom of the control console for a printing machine is flat and unadorned.
