(57) **CLAIM**

The ornamental design of a convex compacted U-shaped bag with zipper edge, as shown and described.

**DESCRIPTION**

FIG. 1 is a top plan view of a convex compacted U-shaped bag with zipper edge having a top surface with shading indicating a first preselected fabric and having a zipper edge, the bottom plan view being a mirror image thereof;

FIG. 2 is a side perspective view thereof;

FIG. 3 is a side perspective view for a convex compacted U-shaped bag with zipper edge as in FIG. 1 showing an alternative in which a major portion of the top surface has shading indicating the first preselected fabric, a minor portion of the top surface has shading indicating a second preselected fabric, a bottom surface has shading indicating a third preselected fabric, and a circumferential zipper has shading indicating a fourth preselected fabric; and,

FIG. 4 is a plan view of a convex compacted U-shaped bag with zipper edge, now shown in an inverted state with the top and bottom surfaces spaced from one another and commonly supported by an uncompacted carry bag, the contour of the uncompacted carry bag forming no part of the claimed design.

The broken line showing of hardware (e.g.; the closure and zipper) as well as the position of the hardware relative to the claimed design and any other broken lines are to show the environment only and are not part of the claimed design.
